## PREAMBLE

It would be Folly to think one could illuminate better on the precepts that Our Founders and Great Thinkers enshrined in Our Constitution. They addressed the greatest burdens and responsibilities; and did so under the greatest duress. Whether War or Depression, the United States, through four centuries of rocky growth, upheavals, and strife, has made it to the perilous Present. Those that internally feel the need for its destruction - often in the highest positions regarding its protection - seemingly disregard how fragile this Bountiful Country, and Civilization, is. They further ignore all the personal histories, in all manner of outward and inward presentation, that made the United States what it once was, *and still can be*, if these thwarting forces are finally vanquished from Power.

The Verity of Time Is: Those that ignore the Past and toss away long-standing Values, that made all Souls better for having them, doom their futures and their descendants as well. Whether by apathy, nihilism, or psychopathy, these unhealthy forces ruin Civilizations. Yet, these do not happen instantaneously. These forces are gradually built through miseducation, egregious mistakes of violence, and frittering away one's inheritance. Most visibly, by allowing those who have no vested interest in humanity's success; crass international interests; and investment in destruction for destruction's sake. A country needs truth and proper teaching to survive the depths of privation that does occur from time to time. Most assuredly, propaganda and hate-filled narratives flood fooled minds as a well-deployed divider, a useful tool in the recent scores of time, deceptively deployed by betraying leaders aligned to Party, not Country. In lockstep, foreign conflicts, lasting far longer, and costlier, than even the deadliest War in recent World History, squandered precious Lives and Patriotism. These wars are a racket for investors to profit handsomely off All Death. Meanwhile, infrastructure in Our Country grows dilapidated, abandoned; as Our Land is hustled into Foreign hands by the very Citizens that should care about the ground under their feet being Free. Never has so much Apathy, Indifference and Greed befallen a People that achieved just Three Score and Seventeen Years Prior the Most Powerful Navy and Industrial Might ever amassed on This Earth.

Sadly, only Parasitic Fools would be so blind, and so destructive, to pick the courses of actions seen in one's lifetime. And so, this Declaration of a New American Liberty is not closed-minded or unyielding. But rather, it entails: to Define root causes; Offer solutions; and lastly, *Invoke A Declaration of the Common Man*. For if We Do Not Seek Remedy at this Critical Juncture, Our Failures will Erase this Country from Memory and History.

## I SECURITY

No country can last without securing its borders. One cannot operate with liberty if one is worried about who will occupy their territory right up to their doorsteps. This topic has been ping-ponged between two parties for their own selfish and cynical desires. On the one hand, Democrats use the cover of racism and discrimination to import in voters with promises of welfare to persons who would likely never leave their home country if not for the havoc caused by a Washington, D.C. bureaucrat, lobbyist, or think tank's suggested actions abroad. Not to be outdone, the Republicans gladly deploy these immigrants, without the legality of entry, as a cheap and controllable labor force that further retards the aspirations of American-born Citizens. Each political party has spent forty years talking arrogantly down to the Public, making up terms to hide the crisis, and kicking the issue to the Courts, who are equally incapable of addressing it with any commonsense legal approaches.

If it were only this, one might be able to overlook this cynical hustle by these criminal charlatans called politicians; or their legion of agency hacks from the FBI, DHS, CBP to ICE.<sup>1</sup> But this is not the case. Rather, the importation of lethal drugs, sex trafficking of women and children<sup>2,3</sup> and armaments in state-side operations to Mexico is embarrassingly obvious.<sup>4</sup> Moreover, the fact non-governmental organizations (NGOs), sponsored by malevolent billionaires, corral up people in Central and South America and send them by the tens of thousands to the U.S. border, is evil perpetrated, by Catholic *front organizations*, under the guise of helping these souls.<sup>5,6</sup>

How many died along the way? How many rapes occur? How many criminals that later kill or rape or otherwise add to an already rising crime problem both in Democrat-dominated cities and conservative countryside hamlets that suffer from fentanyl overdoses are impacted?<sup>7</sup> (China produced; and sent through Mexico *by the ton*.<sup>8</sup> See Appendix: Los Angeles County Overdoses.)

While a secure wall is considered evil and too costly (a \$10-20 billion total outlay), Washington gladly sends Ukraine at least two-and-half times (\$52<sup>9</sup>-89B<sup>10</sup>) this amount at a stroke of a pen after just a few weeks of US-triggered conflict.<sup>11</sup> The Biden administration in 2021 felt the need to write informational bulletins about the prior administration, regarding a border wall, stating that, "Under the Previous Administration, Wall Construction Cost American Taxpayers Up To \$46 Million per Mile, Shortchanged the Military, and Caused Serious Risks to Life, Safety, and the Environment."<sup>12</sup> [My emphasis added.]

It should be added here that a “Wall” is not the end-all, be-all. It’s the first “physical line” of defense, and for those that refuse the logic of them, note: Washington D.C. put up a wall immediately after the hyperbolic J6, FBI-infiltrated riot and Capitol building trespassing fortuitous event. Why did D.C. Mayor Bowser adamantly refuse National Guard support on J6, after the damages incurred in the 2020 Memorial Day riots; and then gladly do a 180 on a wall just after J6, if these don’t assist in security *at all*? Is our Military and National Guard this stupid? (See: Appendix of Bowser’s refusal letter.)

### [Website](#)

Maybe these security entities were, or preferred to be, at behest of the then incoming 46<sup>th</sup> President, or whomever pulls his strings, both *then and now*.

Just two months after the June 2021 Whitehouse bulletin, the Biden administration abandoned an estimated \$80 billion dollars’ worth of equipment (this according to *Forbes*) in an embarrassing, and lethal withdrawal, killing 13 American troops in a panicked withdraw from Kabul.<sup>13</sup> Whether it is an \$80 billion price tag, or according to *American Military News via CNN via the Department of Defense*:

“The U.S. gave the Afghan National Defense and Security Forces \$18.6 billion in equipment between 2005 and 2021. Approximately \$7.12 billion

was still in Afghanistan after the withdrawal, including aircraft, air-to-ground munitions, military vehicles, weapons, communications equipment and more.”<sup>14,15</sup>

**Let's be conservative here:** at least \$59 billion (\$52 billion sent so far in Ukraine and \$7 billion was left in Afghanistan) is either appropriated or abandoned. Just days before Christmas, the outgoing Congress, with twenty-one Republican U.S. Senators, approved another \$45 billion more, extending this conflict's duration and unpredictability against a nuclear-armed Russia. WHO THE HELL DOES THIS?

([The New York Times](#))

A bit of hypocrisy exists here as well, regarding inbound non-citizens on planes (versus the border). The US Department of Transportation (DOT) has a standing order for non-vaccinated travel (with some exceptions) under the Biden administration, TSA Security Directive 1544-21-03A, that became effective November 9, 2022. The Biden CDC initiated this policy on October 25, 2021, and further buttressed this on April 14, 2022 through a U.S. Presidential Proclamation.

“Presented paper or digital documentation of Proof of Being Fully Vaccinated Against COVID-19, including personal identifiers that match the unique identifiers on the passenger's passport or other travel documents; or presented documentation proving that they are an Excepted Covered Individual.”<sup>16</sup>

The handling of 5 million plus known entrants into the U.S. across the border<sup>17</sup>, without a care about their vaccination status (or to be even, little concern), while

being extremely focused on air flights, to the restriction of 30+% of unvaccinated souls<sup>18</sup> across the world is punitive, *for a purpose*, and ignorant for the invasion's sake.

People with resources - the middle class - are being targeted to give up their rights, or lose personal freedoms, such as traveling freely under the "guise" of preventing COVID spread. These "vaccines" do not prevent the spread, despite MSNBC's Rachel Maddow pronouncement of that in March 2021<sup>19</sup>, an actual *disinformation campaign*. Then eagerly supported by CDC director Rochelle Wolensky and NIAID director Tony Fauci.<sup>20,21,22</sup> ([Ryan's Tweet](#) 52.8K likes.)

Meanwhile, the underclass and most cultural disparate are being cultivated to think there are no rules or objections in breaking the laws of the United States. This is a long-held Marxist-Communist desire: that of lawlessness.<sup>23</sup> And as it turns out, the DOT head<sup>24</sup>, Pete Buttigieg, father held those pronounced, ideological underpinnings. This was considered [as](#) "true" by *Snopes*.<sup>25</sup>

These ongoing agendas are baked in the U.S. Agency's oven; cooked to perfection to be used either abroad, or now: *on the Homelands*. When it behooves selected Agencies, the Pentagon & State Department, to achieve foreign regime destabilization, as in Ukraine, like Libya, Iraq, Afghanistan, before it, the budget for those outlays amazingly appears without any regard for the human lives lost. The tolerance for dead bodies abroad triumphs while the Intelligence-controlled media (how many former White House or Intel Agency operators are at ABC, CBS, NBC, FOX, MSNBC, CNN?) will greedily feed U.S. citizens a narrative that "this war is needed to address a dictator's aggression."

**What these praetorian media outlets do not tell you:** Is the State Department's goals are to destabilize and antagonize as many countries as possible, going back decades. This is not hyperbole; there are specific organizations (CANVAS) that worked as co-conspirators in "regime change" for the U.S. State Department.<sup>26</sup> But the U.S. media knows the hand that feeds them; and gladly misinforms the public with a smile and a healthy paycheck. Anyone that crosses either the U.S. government or their media minions gets labeled a "conspiracy theorist." But years later, the facts appear and the narrative changes to "mistakes were made" or "this was for the greater (or your own) good."

It should be noted here that the U.S. has 867 military bases abroad at present.<sup>27</sup>

The U.S. southern border is porous, and purposefully so; even with a *Department of Homeland Security* budget at \$52 billion and 240,000

employees.<sup>28,29</sup> This budget is greater than the GDP of 136 nation-states, out of 218, according to 2021 World Bank GDP calculations (landing between Tunisia and the Democratic Republic of Congo, see *Appendix*).<sup>30</sup> If one could get less *for their taxes*, one would not be stunned in the slightest. This shows that labeling something as “homeland security” does not make such a visible reality. Nobody is doing their sworn job or following actual statutes regarding entry into the United States.

Since 2001, the United States has not garnered an airplane assault. And if the domestic efforts, which are overtly misdirected by the labeling of U.S. citizens as the problem,<sup>31,32,33</sup> shows anything, it shows we are sadly or purposefully confused about border priorities and getting *zero bang for the buck*. But that is a shared problem in D.C. politics. Both parties use such Agencies who are self-interested, graft-friendly, and more visibly immoral than one can [properly address here](#).<sup>34</sup>

*But back to the border.* We are not at all incapable of securing it. We are not incapable of rationally allowing in capable and at-risk migrants when they follow laws. Breaking the law is not excusable, *especially from a foreign source*. Breaking the law, and calling it *racist* to stop this lawbreaking, is a Communist Agenda going back to the 1960s. Breaking the law and flying or moving these lawbreakers by transport in the dark of night ([as has been noted](#)) to wherever is available, or to a so-called “sanctuary city,” deprives both American Citizens and the migrant of their civil and human rights.<sup>35</sup>

We should also be cognizant that the criminal cartels can be terminated but are instead supported by NGOs, and our own Federal Agencies, namely, the CIA.

These bad actors need to be hunted down and dealt with in a manner of brutality that sends a resonating message worldwide about any NATION-STATE or their CUTOUTS that encourages human trafficking or slavery.

*Legal immigration exists.* A country that respects this philosophy reduces conflicts worldwide. Moreover, if countries figured this out, and clamp down on NGOs, judges and billionaire activists that refuse to respect these laws ([prosecute the enablers as terrorists, not the trafficked](#)), that will go a long way towards people fixing their own problems. There are ways to help a source country, if we get rid of the evil middlemen that profit off human misery. One is [not by direct funding](#), but rather: teaching by example *how to operate a country*.

This segues into *World Policing*: A perpetual drain on the U.S. economy and unsuccessfully applied by our U.S. Military to the disrespect of many foreign lands. (Yes, some “minor good” came to a *select few people*. But the harms are visible as well - the tactic of “democracy or nation building” in places that neither desired, nor held onto, that agenda sought. Look at the abandonments and defeats seen in Vietnam, Afghanistan, and soon enough Ukraine, for instance. Afghanistan immediately reverted to form. And the worst part: the US pushed *sexualized* agendas that were antithetical to both Western values and that region’s long-standing, religious-based values. This is crass 21<sup>st</sup> Century Colonialism guised as Quasi-Enlightenment *wrapped up in rainbows*.)

The neoliberal-neocon model of “disruptive foreign policy” is abhorrent and contradictory to one’s nation-state perseverance and prosperity. Not everyone in the world wants the political and governance system of the United States. (Especially when it is now obviously corrupted.) As such, we should respect that cultural divide as best one can or forgo the interaction altogether (and stop corporations from embedding merely for profit under the auspice of helping).

In 1823, President James Monroe warned of interventionism in the Western Hemisphere by the European States.<sup>36</sup> This was just mere years after a second bitter war against the British Empire, won in battle by future President Andrew Jackson. The same British Empire who would be the antagonist to a withered Dynastic China through intentional Opium Wars in the 1840s. The present-day Chinese Communist Party calls forth repeatedly their “century of humiliation” as a means to condition up their population on seeking revenge against British-Yankee Imperialism to these drug-inspired crimes. (See the retaliation mechanism now?) This long-termism of the Chinese reflects the wisdom of what Monroe rightfully warned of in interceding in world affairs without strong reasons (unlike recent Presidents’ Pentagon whimsies sought in the Middle East).

Just two score later, the U.S. Civil War saw such imperialistic British interventionism attempted on the side of the Southern States. This was roundly thwarted by a Czarist Russia’s Baltic Fleet arriving in New York and the Far East fleet in San Francisco in 1863.<sup>37</sup> The Civil War historians routinely ignore or minimize this impact: that of the Union’s best alliance came in *from Russia with Ships*. The czarist intercession came about from long and routine, political and military battles, with the French and British naked in their subverting and weakening agendas (both well-known and well-fought against by Russia), going back over the centuries, and not merely had *on a whim*.

### London's Punch depiction of the Russia-US relationship

Monroe's Doctrine was later applied by U.S. Presidents toward European interloping, specifically due to debt entrapment schemes, particularly in Venezuela.<sup>38</sup> But the essence of this 19<sup>th</sup> century doctrine was: Stay out of our backyard. Sadly, present foreign policy decisions of the United States are always driven by *Wall Street over Main Street*. As Major General Smedley Butler noted via a pamphlet, "War is a racket."<sup>39</sup> (See: 1930s fascist (and co-plotter) to the overthrowing of President Roosevelt: Prescott Bush.<sup>40</sup>)

LASTLY, when countries are anti-U.S., why are we entertaining any of their wants? Their populations have to take the necessary first steps to remove their dictators - and then, and only then, may it be prudent "to keep out" other forces that seek to stifle this uprising, or destroy the identifiable WILL OF THE PEOPLE that no longer desires the RUTHLESS CHAINS of a DESPOT. (The same applies when dictators crop up in Western "democracies" as well.)

Else, We, the United States, become just as bad as the dictators we label - and the U.S. *recent track record reflects this vividly*. Destabilizing for the pundit class to cackle about in Washington D.C has gone on since before one's birth.

**Another connected security issue: Elections.**

An example with basic numbers makes for a telling story.

Assume one starts with 100 million(M) registered and legal voters (and 100% voter turnout) and holds an election across 50 states. Each state has 2M voters

apiece in this example. To win each state, from an electoral college of 500 (10 electors per state), one would need 1,000,001 if no run-off rules apply and the count is verified and certified according to a State's rules. In this example 26 states win the election, as 251 electors are needed, assuming all are faithful electors under this basic U.S. Constitution model.

**Now:** lets allow recent non-citizens to vote. Assume just four years later, 10 million recent migrants are allowed to vote.<sup>41</sup> They are provided welfare and/or a low-wage job as incentives; and among them, a select few are made candidates at the State level, in disregard of Constitutional citizenship requirements for State and Federal offices.

As it turns out, these voting migrants moved into just five states, 2 million adult non-citizens are given rights to vote.<sup>42,43,44</sup> They do so with 100% turnout for this hypothetical election (and to make the math simple). As it also turns out, those five states were once highly contentious and decided by narrow margins. (Think: Arizona, California, New Mexico, Texas, and Florida, deemed border states and "points of entry" by our corrupt government.)

The dilution formula is simple: A citizen in these five states vote was once 1 out of 2M (1/2,000,000). Now, due to a recent migration, leaving aside the legality and other visible mechanisms, that vote is diluted to (1/4,000,000).

Elections are won *at the margins*. But also done through such despised tactics.

There are legal and logical reasons for a slow path to citizenship and voting rights. Anyone saying otherwise is not telling the full story. One, the very nature of citizenship and loyalty was not lost on *The Founders*. Their specificity was due to a mistrust of any whimsical political personage and the studied histories of Empires long gone and ending misbegotten. Two, the quality of person needs time to assess; and this allows them to be vested in the success of their life in their new home. Vote should be tied to improving such vesting success instead of existing off the backs of others, or worse: One Centralized State Power that breeds towards the *Democracy of the Mob* through Spoils and Subterfuge.

The purpose of this example is to show how bringing in a mass of people, instantly incentivizing them for purely political reasons, steals rights from current citizens, who are now intensely disliked by both POLITICAL PARTIES, often spitefully hated, because these taxpaying citizens are undesirable complainers, or considered irrelevant to Humanity by the Elitist Class. (Washington D.C. is not in touch, nor caring, about anybody but themselves. These highly paid

people have achieved *Class Consciousness* and know it full well.<sup>45</sup> They spit on the Constitution every day, knowing they'll never see accountability while their wallet bulges off the toils of millions of Americans daily hard work.)

**For those that don't follow the above example:** this is akin to a stock dilution process to root out an "undesired element." Watch [The Social Network \(2010\) clip here](#) to make plain the example just provided.<sup>46</sup>

Finally, these new non-citizens (or violators of U.S. law, adults and children alike) are pliant and uninitiated to their "Constitutional Rights" as non-Citizens.

*So, who teaches them?*

The very Apparatus that is destroying everyone else's Rights.

Do you think D.C. lawyers and their well-paid partisan NGO activists will tell their new underclass (which is what they want, an obedient slave class) the Truth?

Will they not just teach them to "trust them," *always*?

*And threaten them as well-* if they do not go along with the program, as noted in a recent *Project Veritas* examination of the trafficking of minors to non-family members, called "sponsors." The children are then employed to pay off debts to the cartels by work, or worse: sexual acts.<sup>47</sup> Else, they are as good as dead.

And Agencies, like HHS and DOJ, tell them, as well, their new country is full of racists, which we are not, to scare this underclass to rely on their "new saviors"?

People should never be exploited, yet we know they are. *Every. Single. Day.*

And those that put on that mantle of savior are much closer to a Satan than their smile hides when cheering on the dangerous treks by these vulnerable persons.

This is NOT a way to produce good citizens or improve diplomatic relationships.

## II HEALTH

If Security does not cause concern, then one's health should give pause. The facts are grim in the United States, and rarely illuminated on well. The obesity problem has escalated for the last 40 plus years; the costs of healthcare as a percentage of US GDP is well north of 17% as of 2020. (And with COVID, undoubtedly higher.) The focus on front-end research (CRISPR gene editing, mRNA gene therapy, transformative sex operations) versus basic health and education is a profound gap in logic, commonsense, and tried-n-true methods of clean air, water, and food. Such misplaced priorities are not by accident.

One posits the underlying problems here are a matter of extravagant policy, incentivized bad actors/actions, and maleducation from K-12 education to MDs/PhD level post-doctorates. Obvious policy interference by foundations (Gates, Rockefellers, CDC) to incentives to Big Pharma (Pfizer, J&J and Moderna) pose a national security threat reinforced by myopic D.C. Agencies (DoD, NIAID) and a regulator (FDA) captured as well by Pharma. *Class Consciousness* leads medical professionals away from data integrity, hypothesis testing, and logical practicality, and towards emotional distortions provided through public relations, propaganda campaigns, and censorship by social media partnerships (Twitter, Facebook, YouTube). Ideas disagreeable to their unsettled science, are misrepresented to *smear the messenger*, while expensive drugs and pathways are platformed with little supportive long-term data of these choices alongside their costliness and intellectual property (IP) protections being paramount. The education platform is fraught with overpricing of its obtainment, thus causing the graduates of med school to choose lucrative specialties and fringy NIAID grants to succeed thereafter. The basic rules of good health are being ignored; while racism, sexism and climate change is focused on as drivers of individual failures in health from the grade school classrooms to the universities. *Victimology* trumps biology and reality *daily*.<sup>48</sup>

The adoption of government-heavy partnerships with behemoth pharmaceutical and insurance corporations along with social media filtering, labeling debates "disinformation", is worrisome and indicative of political agendas, not healthcare.<sup>49</sup> These models focus on administrative managers and top-down health officials (heavily attached by their politics and *class consciousness*) and as far from the end-customer, a patient's individual health, as one can get. This is by intentional design. Answers to health are not the point in this design.

Outside actors, like Bill Gates, have substantial grants to [47 of the top 50](#) medical universities, worldwide.<sup>50,51</sup> Gates' working resume is about money and investments, not health or caring about people, especially at life's end.<sup>52</sup> He as well encourages regulation *by government* of social media usage and uses; again quite intolerant of information which lowers trust in his now "captured" institutions.<sup>53</sup> (See: Appendix for Gates grants to medical universities.)

Pharmaceutical corporations are routinely sued for billions for their rushed products with known side effects, addictions, and a lifetime of suffering.<sup>54,55</sup> However, the vaccine market has liability protections (since 1986<sup>56</sup>), if these products are placed on the childhood schedule. And lo, that has been the obsession with the Covid-19 mRNA vaccines: to stick them in kid's arms.<sup>57</sup>

The Emergency Use Authorization (EUA) of mRNA therapies proceeded from rushed trials that required convenient "pre-planning" before any declaration of emergency worldwide ([January 14, 2020 WHO Tweet](#)<sup>58</sup>). Moderna's vaccine were viald up on February 4, 2020.<sup>59</sup> All phases of the Moderna and Pfizer trials were completed inside a year on a novel coronavirus - that is known to be genetically engineered.<sup>60,61,62</sup> Yet safety data and the VAERS database raised substantial alarms about any such safety and effectiveness, along with Pfizer's documents (that took a [court order to release](#)) regarding all of these trials.<sup>63,64</sup>

The COVID19 plot has components of military planning and design hitherto never deployed on a world population. Bill Gates notably funded \$20 million to *Moderna* from January 2016 to March 2019 and stated his returns on vaccines are at 20-to-1 ROI on CNBC.<sup>65,66</sup> Notable as well, the NIAID transferred specific and patented CRADA (material release) to Moderna containing HIV-GP120/41 glykans, [in late 2015](#).<sup>67</sup> This GP120 appears in SARS-COV-2; and was in *Moderna's* February 2016 patent application that matches a 19-string genetic sequence at the S1-S2 furin cleavage site on the virus.<sup>68</sup> This 100% match to the SAR-COV-2 genetic sequence via a CGG double codon that (Nicolas Wade of *Science* and *The New York Times*) confirmed as non-naturally occurring in nature.<sup>69</sup> This shows motive, means, and opportunity - a crime with malice and forethought - given reports that more people are dying post-vaccination than from "COVID" and birthrates are down worldwide by 10-25%.<sup>70,71,72,73</sup> The CCP lockdown-isolation protocols, Remdesivir uptake off negating studies (Appendix: Fauci email to Dr. Zeke Emanuel), venting of older patients by incompetent medical staffs, and restrictions on therapeutics immediately by health czars worldwide, generated enough stress to potentially leveraged up a [mass](#)

**psychosis**: an induced, manufactured health catastrophe that was predicated on political power and a sinister agenda that WEF leader Klaus Schwab released a foreboding book about in July 2020: [\*COVID-19: The Great Reset\*](#).

(**Note**: the CDC has manipulated death totals often six months in the past - subtracting thousands from totals, and then adding them back weeks or months later (June-August 2022) - as was noted [here](#).<sup>74</sup>)

If such vaccinations are not considered dodgy,<sup>75</sup> or at all problematic, even with their recent coercive methods for requirement to hold a job, then psychiatric drug usage should be alarming and depressing. Over 20% of Americans (76M) are on psychiatric drugs of some kind (See: Appendix).<sup>76</sup>

The costliness of healthcare became the driving force of the U.S. economy since the 1990s. Many have attempted to address this issue with flawed policy. Generally, by raising taxes, promoting a single-payer, government ran healthcare-for-all legislation with sales pitches that disregard the U.S. Constitution and interceded with socialist systems tied to European ideas.<sup>77</sup> Those EU systems are failing badly as one writes in 2022, as the NHS<sup>78</sup> is but one example. (See: Appendix for analysis of countries' systems prior to COVID.)

[WHO's January 13, 2020 message was [quite different](#) about coronaviruses.<sup>79</sup> This was just two days after Moderna was *alleged to have received SAR-COV-2 genetic sequencing* from China for vaccine builds. In actuality, Dr. Ralph Baric received the HIV-laden *Moderna sequences* in December 2019 for testing.<sup>80,81</sup> The WHO is primarily funded by Bill Gates. (See: Appendix)]

The U.S. healthcare system failed miserably its mission from January 2020 to the present. But this has been the path for decades now (and by design). This nugget from Speaker Nancy Pelosi in March 2010 speaks to [the two-score problem](#) in Washington D.C.:

“We have to pass the bill so that you can find out what is in it - away from the fog of controversy.”<sup>82</sup>

3. 2017: GDP tied to Healthcare was 17.9%

The table above comes from *A 2020 Healthcare Business Plan: Privatized System, Medical Mall Court Model*.<sup>83</sup>

The fog desired was to continue, unabated, as did outrageous price hikes in the medical, educational and energy sectors of the U.S. economy. The exploitation of Americans to pay for pharmaceutical research of medications<sup>84,85</sup> that are produced abroad in (Germany, China) is but one glaring example of such grifting

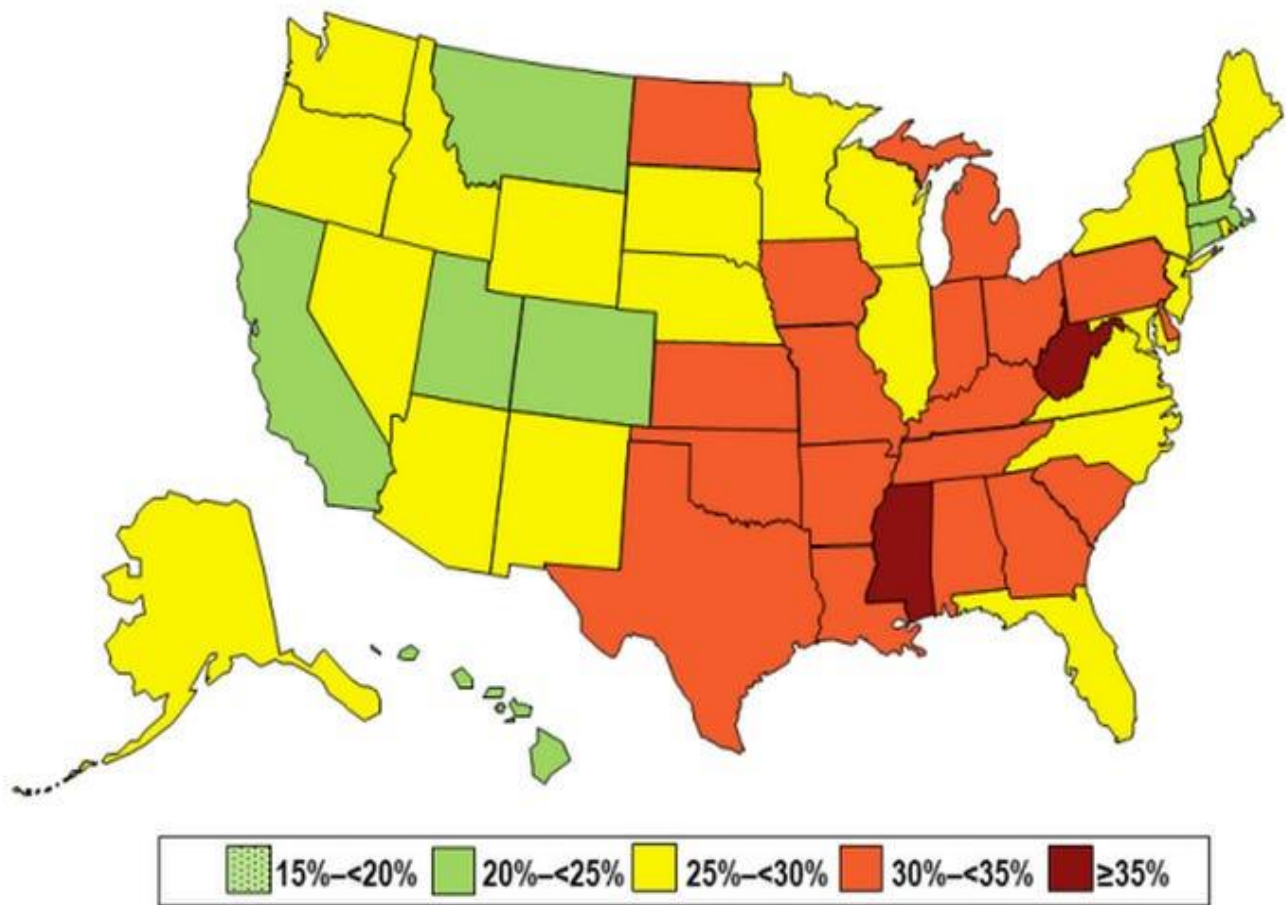

and incompetence.<sup>86</sup> The People, not the bureaucrat, not the pharmaceutical company, not the medical administrator, are the ones that suffer from hustling drugs - *even worse* than fentanyl crisis or the narcotics coming up from Mexico.

What is the real issue? **Basic health.**

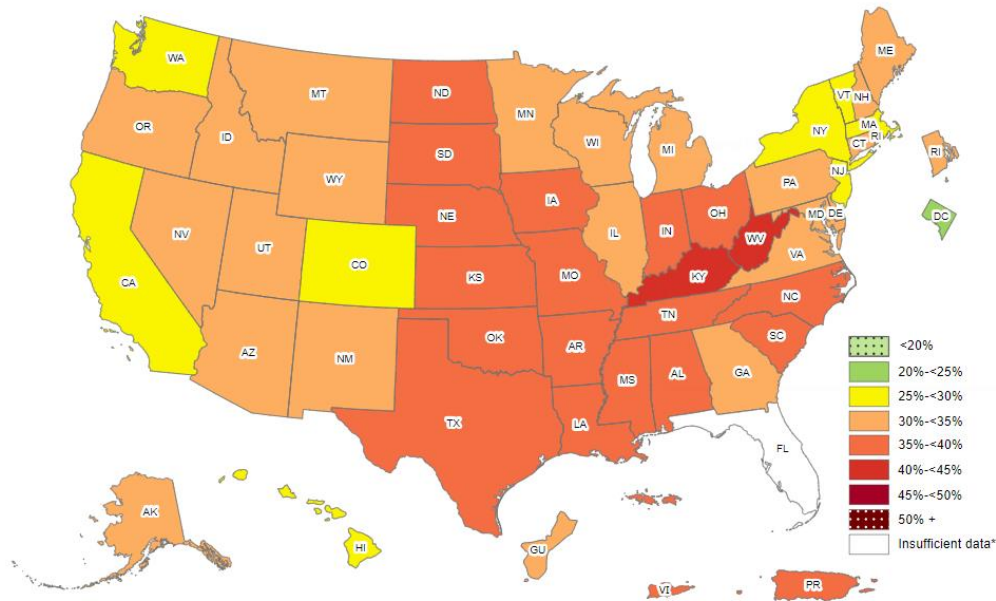

Americans are fed and hydrated poorly. They are told their diets should be low-fat, carbohydrate-based (grains), and much lower in proteins, so as to not be a burden on the planet. GMO vegetables are promoted. Fake meats as well (a Gates & Bezos investment).<sup>87,88</sup> Yet, this does nothing to promote health. Preventing obesity issues and creating a real cradle-to-grave life healthy plan has escaped our Agencies once again. One will refuse to see this if they ignore confirming data points outside of COVID-19, for example.

Below shows the problem in three graphics.

Prevalence\* of Self-Reported Obesity Among U.S. Adults by State, BRFSS, 2013

[2014 Business Insider referencing the CDC yearly obesity data sample](#)

## 2021 Obesity Map (CDC)

Quick analysis: disappearing green and yellow (20-30% obesity rates) and rising orange, burnt orange and red (30%+).

90%+ of food is processed through these companies.<sup>89</sup> We get too little fiber in concert with micronutrients and a lack of Omega-3 fatty acids; too much Omega-6 from seed and soybean oils, trans-fats, emulsifiers, salts and sugars.

But as it turns out, there are other ways to die and one of them may be the very treatment of SARS-COV-2: a.k.a. the “mRNA” vaccines as noted. But it was

seen as imperative to invest in dozens of COVID-19 products and a whole industry (as seen by the marketing and propaganda hustles growing exponentially) that surrounded it. Billions made in profit off human suffering.<sup>90</sup>

What should have been a rational response with cheap therapeutics instead became, yet again, a highly-expensive, untested, and coercive-driven drug push by the same parties that were involved at the Wuhan lab (namely, Peter Daszak).<sup>91,92,93</sup> To accept a shot on which no long-term trials proved mRNA was the right path to buttress one's health, whether one is an adult or [a minor](#).<sup>94</sup>

Seemingly, that was never the point: *the agenda was to condition compliance*.

### Financial Note:

The conspiracy surrounding COVID has more to do with worldwide financial collapse (\$320T+ [in debt](#)<sup>95,96</sup>, \$2 quadrillion+ in financial derivatives<sup>97</sup>) and the one-world digital control matrix (finance, resources, [movements based on health](#)<sup>98,99</sup>) being designed and prototyped at various world conferences since *at least the Paris Climate Accords* in 2017.

This desire goes *back much further (The Club of Rome)*- but think of this like project management milestones. The goal for the top-tier parasitic elites, attached to the WEF or the Shanghai Cooperation Organization (SCO), a BRICS subset,<sup>100,101</sup> is to control all the planet's inhabitants through stick-n-carrot approaches, at minimum, and by more coercive means - as China does - at a maximum. Control of the food, energy, money equals control of the population.

Even China's compliant population is taking to the streets as their lockdowns and COVID passes destroyed any hopes of normalcy of job, movement, or choice.<sup>102</sup> This protest is against a standing army of 50 million men and Xi Jinping, dictator-for-life, at the head of CCP. This is a 5<sup>th</sup> generation war - the battlefield is *inside and outside the mind*, transactional, and all-encompassing.

Such is pillared on control of the mass media and medical tyranny to achieve the Endgame: Humanity's submission. This technocracy push echoes the 1930s and always involves killing millions, if not billions through famines, wars and diseases. This as major countries are heading into a demographic decline in concert with egregious levels of debt that will explode into a reserve currency battle and potential escalation of civil wars of revolution, again: more deaths.

## Solution Path: A Private System (Pre-COVID Concept)

From: [\*A 2020 Healthcare Business Plan\*](#)

### System Problem

The push towards Public-Pay-For-All Option has always counter the reality of numbers. In 1990, more than 70% of people had their insurance via their employer, selecting it by their own accord. Even with all the Public Option push, that number has moved only to mid-60% level. The Warren Plan cited creates the same argument, playing on manipulating one's emotions and poor alignment of incentives to choose that plan to achieve health mediocrity *for all*.

One of the bigger issues in healthcare is the transparency of costs. The model never adopted the things that make people more secure, more able to make choices with confidence and less stress: that of knowing what things cost before or when a crisis comes. Key players, as discussed, from pharma to medical doctors to insurers, are substantial cost drivers through medical & administrative institutions. As government interference increases, individual liberty *disappears*.

### Individual Problem

The root cause analysis of improving overall health plights start with diets. Eating with a purpose, eating items that can improve one's being, has been ignored Nationally since the 1970s. In many cases, the FDA and their Food Pyramid taught ugly habits, propagandized carbohydrates over good fats and proteins, to name the most disconcerting, but not exhaustive in scope. Exercise

has not focused on building muscle. Instead, it's been tied to cardio fitness (jogging) which when done, improperly, creates food urges, stress, and destroys any health goals. More gyms get added yearly, but obesity does not diminish as a National Issue. (Certain gyms focus on cardio almost exclusively, buying treadmills instead of 45-lb plates. This creates bad outcomes but adds profit to the system as people continue on the treadmill of bad and costly health issues.)

### System & Individual Solution

Most solutions start with you. Until one accepts that accountability, many behaviors are working against the outcomes of many people. Even a well-designed system needs people to make certain choices to garner the results they seek. But at the same time, the system, or systems need to be transparent on costs, design, healthcare function, and the access to them at right times.

### Health Care Models

Below shows a high-level matrix regarding the various categories people find themselves in on a yearly or lifetime basis, regarding health system models.

US Ind. HC Models	Duration	Cost	Outcome	Care Vol.	*2020 Est.	
Emergency Trauma Centers	Short	\$-\$\$\$\$	20-90%	145M+, 45.8%*		
Intensive Care & Rehab Programs	Long	\$\$-\$\$\$\$	5-50%	36M+, 8.7%*		
Diagnostic & Treatment Model	Long	\$-\$\$\$	25-75%	170M+ Estimated*		
Metabolic & Preventative Treatment Model	Long	\$-\$\$	25-50%	60M+, 17%*		
Chronic Illness & Palliative Care Centers	Extended	\$\$\$\$\$	<10%	63% of Deaths*		
	<b>Duration</b>	Short: 1D	Medium: 1MO	Long: Under 18Mo	Extended: 18MO+	
	<b>Cost</b>	\$<10K	\$\$<25K	\$\$\$<75K	\$\$\$\$<175K	\$\$\$\$\$>175K
	<b>Outcome</b>	Survivability, Prognosis, Quality of Life ~ Variable; Interactions based on many factors.				

*Emergency Trauma Centers*- hospitals as most people call them - care for nearly 50% of the U.S. population by volume. (Obviously, some repeatedly visited these centers.)

At some point, we all are destined by probability for an emergency hospital visit. (5 times for this author: broken leg in 1981, baseball accident in 1987, military (post vaccination and mental crisis) in 1999, and a respiratory issue in 2015.)

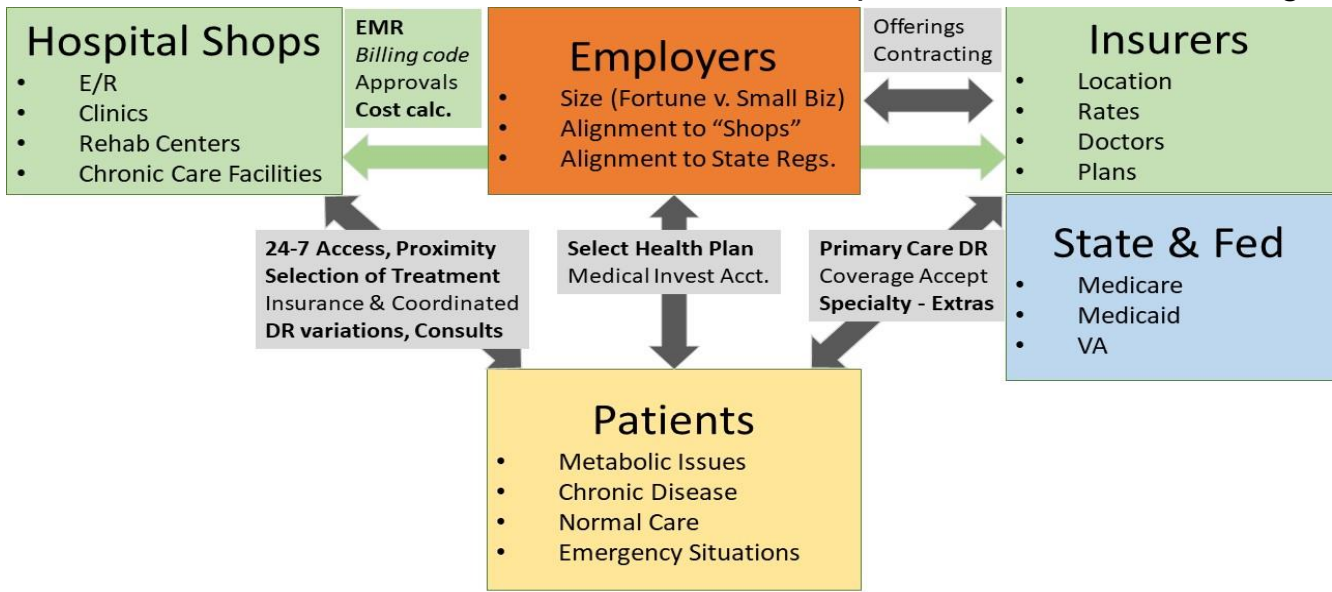

*Intensive care and rehab centers* are post-operation and recovery from trauma events. However, many times the care here has to be further shifted to Chronic arenas when the disease or body failure is seen as imminent. The choices are still in a patient's hand, but require significant investment of time, focus, and also, finances. Thus, the variability of outcomes is largely dependent on the patient.

Both the *Diagnostic and Metabolic Models* impact a large swath of U.S. population. The goal is clear: get knowledge, design a plan, and work that plan towards improving on one's health. The duration and outcome generally override the cost concerns. People avoid immediately perceived pain - *the duration of time needed to make behavioral changes*- due to the delay of consequences. What they don't see as an issue, becomes less important, less urgent, and less significant.

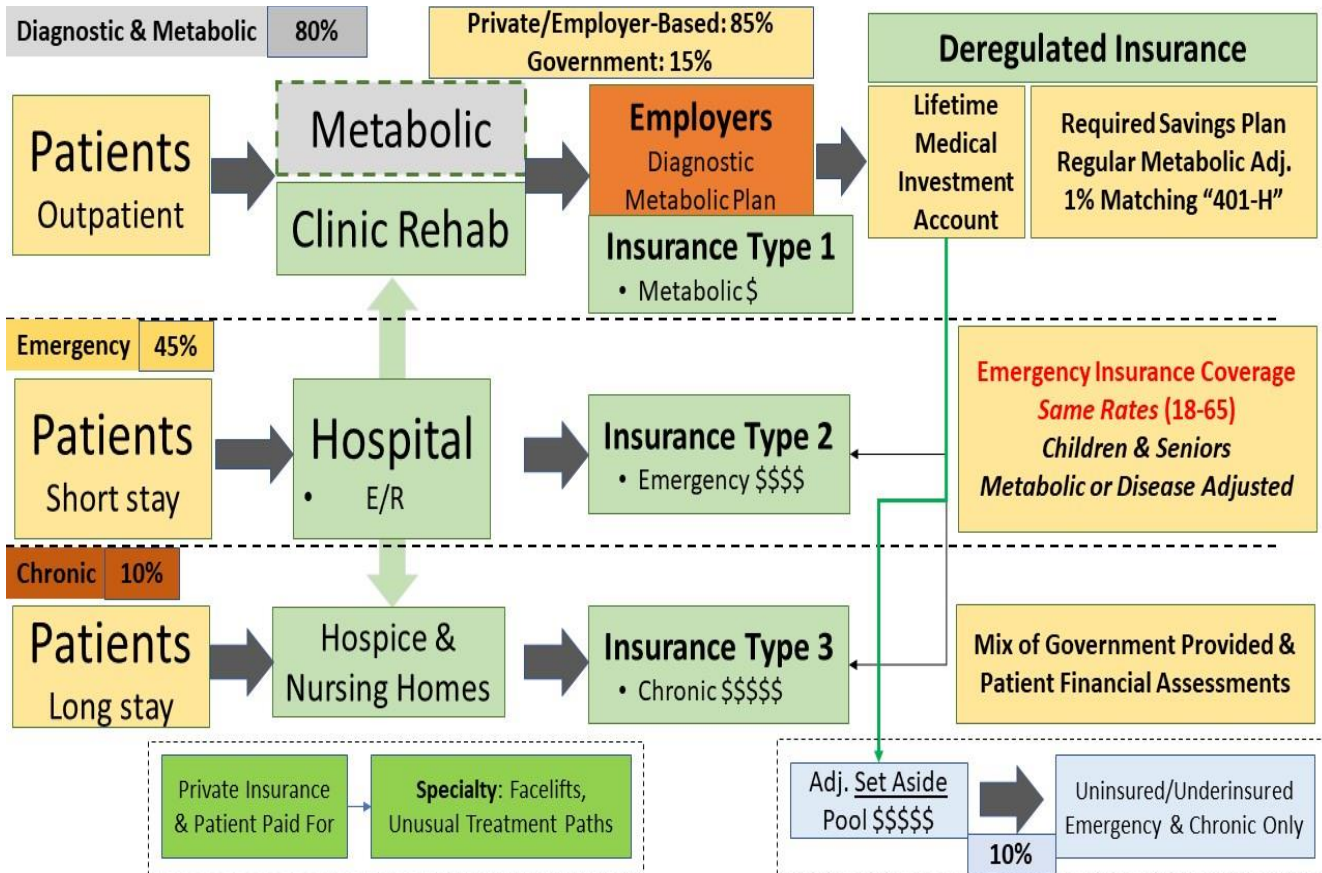

The costs though are shared to the public now and later. First, the lethargy and suboptimal operation of one's life impacts society: the ability to do things is deferred because less energy exists at present to do it. Second, whether an employee or entrepreneur, how much does one's health and mindset impact results of one's output or value? Lastly, once the onset of illness occurs, a chronic issue, such as obesity, the impacts increase exponentially, as do the costs to provide care. So, while the issue doesn't trigger as quickly as an accident or viral disease, once it is in place, the body's ability to recover takes on new importance, urgency, and significance.

The ability to diagnose and prevent disease progression is the foundation of a healthy society. This is rooted in food intake, clean water, appropriate vitamins and minerals to supplement this. Natural and non-GMO foods are to the improvement of one's life. But, as we should now know, the forces at the top of health, are captured, and unrelenting in their obsession to treat people as mere cattle to be prodded and poked with needles and operated on experimentally to justify a fictitious ROI for their investment hustles. (See: Sam Bankman Fried.)

Below is an assessment of the current versus an improved health model design.

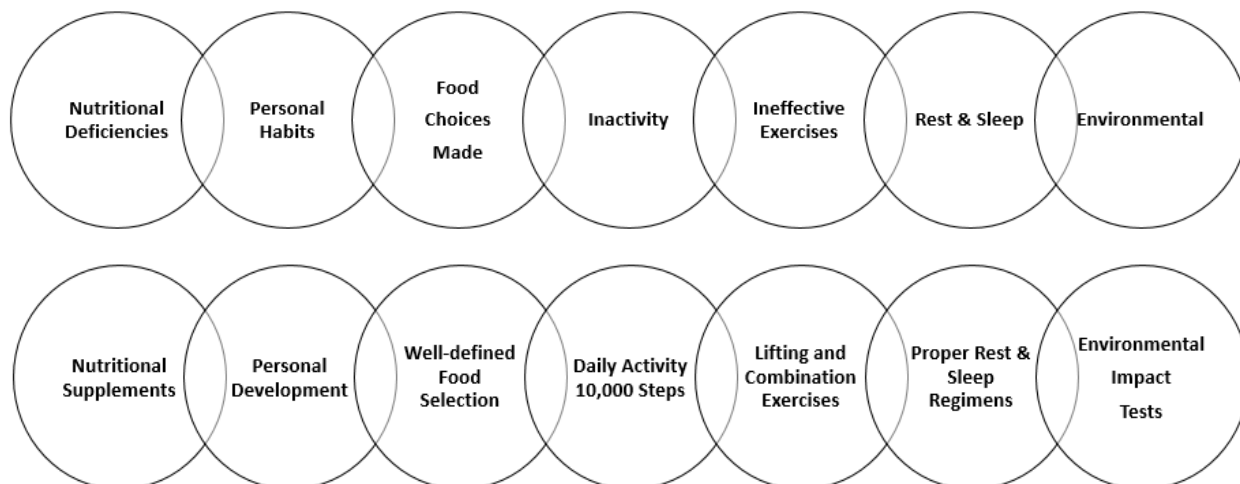

### Current High-Level Interactions on U.S. Medical System

### Improved High-Level Interactions on U.S. Medical System

From: [A 2020 Healthcare Business Plan](#) These were designed prior to the COVID19 hustle. But the concepts still apply.

**Nutrition Store.** After diagnostic testing - DNA\*, CMP 14 Panel - with recommended alterations, this physical action - to buy proper supplementations to counteract nutritional shortfalls - is critical to a repair plan.

**Personal Development Knowhow.** The basics of nutrition, well-being, meditation, group conversations, and successful life management is vital.

**Food.** Less, but more nutritious. It's not the amount, but more critically, selections. A diet consistent with recommendations based on results of intake tied to a handful of dietary staples.

**Daily Walks.** 10,000 steps is approximately 4 miles. If every hour at work one takes a 3-minute break and walk 300 steps that is 3,000, counting also going to and from a car daily. A 40-minute walk daily at 120 steps per minute gives another 4,800. Add in normal movement daily, and 10,000 is easily achievable. Use the walk to work through issues of living on a hectic planet.

**Lifting and Combined Movements.** Design of a program that pushes boundaries of physical training and is fun for that individual. Obstacles and challenges create health and fun.

**Proper Rest Routine.** Black out curtains. Change of electronic habits. Temperature of room. No TV in the bedrooms - a problem in American Society - has driven us away from rest.

**Labs.** Labs that can run a spectrum analysis of heavy metal toxicity and fMRIs to test cognitive declines and underlying neuro-psychological issues. Patient history cataloging food intakes, habits (cell phones storage by genital areas reduces testosterone) and potential geographic interactions tied to food.

\* The recent COVID-19 genetic manipulation requires additional thinking (and restrictions) on this concept as trust of medical professionals.

### III ECONOMY

In December of 1945, the United States logged nearly half of the world's GDP.<sup>103,104</sup> It was the breadbasket, the manufacturing engine, the financial apex of a world at the lowest point after a brutal war fought, yet again, over Europe, and later, around the Globe. The U.S.'s battle armaments (23 fleet carriers among 6,500 ships)<sup>105</sup> dwarfed the totality of all but the USSR land army.

Economic might is not a small thing for any state. But it is routinely squandered by charlatans and hustlers in politics to feed their bank accounts at the expense of their constituents. The lack of accountability and prosecutions since that time is fostered up by globalization (financialization triggered in August 1971<sup>106</sup>), destroying the middle-class U.S. family - done expertly by Democrats and Republicans alike - while the Petro-dollar powered down our fiat currency to 3.8% of what it bought in 1913.<sup>107</sup> (The Federal Reserve must be eliminated.)

The worldwide issue is one of power, greed and corruption. Often, the labeling of this as "capitalism's fault" is to smear a lot of fair-trade policies into the same bucket, or a poisoned well, if you will. At the local level, farmers and manufacturers are barely surviving, and the governments intentionally subsidize them to destroy crops, produce less, interfering towards a managed, socialist economy. The politicians and agency slugs cut deals for their cronies on Wall Street, Fleet Street, or some other international banking cartel's domicile, while using those Praetorian parrots in media to cheerlead up fables of altruistic and noble natures to get investors to ante up in casino-styled stock exchanges.

Then, as we've seen recently, when a massive crime is revealed, a hard pivot comes to "regulate" so the Masses "won't get harmed."<sup>108</sup> Elizabeth Warren, never shy about expressing her Indian opinion, [said](#):

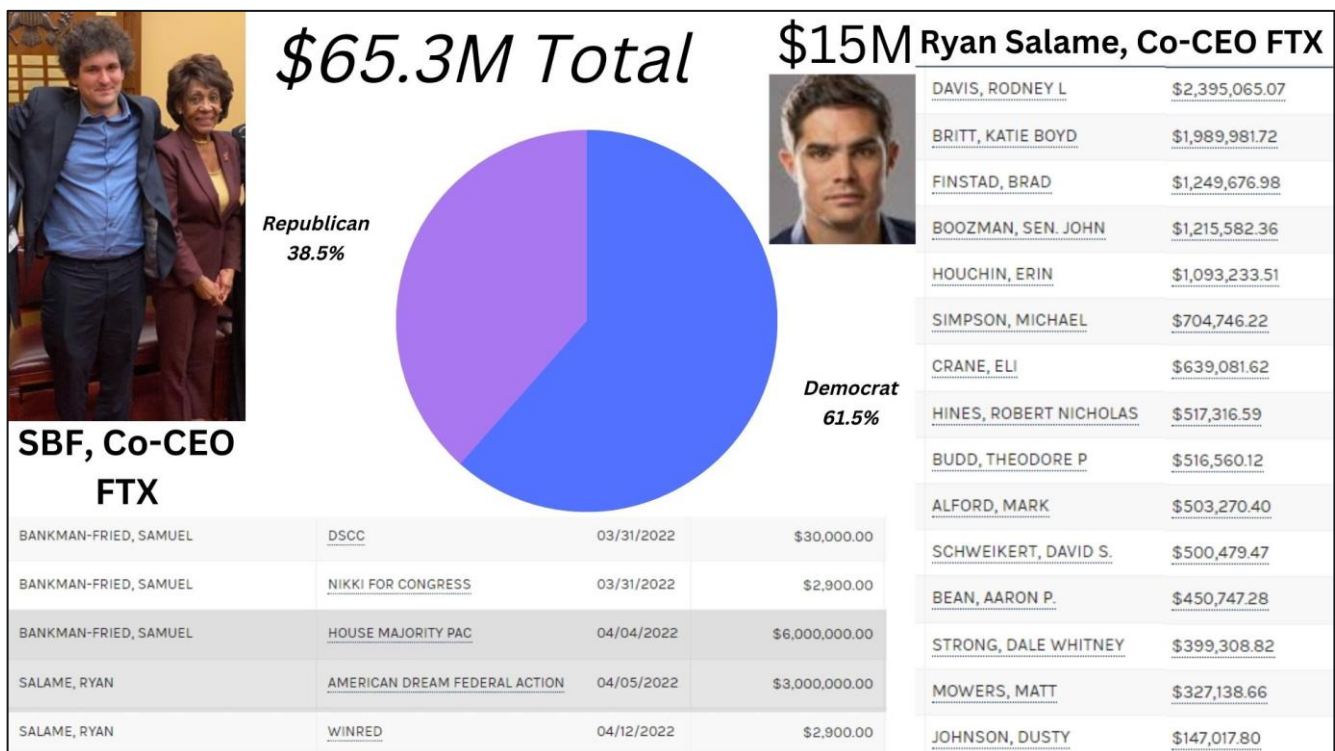

"The U.S., along with other nations, requires banks to comply with know-your-customer rules and track large transfers of money to prevent money laundering. This requirement extends to all other financial transactions, including dealings with stockbrokers, purchases on credit cards, transfers on Venmo and even use of Western Union to send money to relatives in other countries. When banks violate the rules, they deserve sanctions, but many crypto transactions occur outside the reach of current know-your-customer rules. Congress should stitch up that loophole.

Finally, crypto-mining firms polluting and straining power grids should be required to disclose their emissions and energy consumption to the public.

The Energy Department has the tools to require these disclosures, but if it's unwilling to use them, Congress should step in."<sup>109</sup>

This problem-reaction-solution mechanism kicks on, yet again. The Regulators make wolves seem judicious and sacrificing; the small investors are punished for any nickel they had; the institutional money walks away with more weapons for barriers to entry; and Sam Bankman Fried's *limited hangout* goes into the history book as yet another capitalistic pig's failing, but "altruistically" so.

This game was rigged by those that use fiat currency, government force, and rigged market illusions to get what they want. Sam was all for regulation<sup>110</sup> - and he knew his regulators well - via his business and romance partnership's relative and MIT-connected professors, later the SEC regulator.<sup>111</sup> Like Madoff before him (head of NASDAQ in the early 1990s), Bankman ran his exchange (FTX).<sup>112</sup>

([Business Insider](#), [FEC.GOV](#))

Throughout history, the doom of economies lay in lack of due diligence, government interventionism, and unregulated (by lack of prosecution) of banks that will put speculative profits ahead of rational business investments. The ability to do this only increased under recent technological improvements, financial product expansions (OTC Derivatives & Shadow Banks) and a FED that has generated the largest bubble in world history since 2008.

~

The best analogy is high plant inventory that hides production (structural), quality (malinvestment) and personnel (resource) issues. Structural problems of U.S. economy stem from over reliance on tech platforms that are not productive towards physical infrastructure, improvement of local economies, or decentralized in their usage. Rather, tech platforms (FANGS) coalesced towards the coastal waters and partnered with government (actual fascism) liberally. Malinvestment is most naked when U.S government debt has grown in 21 years by over \$25 trillion.<sup>113</sup> But at least \$14 trillion went to absolutely pointless wars - against “foes” that posed zero homeland threat - paying off the Pentagon and politicians that engaged in wars for their personal benefit.<sup>114,115</sup> (Sam Bankman Fried (SBF) set up a Ukraine crypto partnership in March 2022.<sup>116,117</sup> And Sam’s and other FTX 2022 donations<sup>118</sup>, *to both parties*, placed FTX as the 2<sup>nd</sup> largest Democrat donor after George Soros.<sup>119</sup> Sam (and George) are well-connected to the Clintons; and their various foundations are funded as well by Bill Gates to the tune of over \$500 million.<sup>120</sup>)

Resources, intellectual or natural occurring, have been misused or degraded through Globalist policies of spoils to the connected few from government to the corporations (like the [Carlyle Group](#)). The last five U.S. Presidents can be blamed and potentially charged with *crimes against humanity* and *treason*. Their wars were not to defend the U.S. against substantial enemies; rather, they were exploitative boondoggles, that killed and permanently disabled 10s of thousands of Americans, and well north of 700,000 Iraqis, Afghans, and Ukrainians, in mass, and this estimated number grows still.<sup>121,122</sup> Other instances, such as selling U.S. uranium<sup>123</sup>, and allowing technology to be transferred or stolen (in the billions by the Chinese<sup>124</sup>), while spying on U.S. citizens, who didn’t do any of the above crimes, reflects psychopathy in the total picture throughout these past 30 plus years. This “make evil” U.S. government fails all U.S. citizens and allows our enemies to win both the moral (and military) 5<sup>th</sup> gen war.<sup>125,126</sup>

Our Founders would have expedited trials for the behaviors of these men of political and financial power. 21<sup>st</sup> century U.S. LEOS refuse to apply the Constitution - because then such behaviors, spotlighted, and ethics, shown, would gut the institutions of D.C. down to just janitors and mailroom operators.

If one wants an economy back, remove these corrupt bankers, politicians, and their technology minions. Then the *Common People* will gladly do what our *Forefathers* did: build a country the likes of which no one dare challenge.

## IV ENERGY

Without ample energy, a civilization cannot thrive. Most of the industrial progress (and short-term pollution) came about in the past 200 years. It coincides with the rise of the United States, and the resentment that comes with that rise. (Particularly, in Europe and China where vested interests despise and disdain the *American Experiment*. It why so much effort is made to strip the U.S. of manufacturing, motivation and morality to achieve the goal of its destruction.<sup>127</sup> Sadly, Washington D.C. is filled with Sino-EU pandering fasco-socialists with military ambitions that have aided the causes of these internationally vested interests, making agreements with these parasites.)

Such billionaire fortunes, in the post-Civil War era, were made in oil, steel, and patented ingenuity. The railroad formation and shipbuilding sectors are what brought the country into the 20<sup>th</sup> century under the power of steam; then oil-propelled; and lastly, burgeoning electrical distribution. The cities grew; the countryside prospered through new ideas to engage oil, water, coal, and all methods of power generation. The wealth of that progress guided the country well from the 1900s to 1970s despite progressive policies to the contrary.

Sadly, our ingeniousness has ignored the Energy Sector for too long. Nuclear power is not nuclear weaponry. The ignorance and propaganda, since the 1970s, has kept down an industry that would be thriving if not for the unstated goal (above) to push the United States towards its demise. Worse still: the politicians and their agencies assisted in this since the 1970s with inflation/war/oil shocks coming with Nixon's move off the gold standard to the petrodollar.

*Why? And what can we do about it?*

~

A generic *Why* is tied to investments and ulterior motives of politicians and MNCs that, like the food sector, pay lobbyists to get politicians and regulators to choose winners and losers. Their investments lay abroad; and their loyalties do as well.

**The Present Tense Why.** It is an unfortunate fact that while our country can properly feed, house, provide energy, and build amazing structures, and generate excess energy and food for the world, it now has a President issuing irrational edicts ([EO 13990](#)) to destruct methods to do this ([Agency review](#) and the [Keystone XL pipeline](#)) in the name of a "climate agenda."<sup>128,129</sup> A President,

whose administrative lackeys, shame and destroy the oil industry, through these intentionally destructive policies,<sup>130</sup> while the President's son obsessively pursued kickbacks on oil and LNG deals with *our adversaries* well into 2018.

I agree. We can't fail in our first transaction. In so many ways! We think we have troubles now, these would be a whole different level. Let's try to get some straight answers. Realizing that the whole world is watching. Who knows maybe all is not lost!

Below is a read out from the last call that we had with Roland and Thomas Thornhill. As you can see there is a delay. I think this serves us well. I would like for us all to take a step back and get answers to questions that are bothering me. First and foremost is Roland's seemingly unilateral and last-minute decision to purchase the fuel offshore through Rosneft. How did Roland acquire that relationship? As far as I know it's not through us and until I see the necessary documentation from the US Department of Energy that states resellers can do circumvent the sanctions on Russian oil and gas I want nothing to do with it. Why are we now being told that the Shell Motiva tier one MDN does give Trade Group the preferred pricing even in times where there is disruption due to acts of god (hurricane). Finally, what's the rush. If all of my doubts and suspicions are nothing more than paranoia then we are still the only game in town. If they remain unanswered questions that I will not put my partners capital nor reputation at risk. And if this is all some sort of con than we should be proud of the process we put to work for our first deal. I'm telling Roland that we need to slow things down and that purchasing through Rosneft for our first transaction is not an option. Any disagreement let me know because I'm emailing Roland before midnight. Thanks, Hunter

But the diamond was just an appeler.

Nine days after Hunter's meeting in Miami with Ye, \$3 million was wired into an account for Rob Walker's company, Robinson Walker LLC, from State Energy HK Limited, a Shanghai-based company linked to CEFC, according to an inquiry by Sens. Chuck Grassley (R-Iowa) and Ron Johnson (R-Wis.)

On March 1, another \$3 million was wired to Robinson Walker by the same company. Both transactions were flagged by the Department of Treasury's Financial Crimes Enforcement network in a "suspicious activity report," filed with the Senate committees as "Confidential Document 16."

Using the document as a source, the Grassley-Johnson report of Nov. 18, 2020, says: "At the time of the transfers, State Energy HK Limited related with CEFC China Energy, which was under the leadership of Ye Jianming. In the past, State Energy HK Limited transferred funds to at least one company associated with Hunter Biden's associates, Gongwen Dong ..."

Completely agree. Purchasing fuel from Rosneft presents significantly more risks - quality, transportation, political risks etc. in addition, from my conversation with experts from the headquarters, Rosneft isn't a reliable supplier.

Given the situation, we may think of other options- work with other parties or even hire best people in the industry and start our own business?

Hunter Biden's Laptop provided details on his CEFC negotiations. A 17-page PowerPoint Presentation on "Monkey Island" translated into Chinese by his assistant, [a CCP operative](#), was due to start in 2023 according to JiaQi Bao.<sup>136</sup>

Basic Info. US Crude Oil in the Strategic Petroleum Reserve Stocks is at a current level of **390.52M**, down from 392.12M last week and down from 606.15M one year ago. This is a change of -0.41% from last week and -35.57% from one year ago.

US Crude Oil in the Strategic Petroleum Reserve Stocks

[11/26/22 Archive on SPR Stocks \(continued draining of reserves, why?\)](#)

Meanwhile, we saw the media complex levy a phony war (over Russia) against the prior administration from its outset. The intel-backed media do daily dives into the 45<sup>th</sup> POTUS's entire life: from his business taxes, real estate valuations, China to Mar-a-Logo documents<sup>137</sup>, or random sexual harassment allegations.

These same media folks ignored the largest betrayal in U.S. history by a Senator, VP, and now the sitting POTUS. Joe Biden is the posterchild of the entirety of the rotten political system, festering like a boil in front of the international community, but hidden from ½ the population that watch but one movie on the MSM cable outlets. (U.S. Federal Agencies are constantly blaming one political side as well. Which is an evil plan in and of itself.<sup>138</sup>)

It isn't that Trump can't be guilty; it is that the Establishment *needs him to be guilty* in order to maintain control of the narrative, that of: *"media and government tell the truth."* One notices the prior occupants of the White House were never harassed (and using J6 is not a valid reason at all) like Trump is after his departure. If we are going to be morally consistent, which is a novel approach, then all crimes (not just the ones we want to be enforced for political spite and power) have to be prosecuted fairly and with legitimate *due process*.

*But one knows that is a dream.* Which is why Biden is so dangerous to the Republic and serves agendas that come from 3<sup>rd</sup> parties (Obama, WEF, BlackRock, Xi Jinping) and *not in defense of the United States*, thus: treason.

**Getting back to energy solutions.** The policy prescriptions are to stop hindering energy production and invest correctly in nuclear power while keeping oil, LNG, and coal at the head of a thriving sector.<sup>139</sup> The choice of energy mixes does not require the unachievable Net-Zero policy that extremists want. But let's entertain the notion that such an idea has merit for a moment.

**Where is the pilot program to reflect a moderate city (1M) could operate off a grid of wind, solar and hydroelectric power?** Including all the transportation and heating and cooling (HVAC) needs? Why not do a 3-year rapid build to reflect this? (**Note:** This ignores the input products and environment damage incurred.)

Without a visible prototype (at \$100B?), to determine actual cost outlays needed, and measurable reduction to pollutants, there is no way to assess properly (a due diligence methodology) of "Net Zero" predicted outlays (reaching \$150 trillion, or more, over 30 years) by *Bank of America's* calculations.<sup>140</sup>

**When did any of this Agenda go through the Population as a Referendum?**

Why is this a black-white choice presently between Zero Carbon and starving people, as some have surmised ([Jordan Peterson \(9:00\)](#))?

Why is China immune from the discussion, given all the coal plants they are operating and building? (Bill Gates, a climate hustler, gave the “historic emissions” argument [1:30](#)).<sup>141</sup> This is logically flawed. One doesn’t base world-altering policy on “past contributions.” One bases any policy on logical benefits (if any) had with forward-looking environmental improvements. Given that China produces 29% of CO<sub>2</sub> emissions or “pollutants” (2016)<sup>142</sup> - and yes, this is tied to consumer buying (and MNCs outsourcing to corrupt China) - they should not get a free pass. Yet, Xi just gave China one until, at least, 2030.<sup>143</sup> (This tells us it is not about saving anything, *or anyone*. This is merely a cover for a social control grift unparalleled in human history.) (See: Appendix on China’s impacts.)

When world leaders have shown they cannot manage a viral outbreak, or the finances of their countries,<sup>144,145</sup> who would grant them any hope of reformulating a “world climate trajectory” with 100s of trillions in investment paired up with notoriously greedy MNCs as Klaus Schwab promotes always those public-private partnerships? Given technocrats authoritarian tendencies (expressed aloud), why are we to entertain any of this in the slightest?

A whole book on energy policy would barely scratch the surface, but these bullet points and sources are a start:

- ☞ One must *keep the current infrastructure going* while seeking or investing in alternatives that are *not worse than the problem itself*.
- ☞ CO<sub>2</sub> emissions are overstated, oversimplistic, and undermining of benefits seen in studies regarding planet temperatures and ecological health.
- ☞ Nuclear energy is the cleanest for the CO<sub>2</sub> emissions obsessed.<sup>146,147,148</sup>
- ☞ Electric cars<sup>149</sup> rely on mining rare Earth metals across the globe<sup>150</sup> from poor nation-states<sup>151</sup> & cause more environmental damage<sup>152</sup> and do not achieve any reduction in pollution.<sup>153</sup> These metals are being exploited by China<sup>154,155</sup> to provide Western Democracies their fetishized obsession with electric cars, driven by propaganda “marketing” and ill-intentioned, Globalist billionaires.
- ☞ The conversation on environmental policy needs to be open and country-wide held. Any debate should be towards *localized solutions* and a better understanding of *tradeoffs and benefits*. Moreover, the de-emphasis on the banking, multi-national companies directives along with U.S. agencies. Humanity needs less of these parasites operating levers of power, *quickly*.<sup>156</sup>

- ☞ If bioengineers have a real solution - not some prototype a decade or more away - then present the package clearly without hustling us for dollars.

## BENEFITS OF FUSION ENERGY

As the world moves towards net-zero emissions, sustainable and affordable power sources are urgently needed. One of the most promising technologies, fusion, has attracted attention from both governments and private companies.

Here we list some of the **benefits of fusion** as a clean energy source.

**Reliable**

Fusion energy is on-demand and independent from the weather, making it an excellent option in a dependable portfolio for power generation.

**Ample Resources**

Scientists use isotopes of hydrogen—deuterium and tritium—to power fusion plants. These atoms are abundant on Earth: Deuterium is found in seawater, while tritium can be produced from lithium.

**Sustainable**

Energy-rich generation like fusion minimizes land use needs and can replace aging infrastructure and electrify new sectors.

**Fusion powers the sun and the stars, where the immense force of gravity compresses and heats hydrogen plasma, fusing it into helium and releasing enormous amounts of energy.**

General Fusion is working to harness the sun's energy source here on Earth to address the growing global demand for affordable and clean energy.

**Safety Advantage**

Unlike atomic fission, fusion does not create any long-lived radioactive nuclear waste. Its radiation profile is similar to widely used medical and industrial applications like cyclotrons for cancer treatment.

**Clean**

Fusion energy is a carbon-free energy source that can help replace fossil fuels to support the electrification of transportation.

**Scalable**

With limited expected regulatory burden or export controls, fusion scales effectively with a small land footprint that can be located close to cities.

**Fusion energy has the potential to create a cleaner, more sustainable world.**

General Fusion is seeking to transform the world's energy supply with the most practical path to commercial fusion energy.

## V EDUCATION

Most economic models include the concept of the knowledge capital of a country. The heart of a country's ability to achieve flows from the latitude of its citizens to make their lives prosperous. That comes out of their intellect and their motivations to attain for themselves and their offspring prosperous paths.

A solid framework of education - the ability to use logic, read well, derive ideas from open-minded analysis of history, science, and mathematics - portends such abilities will be unlocked. Logic allows one to analyze the world; reading gives one an ability to free the mysteries of science and history alike; the field of mathematics grows in complexity within the realm of biology and physics in tandem. These are the basic foundations on which a child, and later, inspired young adult, will never lose, if these are the keen focus of education.

In one's estimation, such concepts were discarded for the chosen benefit of a despicable set of administrators, union bosses, and their most gullible teachers. This came vividly into view during 2020 - as a massive agenda was rolled out to destroy children's educational and IQ attainment<sup>159</sup> - most vividly seen in metropolitan, Democrat-led cities.<sup>160,161,162</sup> The media's COVID fear machine,<sup>163</sup> healthcare cronies, and the D.C. Health Agency apparatus dismissed parental rights. (To educate their kids appropriately without coercive masks or vaccines.) In lockstep, schools nationwide installed a race-based, equity-driven, blame-game, Marxist grift. School boards were purposefully obtuse, deploying DARVO tactics with the assistance of DHS<sup>164</sup>; the NEA,<sup>165</sup> UTA, and AFT<sup>166</sup> operated as political fiefdoms of power, making demands in a crisis situation; and teachers whined about providing education, using COVID as a weapon to pad up their bottom lines through educational blackmail of the kids and their parents.

All children were left behind. *The common core theme was Cultural Marxism.*

~

If people want their country back, the Foundations of Education must be restored. Educators must be held to account through validating their lesson plans and adherence to a narrowly defined and professional presentation. Women, who make up 3 in 4 educators at present<sup>167</sup>, cannot be openly hostile to minors; sexualizing them; or shaming them for any race, sex or religion these impressionable young minds are.<sup>168</sup> This goes as well for the male teachers.

Furthermore, these educators should be fired for any attempts to influence a kids' sexual reproductive path, no matter their student's age. K-12 EDUCATORS are not doctors - or clinical psychologists - nor paid to be one.<sup>169</sup> And more dangerously: the title "[psychologist](#)" should not mean a lot either.<sup>170</sup>

Politics should not be a topic of discussion until the later years of high school (16-18) and then to teach the U.S. Constitutional political process and not activist-laden agendas.

Since 2010's *Citizens United* ruling,<sup>171</sup> money pumped into politics by corporations and government-funded workers, as teachers in unions are, has escalated substantially.<sup>172</sup> These donations by teachers and their unions overwhelmingly landed in Democrat or liberal groups' hands (98%).<sup>173</sup> (See: Appendix.)

It is not a stretch of the imagination that teachers indoctrinate children based on their favored political party's ideological pivots. This creates an echo chamber of ideas, as censorship runs the breath of K-16 education. And more dangerously, it appears that mental instability is pronounced amongst many "teachers."<sup>174</sup>

All school boards' elections should include a community-wide *no-confidence vote*, to remove them for cause (a presented case and a local majority vote decision). Unions have shown their leftist agendas; those bargaining units should be abolished due to rampant corruption and inflated self-importance.<sup>175</sup>

Race was reintroduced by a grifter class of malevolent forces (Robin DiAngelo,<sup>176</sup> Ibram X. Kendi,<sup>177</sup> Bishop Garrison,<sup>178</sup> et. al.) to define the United States, like our common adversaries do, namely: China and Russia.<sup>179</sup> These are done to demoralize, destabilize, bring about a crisis, and then normalize these toxic ideas towards authoritarian rule. The grifters care not about the harm they induce on society as many of these people are backstopped by billionaires George Soros and Bill Gates (of common core educational debacle).<sup>180,181</sup>

Their grift, Critical Race Theory, is defined as, "an academic theory that says U.S. institutions and culture are systemically racist and oppressive to racial minorities, especially black people. Proponents of the theory advocate anti-racism and diversity, equity, and inclusion as means to combat the effects of systemic racism. Critics say the theory and its proposed solutions create and exacerbate racial division."<sup>182</sup> The top U.S. medical schools are utilizing this ideology,<sup>183</sup> reflecting the depth of the poison being ushered through Social

Justice & ESG credit scoring system that is comically flawed. (Telsa was rated lower than FTX; neither company is particularly good for anything useful.<sup>184</sup>)

Anyone is free to engage these ideas on their own independent time. A K-12 heaping of race-baiting and transsexualization of minors, [is abominable](#).<sup>185</sup> No parent, with sanity, would want their kid so retarded, intellectually, to see all their classmates (or adults) as merely by their skin color or their reproductive utility. Any teacher, librarian, administrator, or counselor pushing these topics (through speeches, assignments, surveys, lent books, private lessons et. al.) is a sociopath, *of some form*, and should be removed, and harshly investigated.

~

A teacher's role is to be a conduit to critical thinking through garnered ability to complete assignments and build towards more complex ones. These have to be age appropriate; and yet challenging with a probability of failing them as well.

The prefrontal cortex of the brain is not fully developed until the mid-20s.<sup>186</sup>

**Meaning:** the input, before that time, of toxic ideas, repetitively, will be ingrained into one's adulthood. Thus, the dangers of priming a child to abusive and toxic environmental factors, or psychological abuse (such as COVID was). As education is an individual-dominate pursuit, it needs flexible mentors that guide growth for that individual based on accepting responsibility and accountability, creatively, within a framework that has worked well in many prior generations. Else, "garbage in" creates the "garbage out" society visible nearly worldwide.

**One cannot believe this has to be told:** But the education system has miserably failed under the guise of equity, diversity, and inclusivity. The numbers reflect it time and time again. Failing grades yet passed to the next level.<sup>187</sup> Poor standard test scores because teachers do not challenge (or push CRT and other poisonous ideas) onto their students. (See: Appendix on dilution of the SAT.)

Any educator that complains about pay knows not the difficulty of anyone attempting to run and operate a small business. Those small businesses, run by parents, were under government attack during COVID-19 as well - were aided by these self-important educators and their big unions *for political purposes*.

Educators are a very spoiled group - substantial off time in all seasons, lax supervision as parents found out - and refuse any ACCOUNTABILITY for their obvious failures and unusual focus on their wants over the educational needs of their students. (Remember Educator: you were once that student!)

The collage features several news snippets:

### [Montage of Corey A. DeAngelis Thread Archive](#)

Money is not the problem either; rather, the layers of bureaucracy, that do nothing useful for the student, is. We have a bureaucracy flaw; an accountability flaw; and an ideology flaw.

It is time to fix these and move forward quickly.

~

To discuss any solutions, requires that we look at root causes, key parties, and note that a *student & parent-centered education system* is the best option.

- Parents: Family dynamics, money, time, and communication
- Students: Listen to their parents, educate their parents on their teachers
- Teachers: Listen to their students, design a classroom for success, inform parents, but not to snitch on their pupils
- Administrators: Build a teaching core that values their role, positive people, and seek less conflict amongst the above actors
- Governments: limited involvement and localized influence
- Businesses: Make educators aware of short-term, mid-term, long-term skill needs
- Society: How students become leaders. Ethical. Courageous. Motivated.

### Parents & Students

The involvement of parents in their children's growth is essential, if not paramount. An overwhelming majority of parents want the best for their kids. **The problem is:** between their own hectic schedules, tied often to marital schisms, and a lack of awareness of the sinister motivations had by Public School Systems nationwide, these well-meaning parents are fighting an octopus of engrained ideology, politicalized teachers, and overarching world agendas .

Parents need choices that are not tied to the Public System as it is at present. Several designs, including *money that follows the child*, *charter schools* and *homeschooling systems*, exist, but are resisted significantly by the U.S. Department of Education and their State Satellites. Teachers unions fervently lobby for restrictions to undermine Parental Rights in steering their child's education. These teachers are indoctrinated with Marxist ideology as former KGB member, and defector, Yuri Bezmenov noted back in the 1984.<sup>188</sup>

This Marxist objective ties to the United Nations Agenda to use health (through the WHO which is controlled by Gates and Xi Jinping through their puppet Tedros) to reduce parental involvement at any level of the child's education. This can be seen in February 2020 emails sent to Anthony Fauci about [conferencing for vaccine hesitancy](#), specifically targeting children, and undercutting parental choices through various forms of coercion, up to and including forced vaccination.<sup>189</sup> The conference was co-chaired by Peter Daszak and vaccine policy was designed by California law professor Dorit Reiss.<sup>190,191,192</sup> One Health<sup>193</sup> is a method to pull kids out of the control of parents much akin to the Bolshevik Revolution that later destroyed marriages in the mid-1920s.<sup>194</sup> Family is the key American connective tissue that the STATE has decided is unworthy; and their technocrats have an ideological focus<sup>195</sup> to bully, shame, and destruct any resistance to that worthiness judgment by the STATE. (See: Appendix for Daszak's One Health & Fauci emails.)

Students need the same variety and ability to stretch their options while in a structured and stable environment. The Homeschooling option, potentially based off a rotational schedule where parents' backgrounds create a well-rounded education, should blossom. Practicality in learning is a necessity.

### Teachers

Teachers must up their educational abilities going forward as well. More technical and interdisciplinary, for any environment, whether public, private, or homeschooling. Below shows an example of the new educational degree.

### Administrators

Administrators and School Boards are critical failure points. These need de-emphasis in education. The centralized control of hiring teachers and classroom curriculum, that are not observed or even tracked for success, is a path to educational failure. The teachers are incapable of doing their jobs by their training and lack the oversight and measurements of successful educating. Downsizing layers of management that do not work is needed quickly.

Charter schools became popular because of public schools pronounced shortfalls. But like medicine, the agenda and money from unions lashed out at this alternative to their indoctrinating hegemonic power in "education."

Another point, a classroom is not a dictatorship. It is cooperation of forces that function best when people deescalate conflicts and treat people fairly, but sternly, when they act out. Discipline is needed, early; and often, a simple phone call to the parent could resolve this. Many parents should want their kids to know they do not tolerate tantrums, without a legally grounded basis for them.

To do this disciplining, trust is needed by parents of the teachers who provide their children appropriate encouragement as well in the classroom.

**Note:** One remembers getting spanked (paddled) in 1980 by his black teacher in Winchester, Tennessee. Mrs. Nelson was my favorite schoolteacher in life. And no, her outward appearance did not matter. But one notes it because the

administrators today, and the hard left psychologists, do not promote any disciplining of children. Because of this, along with affirming children's tantrums, the schools are now hellscape run by emotional stunted and stressed women that are trained *their wants are more important than anything or anyone*.

Wonder why children are so confused?

Between lack of fathers (as divorces and single motherhood rates climb to 40% overall, and higher in black communities) and resentful teachers whose mindset is about themselves, past grievances, and spewing the talking points learned in media, college, technocrats in Washington D.C., or through the despicable UN, the average teacher is little more than a mediocre babysitter at best.

These women (primarily, but not exclusively) require additionally self-reflection and time away from this field, it appears. Some of them are talented and could be rescued into a better school choice option. As many that escaped the Public-School Hegemony found out, there are more fulfilling ways to expand the talents of their charges. Competition breeds the best educators and best students.

#### Governments, Business & Society

Governments need to stay out of the classroom. Their pernicious creep into the classrooms can be noted as apart of "the long march through the institutions" or Cultural Marxism. The expansion of middle-level bureaucracies that get paid six-figures to do nothing of importance,<sup>196</sup> can be seen as well in big technology platforms, like Twitter.<sup>197</sup> This expansion of "do-nothings" built up into a *class-conscious power structure* that is a 21<sup>st</sup> century, Techo-Fascist-Communist Paradigm (TFCP) being sought at present around the World.<sup>198</sup>

Governments used their monopoly on force and violence to contort relationships in education and business realms while encouraging abrogation of Constitutional Rights. This needs well-paid and ideologically-driven people in popular centers of debate (like Twitter or Facebook).<sup>199</sup> Those places were discovered to be working to censor folks about a myriad of topics,<sup>200</sup> abridging any rights to speak, using newly formed "fact checkers" who are neither subject matter experts, nor particular versed in legal matters, and even if they are, they attack expertise and speech rights routinely. They are fervent proponents of controlling all people; and well-paid to do their jobs of "just following orders."<sup>201</sup>

This can be best seen Worldwide as the foisted guise of climate change interjected into the classrooms, from the UN (SDGs) through ESG,<sup>202</sup> run by

central bankers (digital currency that can be controlled at a whim), who are subverting governments, monopolistic companies (Apple: key to education), and institutions down to your hometown. Social Credit Scores are in China; but these are in “beta testing” for all Western Countries, particularly the United States.

Your educator likely barely touches on, and rarely would push back against, the climate agenda propped up by: “effective altruism.”<sup>203</sup> The propaganda pushes to educators, the monetary incentives, and most importantly, the de-platforming for any non-compliance operates to keep them on board with climate, racial justice, and a host of other extremist positions (transgenderism promotion).<sup>204</sup>

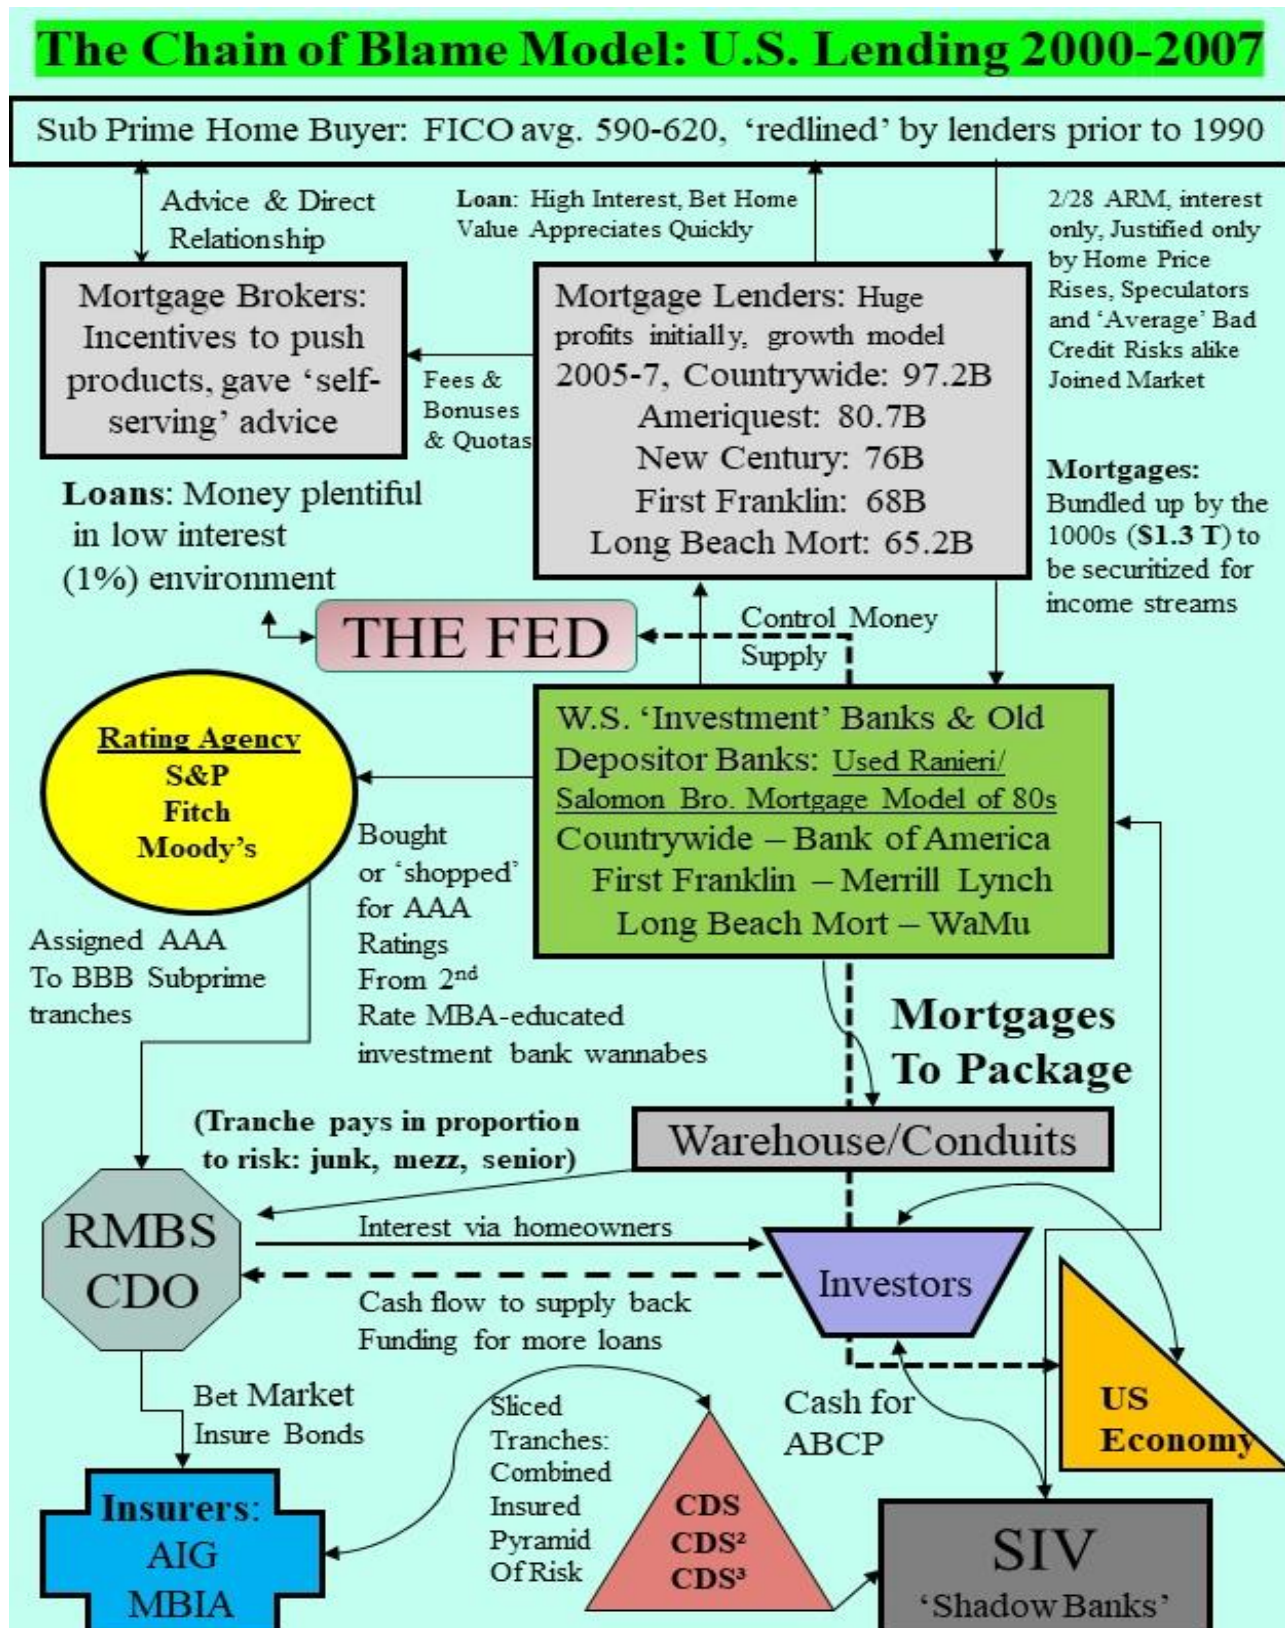

TFCP is driven by many ideological, non-elected people, many of them seen at the World Economic Forum, headed by Klaus Schwab. Schwab is but a vocal figurehead of the Royal Family, now headed by King Charles III as of late 2022.

The Royals are connected to censorship pushes<sup>205</sup> and keenly lead climate change policy.<sup>206</sup> Europe, in total, lacks natural resources, compared to the Asian land mass, North America, Africa or Australia. Europe’s debt levels are not sustainable and the powers-that-be know this all too well.<sup>207</sup>

This particular climate agenda came on very hard after the [2008 crisis](#).<sup>208</sup> Then, the World Central Banks used quantitative easing, printing money, to float the banking systems on a pool of zero-interest cash that was directed only to their behemoth entities. Those behemoth entities then hustled up an agreement with the radical fringes of ideology to keep countervailing forces at bay, while de-emphasizing rational and working systems, labeling them racist.<sup>209</sup> This was well-timed with *Occupy Wall Street*, *The Tea Party*, and other movements that were highly upsetting to the oligarchic powers that directly wrecked the World Economy. These movements one will say were not all truly organic, being sabotaged quickly; with media-based ways to shift conversations (divide-n-rule); and lo, the *Citizens United* decision, expertly opened the corporate door to even larger narrative control mechanisms (political dominance and ESG deployment).

Going back further, the oligarchic powers and political forces pushed loan products towards persons unable to meet FICO loan requirements by lowering those standards to get a home, car, or other big-ticket items. This was due to a lack of new customers - homeownership reached an equilibrium point for those that could pay - to put into Wall Street’s mortgage back securities (MBS). These MBS instruments themselves were then sliced (tranches) and packaged further into credit derivatives (CDS) for the casino (bond and equity) markets to bet on

daily. Whether by chance, or design, the market collapsed just after deregulation (started under Clinton and finished under the Bush administration), reflecting neither Party desires rational policies while impacting your lives.<sup>210</sup>

## VI INTERVENTIONISM

On the day before 9/11, then Secretary of Defense Donald Rumsfeld admitted that:

“Our financial systems are decades old. [Speaking of Pentagon systems.] According to some estimates, we cannot track \$2.3 trillion dollars in transactions. We cannot share information from floor to floor in the building because it’s stored on dozens of different technological systems that are inaccessible or incompatible.”<sup>211</sup>

The next day, in the early morning hours, New York City’s World Trade Center and Washington D.C.’s Pentagon were attacked via a plot, years in the making. From that day, the National Security State expanded and stripped away people’s rights under the cover of “fighting terrorism” abroad, while “stoking it” on the Homeland, using internet honeytraps in the years to come. The PATRIOT Act (passed in 45 days)<sup>212</sup> and the FISA court were developed; and continue on to this day. From those liberty-robbing dual acts, a myriad of constitutionally illegal actions was allowed without ado from the controlled media to the sheepish public (including spying and sabotaging a U.S. President by his opponent (with the help of the Obama administration) via a British Ex-Spy.

Notable, after 9/11, the U.S. toggled from Afghanistan to Iraq and then to a host of other countries. General Wesley Clark received a command directive from Rumsfeld’s subordinates lackeys in late September 2001 that left him dumbstruck.<sup>213</sup> Clark said in an interview: “We got a good military and we can take down governments...We gonna take out seven countries in five years... [Oil was the motivator.] Nobody is threatening to intervene in Africa.”<sup>214</sup> A history on the pre-and-post-craziness of 9/11 can be found at [CorbettReport.com](http://CorbettReport.com).<sup>215</sup>

This sort of insanity (government takedowns and “mission creep”) is why we are \$31 trillion in U.S. national debt, but that is a small fragment of U.S debt-held obligations. No one should be justifying this disruptive method, generally known as “world policing,” that has been in action since the late 1940s.

Then, while the threat of the USSR was real, and well-acknowledged, by the takeover of countries in Eastern Europe, the impetus of the fledgling CIA, headed up Allen Dulles (53-61) while his brother ran the State Dept (John Foster) from 1953-59, shifted to covert ops (Iran, Guatemala), front businesses, and destabilization of countries that disagreed with the supposed U.S. policy. Little mentioned, their sister Eleanor, operated at State ([Economic Post War Planning](#)) throughout the 1940s; and sat as a key member of the Bretton Woods

monetary meeting that formed the IMF/World Bank. She was [assigned to](#) “foreign aid programs and visited 60 countries,” starting in 1959 and later fired in 1962 after brother Allen was dismissed by Kennedy.<sup>216</sup>

Such cohesive power is not by a quirky accident. The Dulles brothers started their journey of destabilization in 1920s Germany as lawyers for the Rockefellers. The scientific importation of Nazis, [Operation Paperclip](#), into the United States is not to be ignored either after WW2 under the Dulles’ orbit.<sup>217</sup>

Late, in the Eisenhower’s administration, Dwight said the quiet part out loud, regarding the “Military Industrial Complex.” President Eisenhower likely understated this predictive omen of things to come. And he was not unfamiliar with war in the slightest; but did not resist the expanding power of the complex. Ike’s misgivings were felt by his successor as the “conspiracy theory” term was born, smearing those in pursuit of answers regarding JFK’s brutal assassination.

Between LBJ and Joe Biden, the United States has rarely been without hostilities, our proxy and undeclared wars eagerly sought out by the Pentagon. Vietnam, Iraq, Afghanistan and Ukraine are the well-known and most costly theatres of note. But other places are so numerous, often going on for years, without a peep from the media, that unless it serves the purpose of the State and Defense Departments to garner leverage on the sitting President, no one but the most well-informed person will know what said conflict is actually about, allowing corrupt actors to profit immensely from these hidden wars.

If ever there was a legitimate beef the “Old Left” had, this topic would be highest on that list. But, as time as shown, the “New Left” cares only about Power; through abusing individual rights; and exploiting issues to garner more attention *for themselves*. *Warmongering is easiest* by those that do the *least dying*.

If the United States wants its MORALITY back, it must cease the militaristic obsession to propagate and protract such World Policing cum War Profiteering. By deploying evil strategies, because “we have a good military,” this will lead to the ultimate destruction of that military, and the entirety of U.S. and collateral damage hitherto unfathomable upon ALL HUMANITY. This does not mean we refuse to aid our ALLIES; rather, we do so on terms that are well-stated and narrow, grounded in a Constitutional process, and a deep understanding of the PRICES of WAR. Such PERILS ABROAD are real for ALL of US.

BE CAUTIOUS of ANYONE saying OTHERWISE.

## VII MEDIA

The opinions of folks in a cornfield in Iowa are closer to the truth than *The New York Times*. Why? Because they stick to facts on the ground, the Earth itself.

The entirety of media complex faced a declining viewership with the advent of the internet. Like Gutenberg changed the game for the monastic scribes of the day, to the lasting benefit of artisans and random people who later acquired greater ability to read and write (Shakespeare), the instantaneous and peer-to-peer abilities of internet conversation manifested out of the early 1990s in large part off of DARPA's late 1960s ARPANET.<sup>218</sup>

The media industry formulated a strategy in the 20<sup>th</sup> century of creating networks, movie and publishing houses, and controlled regulators that protected them from significant challenges. Media was a vital institution - and it could shape and transform opinions by appearing dispassionate, in some outlets, while having an agenda. As gatekeepers, and controllers of narrative, facts, and with the intel agencies doing cameos to appear helpful (or explicitly controlling narratives in full), the public received a pre-packaged and coordinated program that told them what to think, how to think, and when to care about what event, person or idea. In short, *a happy propagandato* make their lives easier to digest; or full-on fear mongering if the State actors decided it was needed.

The 90s internet was profoundly unique, at its nascent start, for people to get information from a firsthand source halfway around the world. This meant the media was superfluous and could be literally "fact checked" by people who tapped their newly acquired sources *in country*.

Little did we realize how quickly the government and those concerned media industries formulated a plan to control those countervailing and truthful narratives. The standard go-to move was the *conspiracy theory* label.<sup>219,220</sup> Developed by the CIA in the mid-1960s for those that question the obvious implausibility of Lee Harvey Oswald's lone gunman abilities on November 22, 1963, such a label gave the "normie" an easy come back retort to someone that asked too many questions that said normie could not surmise an answer or refute the logic of asking them. (To this day, the U.S. federal government, namely [the CIA and the FBI](#), refuses to release ALL remaining JFK files.<sup>221</sup>)

Another historical maneuver, to *smear the messenger*, as being unreliable due to their background issues: or, in fact, potentially conflicted by incentives of fame, fortune or loyalties. This of course again deflects and ignores any data or

facts regarding the inconvenient truth - like the inconvenient hustles of a former Vice-President more interested in profit from climate scare porn, than any logical ways to address these realities, if due diligence on a plan showed real promise.

When labels or deflections cannot quite do the trick, create a *bigger event* to chase. The news media routinely relies on the bait of hyperbolizing up violence (Floyd) to such a disturbing degree, the scripted talking points are assuredly issued by intel agencies or comms director for a political party's gain. This creates a big threat to the *normie*, that reacts to the "new stimuli", *because they are told that is the right thing to do*. From youth to old age, the social engineering cum propaganda program passed through people connected to Freud ([Bernays](#)),<sup>222</sup> Hitler (Goebbels),<sup>223</sup> or the CIA (Operation Mockingbird).<sup>224</sup>

Trying to decipher when the Nazis did not run the covert part of the United States government (since the 1940s) would be a conspiracy worthy of investigating as many have.<sup>225</sup> As it appears that since Prescott Bush begets George H.W. Bush (a CIA director and then POTUS) and his lackluster, sociopathic POTUS son, who further employed In-Q-Tel progenitor of social media and CIA director George Tenet, this Fascist problem grows more pernicious, and now, is a permanent feature throughout the world-at-large.

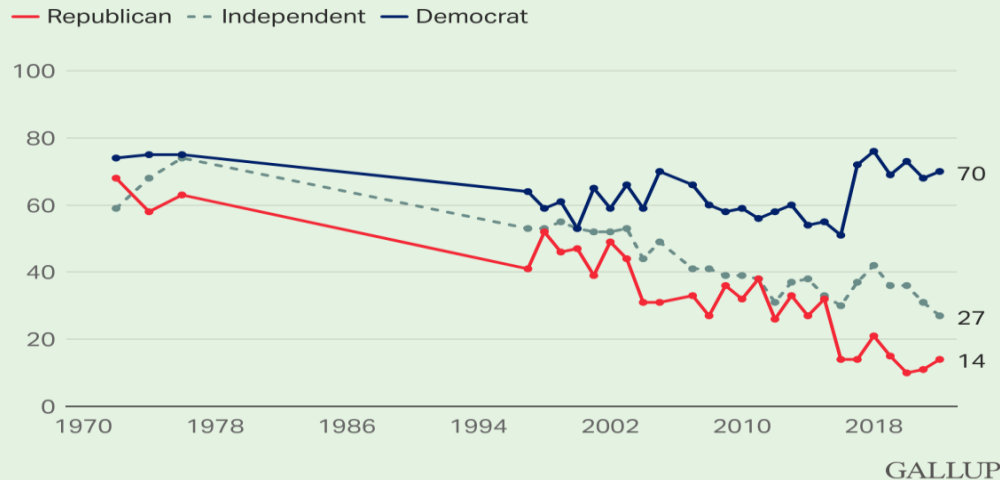

Sun Valley has former intel heavies talking to the biggest tech platforms in the world.<sup>226</sup> George Tenet and Bill Barr, both CIA and deep state, completed big mergers and acquisitions with telecommunications companies.<sup>227,228,229,230</sup>

In late 2012, the NDAA signed by President Obama allowed for propaganda, full scale, on the United States Citizens.<sup>231</sup> And lo, the divergence on "Trust" in corporate media can be shown below in two Gallup Poll graphs from 2022<sup>232</sup>:

### Partisans' Trust in Mass Media, 1972-2022

% Great deal/Fair amount of trust and confidence in the mass media to report the news fully, accurately and fairly

### Americans' Trust in Mass Media, 1972-2022

In general, how much trust and confidence do you have in the mass media -- such as newspapers, TV and radio -- when it comes to reporting the news fully, accurately and fairly -- a great deal, a fair amount, not very much or none at all?

And to further reflect why this is, ownership of media drives the propaganda.

The left-right media sold to all U.S. citizens is but a façade. With FOX, which is the biggest of the “right-wing” media but is as beholden to the same conglomeration of BlackRock et.al. as the left is. (FOX hired its top legal officer Viet Dinh from Kirkland Ellis, Bill Barr’s former law firm, in 2019.<sup>233,234</sup>)

(Kirkland Ellis personnel handled Dominion’s [patent transactions](#) between foreign banks (including HSBC) in September 2019.<sup>235</sup> Dominion Voting Systems has no transparency on its source code. **See:** Appendix.)

*The solution to this hustle is to think.* Think about what the person on that tube is paid to do. Or that writer that throws out a baiting article based on a “What if?” The ability to write a straight fact-driven report: who, what, when, where, and how did something occur or come together. Does it clearly state *any opinions* (why) overtly and make some logical argument behind that opinion?

If it can't be verified, does the author or media presenter, tell one that upfront? And how many times do they reiterate that state of affairs (appropriately)?

Look to see if there are links to legitimate studies or experts, instead of the trap of “experts say” or “the study suggests.” Does the article share that evidence as well? Try to find the evidence and find out who funds it as well. Does the article lie by structure or bury the biggest fact 15-20 paragraphs in?

Find solid media outlets and use them the most. Notice changes as well. Often, the problem is not checking an array of outlets and what they decide is newsworthy to report. Small publications can be good as they want to grow in credibility; but notice immediately if these small outlets tact into irrelevancies or shameless promotion.

Be your own journalist and researcher and cut out the CIA Mockingbirds. The logic of this will grow as experience and time passes. Be not lazy about what you inform yourself with daily. Local news is often ignored; and it should not be.

## VIII STATE & INDIVIDUAL RIGHTS

The U.S. Constitution specifically identifies those Powers not given to the Federal Government are reserved for the States through the 10<sup>th</sup> Amendment. It is not a mistake that the Constitution starts with Ten Amendments specifically addressing Individual Liberties of Persons that are Citizens of the United States of America. The intense manner of the later named *Bill of Rights* discussion, with over 200 Amendments introduced, carried on for several years before Ratifications was achieved in all the States by December 1791. Roger Sherman of Connecticut proposed these be added as a separate list.<sup>236</sup> These Amendments narrowed to Twelve, of whom, the original Ten define our most Valued Liberties, if not always seen as such; especially in the Present Day due to dilution by Agencies circumventing liberties and seizing power from misguided (or malevolent) Chief Executives, quisling Legislators and haphazard Judicial decisions.

Many have died for the continuation of this Country, even as the Constitution, in the proper, included the unfree and enslaved 3/5 Compromise (Article I. Section III). The U.S. Civil War ended the despised allowance of Slavery of Negro (archaic term) in the States by Amendment (XIII). But Modern men and women, decide that their Ancestors were too ignorant, too unenlightened to immediately outlaw a practice visible as Man's overwhelming burden going back to every Ancient Civilization and still Present in the 21<sup>st</sup> Century.<sup>237,238</sup> No matter that such was done before the Country officially turned Hundred Years; and Lights, were not even a Meager Capability. Such is the case - that Sins of the Centuries Past are disastrously used to justify the seizures of power by those forces, most diabolical in their Agendas, in the Present Day.

The disguises of overarching care of anyone seen *as Lesser Now* must be seen with suspicious intent, if not overt criminality to hide their Endgames. Much of the present talk about Disbarment from Office and Disenfranchisement in Vote (Amendments XIV, XV) is a rehash of intense battles fomented by Democrats spanning across the bloodiest War (from 1856 to 1876). Ineligibility for office and *Voting Supremacy* would cement the **TFCP crowd** in Washington, D.C.

Obviously remaining in permanent power (like Republicans held for a generation after the Civil War ended) allowed for a great deal of power to amass into the hands of the key oligarchies of that time: the Rockefellers and Morgans. Banking tilted into the hands of a few - and soon Panics were easily exploited to move toward a permanent Central Bank. (The *Progressives* of the time

clamored for it - while the Bankers sold the lie it took power *from them*- and the outcome was the Federal Reserve is controlled by the same players in banking that gain more power in every catastrophe and upheaval since (1929, 1944, 1971, 1987, 2001, 2008, 2023?).

Such political exploitation of divide-and-rule (the left versus right, while the problem is hierarchical and class-based) now rears itself off the Agencies. Legacy Agents, still “loyal” to former Presidents (Clinton through Biden, *sans Trump*), blame Citizens for all Domestic Conflicts and Violence, while forgetting the Sins of the Pentagon that killed 700,000+ Iraqis, including 500,000 children. But as former Secretary of State Madeleine Albright quickly waved off on *60 Minutes*, “the price is worth it.”<sup>239,240,241</sup> The State Department, that General Wesley Clark pontificated aloud about, designed a destabilization plan, and then executed it to destruct North Africa and Middle East countries during the 2011 Arab Spring headed by then President Obama; and lastly, American Citizens were stripped of their manufacturing might (1970-2022) through Ten U.S. Presidents: to satisfy greed through investments and predetermined declines for the Population of this Beautiful Country, by calling it “Globalization.” Ultimately, the Citizen’s *Bill of Rights* disappeared as the veteran political Oligarchs deploy these bureaucrats as their well-paid 5<sup>th</sup> column: 400+ Agencies with well over 2 million members that rotate in and out of governance (administrative), to universities (law), to lobbyist groups (policy), to media (propaganda) to Wall Street (finance), and subvert every single institution, failing upward, without regard to the operation’s well-being.

When Presidential Power passed back to the former VP, a U.S. Senator for nearly forty years who voted on countless forays abroad that bankrupted Us, and was the point man for the 2009 American Recovery and Reinvestment Act and 2014’s Ukrainian policy, whose business interests were served best?<sup>242</sup>

Our Country’s greatest industrial and technological threat: the Chinese Communist Party. (President Biden brags he’s spent more time with the CCP’s dictatorial Paramount leader, Xi Jinping, than any other world leader has.)

One is not just skeptical and suspicious of divisive tactics to *lay greatest blame* at the feet of *those with the least power*, but one knows this has been the Tactics of Empires and Dictators alike for Five Plus Millennia. ([Sun Tzu](#))

Our British Cousins deployed this in India in the late 1850s, while game planning these same diplomacies in the South to seize back a divided United

States, in the hopes that Our Civil War left Our Fledgling Union in disorganized pieces. To quote Neil Stewart's *Divide and Rule* (1951):

“The growth of any dangerous identity of feeling from community of race, religion, caste of local feeling. [It was realized that] the existence side by side of hostile creeds is one of the strongest points in our political position in India.”<sup>243</sup>

This gambit runs on into the Present. We have Neoliberal-con political parties ginning up racism, sexism, transgenderism, and any -ism [Marxism] to garner ultimate advantage over the US Population, ignoring the ultimate blame need be pointed at the Neoliberal-con financial crimes and policy blunders they push before *The Final Cash Out*. This is done by conning daily the simpletons, the low-level grifters, the emotionally-spoiled, and the desperately trapped, that *random money*, welfare relief, and forgiveness of debts, are a mere Federal Government's paycheck and overreach away, such as COVID-19 presented a crisis-opportunity foray deployed through those Agencies like a charm.<sup>244,245</sup>

This makes all those that do their best, with the least help, angry at the permanent prospect of being their *brother's keeper*. Yet, as those keepers that make the implements of your life: create the food, electricity, and gather your wastes, others smarmily decided their computer applications, robotics and vaccines will cure all of those tasks ahead, *don't worry*. When ask to provide proof of a full model concept that has these benefits, with the least dangers and downsides to the people it impacts, one is left with excuses or silence. And then called slurs through media of being “too intellectually dim” to understand these amazing, technology-driven plans and solutions that need, “just a bit more investment” from you, *the taxpayer*, who no longer has a vote in this madness.

When these fail, as they invariably do, then these Technology and Political hucksters offer up more *Social Rights* or another *Scheme of Technology* to deflect again from their failures, wastes and hustles. This is the root of the Ponzi of Social Justice, the Bankman of Simpleton-ism, the Madoff of Mad Money to provide fake creditability and cover for all these corrupt and conning forces.

Be Not Divided! Unite and Reflect on these Masters' of Deceits, Lies, and Cons.

Your Rights are in Gravest Jeopardy Under the Stewardship of this Current Administration and the U.S. Congress.

## IX FISCAL POLICY

The entirety of the United States depends on its ability to manage its resources and finances, while providing for the security of its people. Sadly, as the last thirty-five months have shown, the ability to manage such essential pillars, during an international crisis (of which there is substantial evidence of a U.S. agency's complicity, that of the Virus), has been a multi-faceted failure to mitigate, and identify properly, the risks to those essential pillars.

As a result, we now have an inordinate dilemma. Driven by policies pursuing invariably the same objective, the destruction of our country's individual liberties, livelihoods, and societal contentment, one must ask:

When does this stop? When do the lives of ordinary people matter?

The U.S. monetary system is a fragile and complex thing. It rests on the "full faith and credit" of the ability of the United States (and its population) to service its obligations. We, as People, do not have the authority to merely create money at our whims. We must earn our faith-filled dollars to keep ourselves, our families, alive. We do not have the luxury of merely voting ourselves raises out of thin air (as Congress does through the XXVII Amendment).

We have limits in our lives.

Our country once operated on such limits based on moral character, personal sacrifice, frugality, and a healthy disdain of excesses.<sup>246</sup> Some now ignore those needed principles, to a purposeful detriment, or a willful ignorance, of such issues regarding our country's now perilous finances.

They see the United States as a piggy bank to exploit for their own purposes through whatever scheme or design fits the moment of their robbery. They offer schemes of reparations to their constituencies. They brutally shame others to divide-and-conquer. They use greedy power grabs to push our country to its final demise, or, at the very least: submission to an ideology through psychological torture not seen in full bloom since the 1930s. That We, the People, once fought those hated ideologies - Communism & its kindred cousin, Nazism - is not lost on us that remember our history well.

The purveyors of these need resisting at all costs. Or the World will suffer again in ways incomprehensible to the very imaginations of the ones most easily exploited to bring such evils to pass on this Earth.

The U.S. citizen, the ones that build the roads, manage and fix electrical issues, appear in storms to provide needed food and water, pay amply too for the financial misdeeds of people from Wall Street to 1600 Pennsylvania. The wars from Vietnam through Iraq, Afghanistan to the Ukrainian debacle, the financial casino ride of the 2000s, the welfare policies in large cities that still pervade, but yet do next to nothing, for the very people, all Senators and Congress swore an oath to support, no matter their race, creed, or religion, now doom us to oblivion.

As a result of these repetitive assaults on sane budgetary policies, by the year 2000, the National Debt stood at \$5.7 Trillion. By the time a new President took office, in 2009, it was \$11.9 Trillion. Then as that President left office, in 2017, the total was \$20.24 Trillion. The National Debt eclipsed \$31 Trillion as of November 2022. Congress has added well over \$1 Trillion per year to the National Debt for 20 straight years. In November 2022, the U.S. debt grew by a quarter trillion dollars!<sup>247</sup> Smart folks predict interest on debt will reach 40%.<sup>248</sup>

We, the People, can only pay so much. Our brow is not a limitless coffer of blood, sweat and tears. We too have limits to the amount of support to be given to any August body to do its job. Stop the madness of printing more and more money, “fiat” currency; or electronically creating checks for people to do, alas, nothing, as the 2020 Pandemic was exploitative of people who sweated, the most, for those that desired to do, the least. Thus, feeding the very monsters that will create more urban hellscape from paying their idle hands to do the bidding of our enemies, often by doing exactly *nothing!*

We have enough currency. We have enough debt! Doing fiscal stimulus will escalate this into a classic wage-price spiral (very rapidly) as inflation that is readily apparent in ALL our daily goods. Meanwhile, the FED trapped itself.<sup>249</sup>

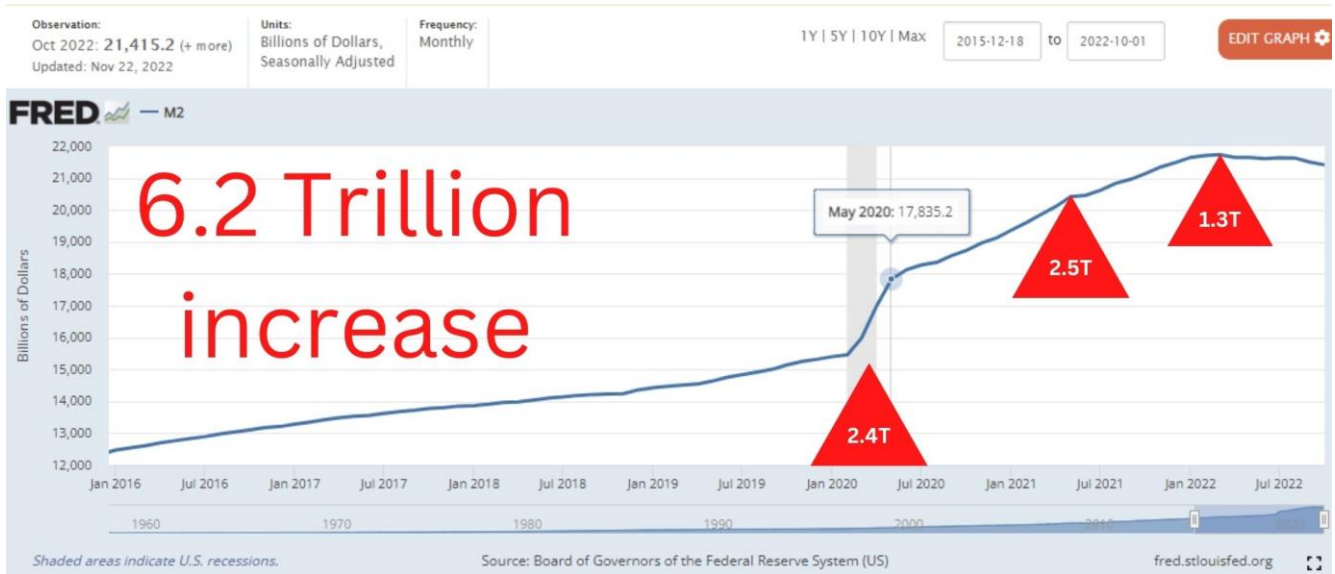

What we don't have is the Liberty and the free Ability to make our economy sing. We need less interference from governments and large Wall Street entities that pick winners and losers. We need rational policies that protect local companies from exploitative ideologies, like China, who fired up 38 Gigawatts of coal plants in 2020, while promising “climate goals” by 2060.<sup>250</sup> And that is the least of China's sins to be considered at present, but nonetheless, important to note.

Unleash the *American Spirit* and allow it to prosper.

*Debt is Slavery.* National debt creates permanent slavery, that Our Enemies gleefully desire for the United States.

## X MONETARY POLICY

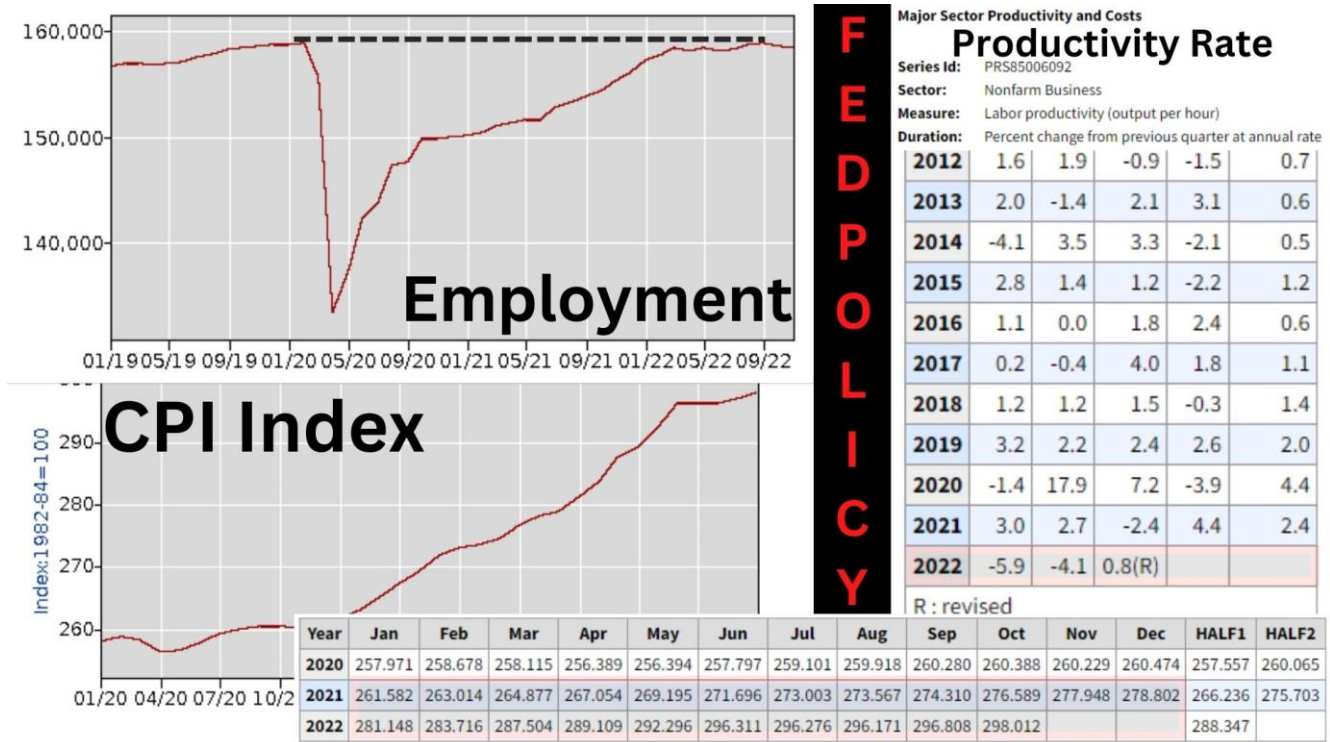

The controllers of monetary policy are the U.S. Federal Reserve (FED). Formed in 1913<sup>251</sup> after a propaganda campaign, based off fear of banking catastrophes, the FED has not averted bank catastrophes,<sup>252,253</sup> regarding the public's finances, or enhanced its welfare. One would easily contend the private banks, who own the FED, are the greatest beneficiaries of its policy: that of pumping fiat currency to the disastrous end of United States economy. Fiat money always fails. Supposedly, the FED's dual mandate is low inflation and full employment.

**M2 Supply:**  
<https://fred.stlouisfed.org/series/M2SL>

The measure of a policy is the outcomes seen. Money printing always leads to consumer pains shown in inflation of all goods to various degrees. In March 2020, with a declared lockdown via national emergencies in the Western World, suddenly world and U.S. governments went on a fiscal (read: debt) spending spree. The U.S. checkbook provided over \$2 trillion into the emergency bucket for Americans, but directly, citizens received only \$271 billion, or roughly 13% of this helicopter money. (161,000,000 employed persons received the IRS \$1,200 check plus \$500 per child.<sup>254</sup>) PPP business loans, wrought with fraud from all sorts of bad actors, were provided as well.<sup>255</sup> BlackRock and Blackstone went hog wild in the real estate acquisition business. Big box distributors made out well in 2020, boosting their stock prices along with the wealth of the billionaire class. But the consumer received the headache of this reckless policy, starting in 2021, and acerbated now into 2022. But the worst part is neither productivity

nor employment in the United States moved beyond the peak of January-February of 2020.<sup>256</sup> Printing money benefited ONLY ONE group<sup>257</sup>: the Globalist Parasite Class that seeks to remake the entire world in their homogenized image of lesser animals than themselves. That is: you and me.

Some will argue the supply chain was the determinant factor. It contributed, less goods plus an increase in money supply, will add inflation on items one desires. Additionally, the purposeful restrictions on energy by Biden's administration, freaky outbreaks of food production factory fires, and not-so-freaky targeting of Netherlands' farmers, tends to confirm that these events and policies *are linked*.

A paper published by BlackRock in August 2019 called "going direct" advocated for moving to a 2% inflation target.<sup>258,259</sup> And wouldn't one know it, the policy advocated for more than produced that number, by multiples (4-8x) just after SARS-COV-2 appeared like a proverbial robber baron to snatch up wealth.

As former government official and financial advisor Catherine Austin Fitts noted:

"Perhaps just as remarkable as the fact that the Fed followed BlackRock's script is the fact that the Fed tapped BlackRock itself to manage three separate programs created once the pandemic hit: the Primary Market Corporate Credit Facility, the Secondary Market Corporate Credit Facility and purchases of Agency Commercial Mortgage-Backed Securities."<sup>260</sup>

Ellen Brown expands on exactly what BlackRock got to do while you or I were deemed “non-essential” from a pre-conceived policy that turned on opportunistically, but for this one *non-bank, investment entity*:

“In March 2020, it was awarded a no-bid contract under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to deploy a \$454 billion slush fund established by the Treasury in partnership with the Federal Reserve. This fund in turn could be leveraged to provide over \$4 trillion in Federal Reserve credit. While the public was distracted with protests, riots and lockdowns, BlackRock suddenly emerged from the shadows to become the “fourth branch of government,” managing the controls to the central bank’s print-on-demand fiat money.”<sup>261</sup> [My emphasis.]

BlackRock received a contract to handle over 21% of the CARES Act. Which is more money than *the entire workforce of the United States by 150%*. BlackRock is unaccountable (as are all banks that are “too big to fail”) and Larry Fink is a self-important financier who speaks of “forcing behaviors”<sup>262</sup> on humanity like we are in his personal, *BlackRock-managed* dog kennel, rivaling Fauci’s beagles.

Inflation desired; shadow banking funded; people’s behavior restricted, while overtly garnering more financial power than all the taxpayer base of the United States from the FED off a Pandemic that has suspicious origins and was militarily propagandized to stop any resistance to lockdowns. BlackRock, by the way, is heavily influenced by its CCP holdings and interests.

When people look at the FED closely, remember: President Andrew Jackson was adamantly against centralized banks. While on Woodrow Wilson’s watch, this opaque and special entity was created along *with federal income taxes*.

Who asked for this? Big businesses (and lobbyists for them) wanted the abolishment of tariffs. Such protectionist policies run afoul of the economics profession. The same profession that now lauds Modern Monetary Theory (MMT) which is Japan’s policy that, like the U.S., is about to implode epically.

Central Banks are the worst system for common folks. The main reason people concede to it: a need to blame outside forces instead of their self-management. Instead of wanting a 100% gold-backed (and low inflation environment), or other tangibly-related precious resources, fiat money creates Ponzi-corrupt systems.

The Central Banks need abolishment; and people need education on Finance.

## XI TECHNO-FASCISM

One has seen the congealing of the players in big tech, big government, health sectors, and finance and notices these players control the messaging akin to 20<sup>th</sup> century Fascism that drove the initiators of World War II. Big tech, Amazon, Google, Facebook (Meta) and Twitter, for instance, are the children of CIA-backed In-Q-Tel as its Director George Tenet noted in his biography. DARPA, originally ARPA, provided the backbone or nervous system of the internet, over fifty years ago, but came into prominence through various 1990s actors just as Tenet reshaped the CIA into a communications-monitoring platform under both the Clinton and Bush administrations. Our U.S. Government is routinely a pathway to a cushy security job on these tech platforms, coming from the FBI, CIA, or even, DHS.<sup>263</sup> This is to spy on the public and send to their former peers “tips” on the general population. What our government could not achieve legally under the U.S. Constitution, they routinely do under “Terms of Service” at behemoth tech platforms to advance a censorship agenda as well. This is an outgrowth of subsidizing these entities with legal protections under Section 230.<sup>264</sup> The health sectors were a “silent” partner for decades under the intelligence apparatus. Their mask came off throughout the propaganda-driven Pandemic while desiring the population put their masks on, separate themselves, and give up their bodily autonomy for the “greater good.” The intelligence apparatus utilizes top bioengineers and doctors with limited ethical constructs to penetrate the borders of countries under the guise of “health” or “pandemic assessment or mitigation.” Finance though drives it all. The Federal Reserve through public-private arrangements with agencies, banks and institutions from NIAID to JPMorgan Chase to BlackRock, handle the loans, grants and NGO hustles. Central banks ultimate desire: CBDC implementation for all humanity.<sup>265</sup> But realize this entire Fascist entity is a personally-profitable, command-control strategy for technology prototyping, citizen monitoring, and behavioral modification and destabilization agendas, and operates in a yin-yang partnership, at present, with the Chinese authoritarian regime of Xi Jinping.

Profiting from position is not a new idea, but in the hands of our elected officials, agency heads, and corporations and their connected cutouts, it takes on a whole other level of conflict and corruption. Speaker Nancy Pelosi is a better investor than Warren Buffett; or at least warrants her own [stock ticker](#) on Twitter.<sup>266</sup> From her Speaker’s salary of \$223,000 per year<sup>267</sup> had over 30 years (\$6,000,000+), her husband Paul’s luck on Microsoft<sup>268</sup> or Paul Jr.’s overseas ownership of a Chinese telecommunication company,<sup>269</sup> Nancy’s recent

disclosures showed \$20.1M to \$97M in liabilities.<sup>270</sup> Pelosi's deals coinciding with legislation garnered attention many years ago. Journalist Steve Croft of *60 Minutes* [noted her](#) front-running key legislation prior to a 2008 VISA IPO.<sup>271,272</sup> Pelosi controls all House floor business with a noted iron fist compared to any Republican speaker in recent memory. The U.S. House controls all spending bills; the pork barrel that drives the United States into bankruptcy (liabilities are greater than assets) thanks *on the whole* to the traitorous leadership of Pelosi.

Dr. Anthony Fauci (as of this writing) is the highest paid official in the U.S. government at over \$417,000 per year.<sup>273</sup> This is a pittance to his royalties generated through NIAID (and other agencies) that bumps Fauci's take to \$1.7 million.<sup>274,275</sup> But to discuss this openly, veteran *Forbes* author Adam Andrzejewski was criticized for disclosing Fauci's financials and was cancelled quickly off *Forbes* after running afoul of the NIH and a quisling *Forbes* editor. The NIAID stalls on producing requested documents via FOIA requests (600+) as of March 2022. The few obtained showed decided attempts to slander other doctors (the Great Barrington Declaration), coordinate messaging and stop investigations during early days of the pandemic.

Persons connected to Fauci, Peter Daszak, garner largesse from government grants that are predictably intelligence-driven and NIH-supported. EcoHealth's Daszak works as a cutout (he's British) for an international biosecurity agenda regarding health-pandemic-surveillance silos, garnering \$43,000,000 from the DoD (Department of Defense), spanning 2008-2022.<sup>276</sup> Daszak's publications, going back into the early 2000s, coincided with a stated pandemic prevention on its face, but his former Vice President Andrew Huff provided deeper insights into Daszak's gain-of-function awareness regarding SARS-COV-2 lab leak, greed, and U.S. government sanitizing the record along with the Chinese.<sup>277,278</sup> According to *The Daily Mail*, "Huff claims the US-funded project was 'mostly a global fishing expedition for coronaviruses' to carry out GOF work or for intelligence collection - rather than preventing future pandemics."<sup>279</sup>

Daszak worked alongside Wuhan's Shi Zhengli while co-publishing papers with the head of the Chinese CDC, George Gao, and famous virologist Nathan Wolfe.<sup>280,281</sup> Wolfe headed up Metabiota and garnered over \$55 million from the DoD in contracts and grants.<sup>282</sup> One \$18-23M grant, initiated on February 10, 2014, was tied to the DoD through DTRA (Defense Threat Reduction Agency). Metabiota's home base is located in California 12<sup>th</sup> congressional district: Nancy Pelosi's [district](#).<sup>283</sup>

Notable as well, Metabiota became a super-hot commodity just days after this huge military grant for Hunter Biden's band of criminals and hustlers. On February 13, 2014, Hunter and the gang discussed billionaire Marc Andreessen [assisting on the next round regarding Metabiota](#).<sup>284</sup> This email followed up their \$250,000 [investment in December 2013](#) and made just three days after Metabiota landed a \$1.5M DoD grant regarding HIV/AIDs in Africa.<sup>285, 286</sup> About this time, Hunter Biden was riding along with then VP Joe Biden in China, securing potentially a \$1.5 billion deal (a potential 10%) for the Biden clan.<sup>287,288</sup> Hunter Biden's Rosemont Seneca group closed a \$30M+ investment deal on Metabiota. But along the way, Ukraine and Metabiota linked up; and the not-so-subtle desires in [the discussion](#) should not be overlooked regarding Russia.<sup>289</sup>

With the *Maidan Revolution*, triggered by typical U.S. interventionism, and the 2014 conflict that started anew between the United States and Russia, and known biolabs in Ukraine,<sup>290</sup> the surmised position here is: Russia knows more about what is going on deep in Ukraine than the American Public ever will.

SBF giving away money ([that wasn't his to give](#)) to Ukraine.<sup>291</sup>

SBF is indicative of this large-scale overlapping agenda through crypto to electioneering. As SBF ties together various players from big government, higher education, big tech and big politics, that puts the Techno-Fascism into one telling picture. But even when the conspiracy is obvious, the normies will continue to believe no *American* faction could do this to *their country*.

To them I say: *read history*. (1917 Russian Revolution comes to mind.)

It also ignores the reality people inside these ventures are long-term planners with immense access to wealth, position and like-minded ideologs. Highlights:

- Stanford law professor Barbara Bankman Fried runs MTG, a politically-biased, electioneering registration PAC (501c3) that is against IRS rules. MTG was funded by Dustin Moskovitz, Facebook-cofounder & founder of *Open Philanthropy*, sponsor of Pandemic exercise *Event 201* with \$20M. Open Philanthropy provided grants to *Effective Altruism*, an SBF “marketing” ploy, scamming people on his “goodness” defrauding over 100,000 people.
- Stanford law cohort Pamela Karlan sat on the Facebook advisory board and appeared at the December 4, 2019 Ukrainian impeachment hearing.<sup>292</sup> Shortly thereafter, the FBI (December 9, 2019) received Hunter Biden’s laptop. Karlan ran an “election class” in the fall of 2020 with “talent” like Bill Clinton, Susan Rice and Vanita Gupta appearing for high schoolers.
- Vanita Gupta appeared at a November 2019 “civil rights” meeting with Zuckerberg and Dorsey (both headed platforms using censorship throughout 2020 for COVID, elections, and Hunter’s laptop). Zuckerberg directly email Tony Fauci about assisting on vaccines on February 27, 2020. This occurred just an hour after Peter Daszak was named by Dr. Julie Pavlin to co-chair a vaccine hesitancy paper conferenced in 2020 and published in 2021.<sup>293</sup> This paper included hard-left vaccine advocate California law professor Dorit Reiss and Dr. Eva Harris conferencing with Daszak. (Harris also works and publishes with Dr. Jennifer Doudna).<sup>294,295</sup> This paper was funded by *New Venture Fund* (NVF). Bill Gates provides over 15% of NVF funding.
- Perkins Coie (PC) deploys various lawyers at the behest of Democrat Party and Marc Elias. Michael Sussmann messaged regularly former FBI agent James Baker. (Under Musk, Baker was let go by Twitter after curating evidence of FBI interference, that of: censoring and suspending accounts like *The New York Post* about Hunter’s laptop). Sussmann pushed false narratives (Alfa Bank, Steele Dossier) during the 2016 election cycle.
- In 2022 election, a cozy prior (PC) relationship between Daniel Barr (who represented Katie Hobbs in *Molera v. Hobbs*)<sup>296</sup> and Judge Tuchi, who then sanctioned Kari Lake’s legal team, shows coordination between private law and a government official, namely: the judicial system.
- The top Arizona super PAC, located in Phoenix, was “financed” by SBF with \$28M in 2022. *Protect Our Future* PAC’s operator Dacey Montoya has ties to a Berkeley, California activist group (home to a host of big tech actors) and is well-acquainted to Secretary of State Katie Hobbs as a Facebook and Twitter friend.

- SBF's FTX was a *World Economic Forum* partner; is *Clinton Foundation* connected; and offered up \$166 million in grants through the *FTX Foundation* (again, not his to grant).
- Vanita Gupta and Pamela Karlan were hired into top DOJ positions in the Biden administration. Gupta's father is a top executive at Avantor. Avantor is connected to the Mexican supply of "China White." She works (or worked) on immigration policy that is allowing over 5 million people to illegally invade the United States. Karlan in May 2021 sent a threatening letter on Arizona audits. Karlan quit in 2022 (a limited hangout) due to receiving attention on her ongoing \$1M salary at Stanford while ALSO being a top DOJ official.
- Facebook's Mark Zuckerberg bragged about donating over \$400 million into the 2020 elections. (Facebook donated \$5 million to Michael Bloomberg dollars AFTER he dropped out of the race in early March 2020.)

At a high level as well, the CIA funded IQT that backed Sil Valley 21<sup>st</sup> century start-ups while gathering huge swaths of data on people the world over. Google and Twitter maintained several dozen employment relationships [with the FBI and the CIA](#) as was just shown by numerous journalists at the behest of its new CEO Elon Musk, who is not without his own megalomaniacal motivations.<sup>297</sup>

In late 2013, Ukraine became a new kickback vehicle tied to both political parties in bilking U.S. taxpayers through a money laundering scheme. Particularly, the involvement of Burisma, PrivatBank, Metabiota, and later, Starlink and FTX, the usual political suspects visited and destabilized that country. On December 21, 2022, Ukraine's Zelensky gave a speech before Congress that garnered forty-five plus billion in funding to escalate the conflict with nuclear-armed Russia.<sup>298</sup> This battle calculus is foolhardy sociopathy.

Furthermore, SBF's 2022 forays in Ukraine started up on day one of the Ukraine invasion by Russia; and formalized later with an FTX exchange agreement with the Ukrainian government on March 14, 2022.<sup>299</sup> This was just five days after Biden's digital currency EO.<sup>300</sup> Then, just two weeks later, [according to](#) journalist Paul Sperry:

“Biden's SEC chair Gary Gensler took [a] secret meeting with Sam Bankman-Fried on March 29, 2022, to discuss deregulation for crypto currency. Bankman-Fried donated more than \$50,000 to Biden Victory Fund. Gensler previously was CFO for Hillary Clinton campaign, which FEC recently busted for hiding payments for [the] anti-Trump dossier.”<sup>301</sup>

Central Bank Digital Currency (CBDC) is a direct way to control the population (along with digital identification) which are further along even in a Ukrainian warzone. Zelensky kickstarted that CBDC program by signing into law a program in July 2021, well ahead of the United States.<sup>302</sup> The linkage between crypto and CBDC is not a bug; it is a bait-n-switch tactic for CBDC deployment, using the failures of SBF, who likely wrecked confidence in cryptocurrency.

Meanwhile, Elon Musk kept Ukraine “online” through his Starlink satellite network.<sup>303</sup> Metabiota and Burisma link directly to biolabs and energy production that both political parties are keenly aware of and want kept out of the news.

Tellingly as well, on the domestic side of this corruption, the FBI and former Twitter employee Yoel Roth emailed back in forth 150 times between January 2020 and November 2022 for an average of 4 emails per month. The FBI created an 80-agent task force (FTIF) that “pressured Twitter to moderate content”<sup>304</sup> in clear abrogation of the First Amendment.<sup>305</sup>

The amount of pressure applied by the FBI significantly breaks the Constitutional Rights of Citizens and reflects a criminal agenda that is: a network of agents; partners with companies with malice and a forethought

regarding censorship of real information from the Biden laptop; and operates as an attempt to purposefully defraud the American Public through an Agency-led Election Interference campaign while inserting the Intelligence community's preferred political boss through subtle threats and covert intelligence operations that are illegal under numerous statutes and a real coup d'etat.<sup>306</sup>

Alongside military and legal actions pursued by the Joint Chiefs of Staff head Mark Milley, then Secretary of Defense Mark Esper and former Attorney General William Barr, this rises to a highly-coordinated coup d'etat against the United States of America, to overthrow a sitting President, and therefore is treason.

~

The biosecurity-health complex is too convoluted to fully represent, but the Chinese-US relationships are extremely cozy while working on gain-of-function, gene editing and altering humanity itself. China has genetically-engineered a fetus that was born, with HIV resistance apart of the gene editing.<sup>307</sup> The NIH doctors with their grants are keenly aware of their agendas and do not want prying eyes into these details. Bankman even funded studies regarding COVID-19 treatments (to discredit them).<sup>308</sup> Tony Fauci with Bill Gates provided key componentry for a fear-based coronavirus campaign and their "mRNA vaccination program" that (when stored properly) induces high risks of lifetime harms. The companies responsible for production of the vax are criminally liable; and should face a death sentence to their pharmaceutical operations.

Throughout the 21<sup>st</sup> century, U.S. Government Agencies, through 5 Eyes (UK, New Zealand, Australia, Canada), an intelligence-sharing partnership, used cross-country surveillance, big data gathering, and bioengineering projects, coordinated through DARPA to experiment on their populations without their knowledge or consent. Each country worked to confuse and deflect blame from their malicious acts even amongst themselves. Labeling citizens the issue - merely for not agreeing with their blame-shifting, psychologically-designed DARVO tactics, in concert with military-grade propaganda used during COVID, created a Mass Formation event, one surmises, *intentionally*.

A good example of this: the *Steele Dossier* was cut-n-pasted knowingly by the FBI to obtain FISA warrants on Carter Page to attack future President Trump.<sup>309</sup> Steele was former British intel and provided a thoroughly baseless dossier, bought and assembled by the Hillary Clinton and Jeb Bush campaigns,

orchestrated through Fusion GPS and sponsored by the DNC. As Paul Sperry [reported](#):

“Former FBI investigators say it’s clear their colleagues weren’t played by their sources, but rather played along with them.

‘The bureau was not misled. The bureau received false information, knew it to be false, and still represented it as true for the purpose of the affidavits,’ Biasello said. ‘That is a blatant criminal act.’

He noted that in a December 2019 opinion, then-FISA Court Presiding Judge Rosemary Collyer reprimanded the FBI, while warning that other FISA warrants may be equally tainted and based on fraudulent information.”<sup>310</sup>

The overwhelming desire of this five plus year gaslighting campaign, run by the FBI, under Obama’s DOJ, and then continued on through the Trump administration by the same FBI officers and Congressional officials (without Trump’s ability to remove the offending officers) is that it hides crimes.<sup>311</sup> Then Vice-President Joe Biden’s big mouth provided evidence he is a co-conspirator to this country sabotaging plan (of Trump before day one). Biden’s (and Clinton’s) old Press Secretary, Evelyn Lieberman (deceased), was key to the Trump Tower setup with Rinat Akhmetshin, a close ally of Edward Lieberman.<sup>312</sup>

## XII FEDERAL GOVERNMENT

One looks at the U.S. Federal Government in Washington, D.C. in great shame. The principles and precepts of the Founders constructed a Constitution to avoid such powerful corrupting natures that have weaseled themselves into the whole of government that we see today. The hacks in the halls of Congress, the partisan forces of putrid designs, the Agencies and Acts of an Executive Branch that defy all logic, and dispel any notions of reasoned and concurring opinions from the People, the ones who punch the clocks of daily toil and still must beg for all the Righteous Mercy from a God Above to provide them the Patience to allow this Monstrous Set of Government Bodies to tick on to the Next Day, do see the Instantaneous and Historic Problems clear and Without Illusions. We The People are not Fooled.

The psychopathic attitudes of the multitudes that garner their checks in the Houses of Government, distinctly divorced from economic, domestic and international realities, this speaks clearly of their breeding, their ill-equipped natures, their mendacities pawned on the Public through their Mockingbirds that turn those mendacities into gross and pervasive criminalities. Without those mendacious Twits in various boxes stared at for prolonged periods in an ill-conceived attempt to garner A Simple Truth, The Public could rest easier if the Houses of Government represented them well, and minimally so. That of course, is a Fool's Dream; a nightmare instead beguiles the Constitutional Republic of the United States of America.

When did such contemptible Corruption start?

The Dawn of Mankind. The imperfect Nature forever needs development alongside a multi-faceted governor that minimizes the harms of its illogic, its greed, its wanton tact towards Self-Absorption, when Man's Reason invariably fails.

The more instantaneous corruption came through perverting the Founding Document to mean whatever suited in the quickest guise of Emergency to Seize the Greatest Power in the Least Amount of Time from the People, Who Agreed to the Constitution to Protect their Individual Liberties and Rights. Emergencies do happen; they are not prolonged events; despite the use of Health to stoke Fears through Mockingbirds. One should question fiercely those that promote themselves as Cures for the Body, Who Have no Identifiable Souls to Grasp.

The Governments of History, through Monarchs to Despots, if these are truly different coins, have, without fail, provided an Emergency to hide Nebulous and

Sinister Agenda(s), such as that which has Befallen the United States of America, and its Greater Cousins in the World. These Agendas are invariably constructed out of Fear by these Dictator(s) to the Populations hiding their Malfeasances. From The Treasury to War Intrigues, to the most Hateful Use of Power, to garner more unearned power, these Psychopaths deploy their Greedy Minions one last time to Rob the Population, Stoke Fear of some hard to grasp Disease of the Mind, Body or Soul, and Create an Enemy as the great moral decider for the Masses in how They Live or Choose to Align to the Despot.

This is the Exact Plan We face at Present.

Some will shout, “Are You Not Stoking Fear?”

The answer depends on how well one has self-informed themselves to the affairs in their world. If they use the Mockingbirds, without a discerning eye to their Message, then one will undoubtedly refuse this Premise. Alas, many cannot be troubled to note that what one hears from the Puppets of Government will invariably serve only Government’s whims and whimsy. If those Governments have a modicum of Humility and admit flaws and mistakes willingly before the Birds of the Pen, then Messages received could be entertained as real, and not fabricated like some Odious Money Printer out of A San Francisco Internet Bucket Shop. Note this Bankman has been lauded and platformed by the Mockingbirds, and Bought Your Government’s Ear As Well, while exploiting the Masses of their Limited Savings from All Their Daily Toils.<sup>313</sup>

Thus, the Case relies on self-education, self-reflection and critical assessment.

Many of the Founders knew things one still barely grasps and they lived 250 years ago. What that March of Time has produced is unquestionably a different World, with different Issues at Hand, but what Debate has energized the population to address these with their learning had before Light was a question of hard work, and not at an instantaneous switch’s flick?

The cold, dark answer is none.

The Despots of the World, housed up in cushy splendor, while the Masses grow tired, hungry, and poor by the second hand’s tick, formed their cliques and cadres to pound into submission the World Masses, and most assuredly: the United States of America. These Psychopathic Forces quench their thirst off your Fears, your Troubles, and want Billions of you to disappear from their Presence.

But unlike the last Great Cull, that of World War II and its lesser-known preceding events, the War is waged through Psychology hacks that the Machinates of the Mockingbirds spread like an Ear and Eye Poison far worse than the Unseeable Coronavirus that Our U.S. Government, through Agencies filled with Health Rats, co-manufactured alongside the 5,000-year-old Chinese, and their Totalitarian Communist Government.

The International Bodies, with their Stated Penchant to destroy the United States, may have a point. But inside of that premise, lay the rub: We The People did not know How Evil Our Government Has Become. Our Apathy Bred Evil.

To Rectify That Error of Not Knowing, When We Know it NOW, It Becomes We The People's Destiny to Accommodate the Forces of Evil with Righteous Anger and Necessary Judgment.

These Despots of Federal Agencies, Their Co-Conspirators from Pennsylvania Avenue, K Street, Wall Street, and Abroad in the Foreign Fortresses built in Beijing to Davos to London, have made their final beds.

The Masses of the World are often told to Unite.

**And Unite We Will!**

To Expose These Tyrants and all Their Crimes.

To Take Back All their Ill-Gotten Gains and Hold them to Final Account for their Inhumanity.

To Defy A Logical Choice, Submission to the Violent Power of the State, to Win a Righteous and Moral Confrontation Against All Evil, Foreign and Domestic.

The United States Constitution Vests All Its Mighty Power In: *We The People*.

“We The People of the United States, In Order to Form A More Perfect Union, Establish Justice, Insure Domestic Tranquility, Provide for the Common Defence, Promote the General Welfare, and Secure the Blessings of Liberty to Ourselves and Our Posterity, Do Ordain and Establish This Constitution of the United States of America.”

If these are mere words, and nothing of import to you, then may you suffer all the ills of the coming Omens. Not because of your deserving punishment, but that idling by while the House of your Forefathers burns, is the Gravest of Evil.

### XIII DECLARATIO: VOX CLAMANTIS IN DESERTO<sup>314</sup>

*An nescis, mi fili, quantilla prudentia mundus regatur?*

Do you not know, my son, with what prudence the world is governed?

One has discovered over the course of a half century, even in many periods of idleness and disengagement from one's government, out of futility and frustration with it, that Washington D.C. is morally bankrupt and self-absorbed to a psychopathic level. The U.S. Federal Government grew *class-conscious* (CCDC) with a despicable poison of unmerited and undeserved elevation off the backs of its average citizens trying to survive its train of abuses. The 440 plus Agencies<sup>315,316</sup>, the U.S. Representatives in the House, the Senate, and the Presidency, at present, are ALL an existential threat to the Republic itself.

These bodies are self-absorbed and unmitigated failures. Their desires to destruct the very natural resources of the country, while pandering to international bodies (reparations for climate change) speak volumes about their misguided and fatalistic views. Further endangering the country through refusal to enforce immigration and migration laws, using money, jobs and votes as bait, is criminal and treasonous. Educating kids to despise each other over racial background while grooming children to question their own sexual identity is Marxist ideology in full. This is done on children to create a generation of dutiful foot soldiers to whatever transhumanist techno-Feudal hellscape is envisioned by the authoritarians pulling strings behind the scenes and agreed upon by the 46<sup>th</sup> President of the United States. The doling out of monies and destruction of the Constitutional Rights of native populations to "marginalized" groups is to buttress the CCDC reputations while criminally robbing the future of the country.

This is Roman Empire death spiral evil and SHALL NOT be entertained further.

The psychopathic forces that are doing this must be dealt with through all available means and not with concern for "their rights." They cannot be allowed to continue this folly. The undeclared 5<sup>th</sup> generation warfare on the United States of America is a DECLARED WAR by those CITIZEN RIGHTEOUS and FREE enough to know this is a WAR not only for one's country, but for ALL of HUMANITY. It is a WAR fought to save the UNITED STATES OF AMERICA.

It is therefore DECIDED the FULL AGGREGATED POWERS of the UNITED STATES OF AMERICA under its CONSTITUTION, and INDEPENDENT formation of its CHARTER on July 4, 1776 now SOLELY RESTS with the COMMON PEOPLE.

The FOLLOWING PROCLAMATIONS ARE FULLY ENFORCABLE by the COMMON PEOPLE under a SWORN OATH to PROTECT the UNITED STATES OF AMERICA from ALL ENEMIES, FOREIGN AND DOMESTIC.

The U.S. FEDERAL GOVERNMENT, and its AGENTS, FOREIGN AND DOMESTIC, are HEREBY STRIPPED of ALL POWERS, ALL REMEDIES and ALL RIGHTS GRANTED under that CONSTITUTION and DECLARATION OF INDEPENDENCE.

The 46<sup>th</sup> PRESIDENT of the UNITED STATES OF AMERICA has committed TREASON VIA EXECUTIVE ACTIONS & ORDERS and therefore: is no longer fit to be COMMANDER IN CHIEF OF THE U.S. ARMED FORCES. He shall be arrested and prosecuted, in accordance with his past and ongoing crimes.

Any person who has AIDED, ABETTED or GAVE COMFORT to the 46<sup>th</sup> President, including his VICE-PRESIDENT, his CABINET, ADVISORS, and ALL AGENCIES, appointed or approved by the U.S. Congress prior to the date of this publication, are GUILTY OF TREASON.

A UNITED STATES CONGRESS MEMBER will be GUILTY of TREASON for any vote that was taken in FURTHERANCE OF: A BORDER INVASION; RESTRICTIONS ON CONSTITUTIONAL RIGHTS (THE RIGHT TO BEAR ARMS); FUNDING OF CRT TRAINING; UNDERMINING THE ABILITY TO SUPPLY ENERGY DOMESTICALLY; or APPROVED ANY INTERNATIONAL BODY'S EDICTS ON CLIMATE, AGRICULTURE, HUMAN RIGHTS, HEALTHCARE OR PANDEMICS, notwithstanding other irrational platitudes (REPARATIONS, TRANSGENDERISM) these bodies have injected into OUR BODY POLITIC.

THE UNITED STATES OF AMERICA OFFICIALLY WITHDRAWS from ALL INTERNATIONAL BODIES, particularly, but not exclusively: the UNITED NATIONS and the WORLD HEALTH ORGANIZATION. ALL THEIR OPERATIONS and CONTRACTS in U.S. TERRITORIES are NULL AND VOID.

Contracts made by corporate entities, BLACKROCK, VANGUARD AND STATE STREET, are to be reviewed and voided whenever found a national security threat. THE BILL AND MELINDA GATES FOUNDATION, THE OPEN SOCIETY FOUNDATION, THE ROCKEFELLER FOUNDATION, and THE WORLD ECONOMIC FORUM and all connected sub-entities are hereby declared terroristic threats to humanity. Their members and former employees and

members will be arrested and prosecuted based upon gathered evidence to their internationally-based agenda under U.S. RICO statutes or ICC regulations. ALL ASSETS and DOCUMENTS of these foundations will be seized as well.

U.S. AGENCIES, not inscribed, in the original charter, and not to the COMMON DEFENSE of ITS COMMON PEOPLE, in the UNITED STATES CONSTITUTION, will be ABOLISHED upon DATE of THIS DECLARATION. MEMBERS OF THESE AGENCIES MUST SUBMIT TO THE WILL OF THE PEOPLE OR THESE MEMBERS WILL BE PROSECUTED AS WELL.

ON JANUARY 6, 2021, an Intelligence operation was carried out at the U.S. CAPITOL, led by U.S. AGENCIES including, but not exclusively: the FBI and CIA. The AGENTS of these AGENCIES took their marching orders from identifiable CONGRESSIONAL LEADERS, BUT NOT EXCLUSIVELY: NANCY PELOSI, ELIZABETH CHENEY, MITCH MCCONNELL, and CHUCK SCHUMER, and D.C. MAYOR MURIEL BOWSER. It is determined that former U.S. ATTORNEY GENERAL BILL BARR and FBI DIRECTOR CHRISTOPHER WRAY lack of investigations into Hunter Biden's dealings with foreign adversaries while compromised by his personal deviancy, are ACTS of TREASON, arising from giving AID and COMFORT to then CANDIDATE JOSEPH BIDEN.

[This is well-documented in the Twitter Files released in recent weeks by Bari Weiss, Matt Tiabbi, Michael Shellenberger. U.S. Federal Agencies put their hands on the scales of justice to undermine the Will of People with an obvious intent to install Joe Biden *by any means*. A Coup that is an act of Treason.]

As a RESULT, all ARRESTS and CONVICTIONS made on persons at the J6 EVENT are VACATED and EXPUNGED as these are FRUITS of the POISONOUS TREE.<sup>317</sup> THEIR FALSE IMPRISONMENT constituted an egregious ABUSE of POWER, a criminal malevolence carried out by JOE BIDEN through his lesser minions, MERRICK GARLAND and his DOJ, and through the puppet D.C. CIRCUIT COURT.

ATTORNEY GENERAL GARLAND is to be arrested, prosecuted in accordance with his crimes for TREASON AGAINST THE UNITED STATES OF AMERICA alongside the entire bank of D.C. CIRCUIT COURT JUDGES. The Southern District of NEW YORK COURT SYSTEM and its well-known PROSECUTORS are to be arrested, prosecuted and permanently disbarred for ABUSE of POWER and OBSTRUCTION OF JUSTICE.

ANY DEPARTMENT OF JUSTICE PROSECUTOR WHO AIDED, ABETTED, FILED BRIEFS, OR WITHHELD EXCULPATORY EVIDENCE IN REGARDS TO J6 PROSECUTIONS will also be held for TREASON, or identifiable lesser crimes, including, but not exclusively, OBSTRUCTION OF JUSTICE.

GENERAL MARK MILLEY, CHAIRMAN of the JOINT CHIEFS, who GAVE AID AND COMFORT to CHINESE MILITARY OFFICERS, has committed TREASON.<sup>318,319</sup> His co-conspiring FLAG OFFICERS in the service of the COMBINED U.S. ARMED FORCES to undermine the SOLE VESTED AUTHORITY of 45<sup>TH</sup> PRESIDENT OF THE UNITED STATES as its COMMANDER-IN-CHIEF, are also GUILTY OF TREASON and shall be prosecuted in accordance with their crimes alongside MARK MILLEY.

CURRENT MILITARY OFFICERS AND ENLISTED PERSONNEL are servants of the COMMON PEOPLE. THEIR OATH was to UNITED STATES CONSTITUTION and its PROTECTION AGAINST ALL ENEMIES, FOREIGN AND DOMESTIC. Their duty requires that UNDER PENALTY OF DEATH. Any actions taken to remedy the above problem(s), removal of AGENCIES or the 46<sup>th</sup> PRESIDENT, and the court martialing of any current U.S. FLAG OFFICER merits consideration as completion of said duty. Any non-performance should be investigated as OBSTRUCTION OF JUSTICE and TREASONOUS.

Additional persons with NOTABLE ACTS of COMPLICITY and COLLUSION: HILLARY RODMAN CLINTON, WILLIAM JEFFERSON CLINTON, GEORGE W. BUSH, DICK CHENEY, AL GORE, JOHN KERRY, MITT ROMNEY, BARACK HUSSEIN OBAMA, MICHAEL PENCE, SUSAN RICE, COLLEN POWELL, MARK ESPER, ANDREW MCCABE, JAMES COMEY, JAMES CLAPPER, JOHN BRENNAN, ANTHONY FAUCI, PETER STRZOK, LISA PAGE, JAMES BAKER (FBI). ALL HAVE BETRAYED their oaths once made to the U.S. CONSTITUTION, on numerous occasions. THE 51 former INTEL OFFICERS that LIED to AMERICAN PUBLIC about Hunter Biden's laptop violated their OATHS AS WELL.<sup>320</sup> ALL THE ABOVE ARE GUILTY OF TREASONOUS ACTS. Many others, who aided and abetted their evil and destructive deeds, are left unnamed, but are nonetheless well known to the public at large.

FIND THEM ALL MY FRIENDS AND MAY GOD HAVE MERCY ON THEIR SOULS.

THE UNITED STATES SUPREME COURT was formulated out of the CONSTITUTION. ITS POWERS come through the COMMON PEOPLE'S

ACCEPTANCE of ITS RULINGS. Without the PEOPLE, THIS AUGUST BODY has NO POWER. THEIR POWER FLOWS UP FROM THE PEOPLE NOT BRANCHES OF GOVERNANCE NOW SO INFECTED AS DESCRIBED, DOCUMENTED AND DETAILED.

Refusal by A JUDGE on THAT BODY, to CARRY OUT THE AFOREMENTIONED PROSECUTIONS, SHALL BE DECLARED AN ACT OF TREASON, and prosecuted as such, until a CESSATION of CONFLICTS and RESTORATION OF NORMAL ORDER TO THIS CONSTITUTED REPUBLIC.

Thereafter, PEACEFUL AND LEGAL ELECTIONS of new officers by the inscribed processes from the ORIGINAL U.S. CONSTITUTION will be held, notwithstanding fairly decided upon AMENDMENTS that OCCURRED SINCE THE CONSTITUTION'S ENSHRINEMENT in the late 18<sup>th</sup> CENTURY.

~

STATE CONSTITUTIONS and GOVERNMENTS must ADHERE to THEIR PEOPLE'S DESIRES. To remain UNITED, one must choose that one's liberty is a fragile thing to be jealously guarded. LIBERTY does not come from a man or woman in a DISTRICT 3,000 miles away. LIBERTY COMES FROM WITHIN; and as such, the ability to have LIBERTY must be protected at its highest cost; even one's life is an irrelevant price to pay if it allows HUMANITY to continue forth and thrive under that which works well. THE PEOPLE once KNEW THIS.

GIVE ME LIBERTY OR GIVE ME DEATH! was not IDLE TALK. It was the basis for all those that knew vividly how blessed they were in a harsh cruel world that is tamed and forged by the best of mankind's ingenuity. Such should not be forgotten as a perilous price was paid for all descendants that have not yet the wisdom of time to appreciate that which was garnered at this vital human cost.

The designs of others must be weighed and measured and seen for what their outcomes are, not what one wishes to be so. Fear of future ills is exploited as an excuse for rapid and haphazard change. The worst of human excesses come from those that offer dreams of greatness without any approved consent from the COMMON PEOPLE. SUCH a SCAM is OPERATING under the psychopathic guise of addressing climate change, by calling it BUILD BACK BETTER.

UTOPIA is not to be our goal; nor is it OUR RIGHT. The recent hucksters of transhumanism are Godless and seek only less souls, less obstacles, to their

overthrow of humanity and replacement of SOULS with the SOULLESS. These demons of science were never so clear as they are now in their evil intent.

It is not that SCIENCE and INQUIRY are wrong to pursue. These PURSUITS done for the betterment of lives gave us much at present, when not additionally perverted by a *psychopathic, class-conscious, bureaucratic scientism*. But acknowledge as well those that want science for their AGGRANDIZEMENT, their ELEVATION, and their SUPREMACY, are at odds with OUR HUMANITY.

Therefore, the several STATES constituted inside the UNITED STATES must make their intentions DECLARED and KNOWN in the WAR ahead. This should be done BY VOTE in their SITTING CONGRESSES and approved by their SITTING GOVERNORS. But sans that process, their COMMON PEOPLE shall have to declare it through their individual expression of LIBERTY and by ALL NECESSARY MEANS as well.

~

LASTLY, one is not the least bit unaware that this is a DECLARATION AGAINST THE MIGHTIEST SET OF SOCIOPATHS with weapons of extinction at their blood drenched fingertips. THAT ONE has no army, no resources, nothing but a few quarts of blood, and a MIND that knows the MOMENT IS UPON US. It may appear a CRAZY IDEA to be so SUICIDAL. But then again, the PATH ahead for the COMMON MAN is fraught with A HOMOCIDAL IDEOLOGY DEPLOYED BY GOVERNMENTS WORLDWIDE TO DESTROY inside ONE GENERATION ALL THAT WAS ONCE KNOWN.

SO WHO EXACTLY is the CRAZY ONE?

The one who waits for the slaughter in the meager hopes:

THIS TOO SHALL PASS.

WHEN MEN refuse to give their LIVES in the SERVICE of THAT which was PURCHASED at SUCH HIGH COST, their ENEMIES will gladly take all of that which was purchased by the BLOOD OF MILLIONS OF PATRIOTS through any and all subversive means, but as not to risk their spineless hides in this grand theft. ONE'S LIFE & LIBERTY is again a meager price to pay to destroy the JACKALS of GOVERNMENT that has obtusely thought: IT! CANNOT! EVER! BE! CHALLENGED!

OUR FOUNDERS KNEW THIS FIGHT and THEY WON!!!

For THOSE who stand by and do nothing, you cannot call yourself a good person. For when you see evil, and merely acquiesce, and sacrifice nothing more than any common evildoer does, what are you then but that which you morally detest, but cannot raise one's voice and one's soul to rightly stop.

One has little hope that these words convince; or stirs like minds to believe they are duly free to act in a righteous manner at whatever cost must be paid. Perhaps their GREAT FEAR is that they will die unremarkable and labeled a criminal, or worse. OR THAT their surviving offspring will surely suffer from an ancestral curse, labeled as a boisterous rabblouser that dared to be NOT SILENT, even as those freedoms and rights vanished as easily as a SLY THIEF does in the FOG of WAR while the once great constitutional parapet burns.

The Founders in 1776, were not as lucky as many will presume. Of the Fifty-Six Souls who signed their death warrants before the Mightiest King of England, Nine did not live to see Freedom; Five were put in the Stocks; Seventeen lost their last Shilling before their final breaths on this Earth. Luck smiled on less than half of the Original Signers of the Declaration of Independence. But ALL were WILLING PATRIOTS and CREATED BEAUTY that is DEMONIZED by a lackluster, lazy lamentable pathology that infects a World too comfortable to know what HARSHIP and DEATH FEELS LIKE under THE FINAL BONDAGE.

As it stands today, the United States of America is in far worse straits. The technology that Evil wields is far greater than the populations' ability to Defeat it. Many are too incapable of the task ahead. Many millions will die ignorant. Many will never see a Free Day again. Whether imprisoned by apathy or the technological chains that fit so well inside a box held in their quisling hands, or a tracking chip under their skin, the prison will be ruled by technocratic psychopaths with a glee that their lab rats had choices in this Trek but chose to submit without much more than a distracted whimper before the chains went on.

Evil Wins IF Good Men Stand By And Do Nothing.

MAYOR

January 5, 2021

The Honorable Jeffery Rosen  
Acting United States Attorney General  
950 Pennsylvania Ave, NW  
Washington, DC 20530

The Honorable Ryan D. McCarthy  
Secretary of the Army  
101 Army Pentagon  
Washington, DC 20310

The Honorable Chris Miller  
Acting Secretary of Defense  
1000 Defense Pentagon  
Washington, DC 20301

Dear Acting Attorney General Rosen, Secretary McCarthy, and Acting Secretary Miller:

As the law enforcement agency charged with protecting residents and visitors throughout the District of Columbia, the Metropolitan Police Department (MPD) is prepared for this week's First Amendment activities. MPD has coordinated with its federal partners, namely the US Park Police, US Capitol Police and the US Secret Service—all of whom regularly have uniformed personnel protecting federal assets in the District of Columbia. This week, MPD has additional logistical support of unarmed members of the DC National Guard, who will work under the direction of, and in coordination with, MPD.

→ The District of Columbia Government has not requested personnel from any other federal law enforcement agencies. To avoid confusion, we ask that any request for additional assistance be coordinated using the same process and procedures.

We are mindful that in 2020, MPD was expected to perform the demanding tasks of policing large crowds while working around unidentifiable personnel deployed in the District of Columbia without proper coordination. Unidentifiable personnel—in many cases, armed—caused confusion among residents and visitors and could become a national security threat with no way for MPD and federal law enforcement to decipher armed groups.

→ To be clear, the District of Columbia is not requesting other federal law enforcement personnel and discourages any additional deployment without immediate notification to, and consultation with, MPD if such plans are underway. The protection of persons and property is our utmost concern and responsibility. MPD is well trained and prepared to lead the law enforcement, coordination and response to allow for the peaceful demonstration of First Amendment rights in the District of Columbia.

Sincerely,

Muriel Bowser  
Mayor

Cc: Congresswoman Eleanor Holmes Norton

Mayor Mariel Bowser reiterates "not requesting personnel" from federal law enforcement. Excusing it as "without proper coordination" in 2020. Positioned on causing "confusion."

Tony,

I hope you and (b) (6) are doing well. You are doing an amazing job under difficult circumstances. And just know we prefer the "real" Tony to the Brad Pitt version!!!

I am a bit perplexed by your seeming strong endorsement of remdesivir. Was it just a bit forced?

My reading was the data were weak and in normal times for normal disease it is not enough to approve. And very unlikely to really impact COVID-19 disease pattern--regardless of supply issues.

Zeke:

I did not "strongly" endorse it. I specifically said that it was not a knockout drug and was only a baby step in the direction of developing more and better drugs. I said that it was important because it proved in a well-powered, randomized, placebo-controlled clinical trial that one can suppress the virus enough to see a clinical effect, as modest as the effect was. I do not think I forced anything.

Happy to chat with you about it.

Fauci's friend Dr. Zeke Emanuel stated, just sixty-four minutes later, at 6:37PM: "Sorry for misreading what you said—I think maybe I overinterpreted—lots of finance people called and seemed like I was a downer compared to you. But I think we agree."<sup>462</sup> [My emphasis.]

Hunter viewed himself as an unfulfilled artist, and he said as much in his semi-fictional memoir, "Beautiful Things." In fact, art was the "only thing" to have "kept [Hunter] sane." It was no surprise, then, for *Marco Polo* to discover that—when carefully analyzing the 128,000 emails+ on the Biden Laptop—almost none of Hunter's free time or private conversations were about business strategy or private equity market entry ideation. You will recall that Hunter graduated with a bachelor's degree in history, wrote a poem, of all things, for his application to Yale Law School, and did not even attempt to enter high finance until his dad was preparing to be vetted for the V.P. slot by Obama (after Obama's folks told Joe's son to drop his shameless registered lobbying grift). When Hunter was gifted a portion of a hedge fund in 2006 called Paradigm by a trusty donor to Joe (the aforementioned Jeff Cooper), former executives at Paradigm testified in a lawsuit that Hunter and his uncle, Jimmy, had absolutely no clue what they were doing. The vignettes<sup>468</sup> offered in *Lotito v. Biden*<sup>469</sup> were a perfect illustration of the chasm that existed between Hunter's actual business acumen and the coveted positions he held for decades. In fact, after Hunter and Jimmy conducted a takeover of Paradigm and fired the incumbent leader, Jimmy assured the rest of the employees with the following pep talk: "Don't worry about investors. We've got people all around the world who want to invest in Joe Biden. We've got investors lined up in a line of [Boeing] 747s filled with cash ready to invest in this company."<sup>470</sup>

With that verified principle in mind—Hunter's employment was untethered to his natural or cultivated abilities—we explored the Bidens' financial entanglements with the communist Chinese. You can think about those entanglements in two tranches, or deals, with a plethora of interjecting people splattering the periphery. Other writers<sup>471</sup> have done a tremendous job of explaining the obvious conflicts of interest emanating from these two deals; *Marco Polo* was focused on the verifiable crimes<sup>472</sup> committed in the course of facilitating and leveraging these deals. Immediately after Hunter, Archer, and Kerry's stepson (Chris Heinz) established their influence peddling firms with variations of the name Rosemont Seneca, they were courted by the financial elite in China who—according to China's own laws—serve at the direction of the CCP.<sup>473</sup> With zero discernible quantitative skills, Hunter secured multimillion dollar carveouts with the Chinese state-backed entity, BHR, and the CCP's crown jewel overseeing their One Belt One Road (OBOR) project, an energy conglomerate called CEFC.

<sup>468</sup> "At the time that Lotito and the two Bidens hired Fasciana, he was awaiting sentencing on a 2005 fraud conviction. All I had to do to find those two DOJ press releases was to google John Fasciana — didn't the Bidens do any due diligence in this \$21 million deal? Apparently not[.]"

<sup>469</sup> "Lotito v Biden," *Justia*, 2007, [archive.fo/LxP5v](https://archive.fo/LxP5v)

<sup>470</sup> "Three former Paradigm executives said James and Hunter Biden also sought to capitalize on Joe's strong ties to labor unions in the hopes of landing investments from them; Charles Provini, who briefly served as Paradigm's president, said both James and Hunter repeatedly cited Joe's political ties when they recruited him to work for the fund."

<sup>472</sup> "For example, based on recently released emails, texts, and my recent report with Senator Johnson on conflicts of interest relating to Hunter Biden's financial activities and those of his business associates, it appears that he and his uncle, James Biden, had significant connections to CEFC China Energy Co. Ltd. (CEFC). The records also show that CEFC was an extension of the Chinese government and that CEFC intended to alter U.S. policy and public opinion to its benefit and that the Chinese government would be the principal beneficiary of those actions."

## Public Statement on the Hunter Biden Emails

October 19, 2020

We are all individuals who devoted significant portions of our lives to national security. Some of us served in senior positions in policy departments and agencies, and some of us served in senior positions in the Intelligence Community. Some of us were political appointees, and some were career officials. Many of us worked for presidents of both political parties.

We are all also individuals who see Russia as one of our nation's primary adversaries. All of us have an understanding of the wide range of Russian overt and covert activities that undermine US national security, with some of us knowing Russian behavior intimately, as we worked to defend our nation against it for a career. A few of us worked against Russian information operations in the United States in the last several years.

*Perhaps most important, each of us believes deeply that American citizens should determine the outcome of elections, not foreign governments. All of us agree with the founding fathers' concern about the damage that foreign interference in our politics can do to our democracy.*

It is for all these reasons that we write to say that the arrival on the US political scene of emails purportedly belonging to Vice President Biden's son Hunter, much of it related to his time serving on the Board of the Ukrainian gas company Burisma, has all the classic earmarks of a Russian information operation.

We want to emphasize that we do not know if the emails, provided to the New York Post by President Trump's personal attorney Rudy Giuliani, are genuine or not and that we do not have evidence of Russian involvement -- just that our experience makes us deeply suspicious that the Russian government played a significant role in this case.

*If we are right, this is Russia trying to influence how Americans vote in this election, and we believe strongly that Americans need to be aware of this.*

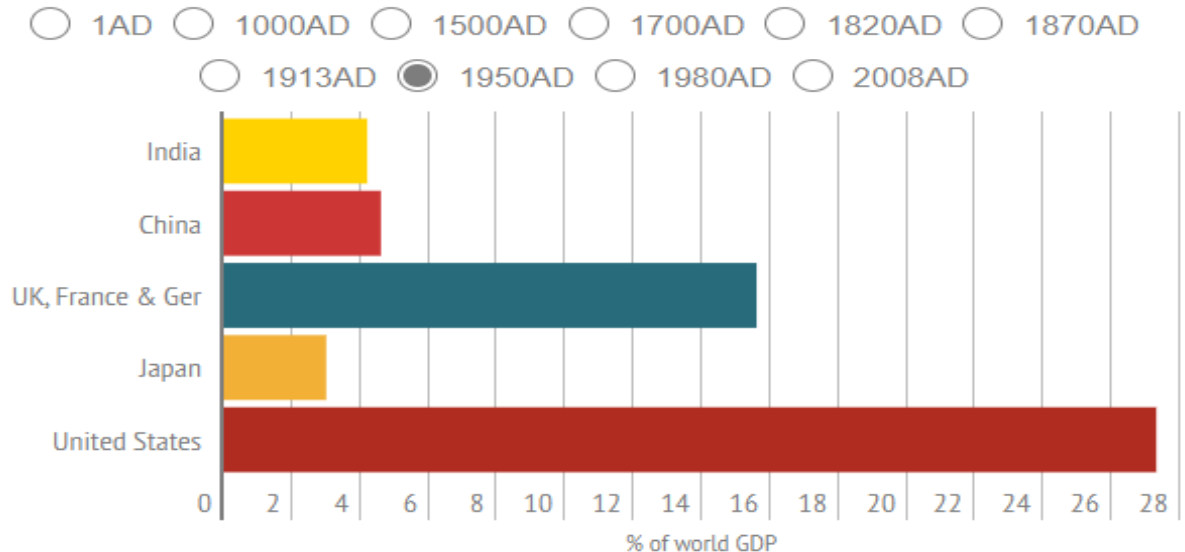

There are a number of factors that make us suspicious of Russian involvement.

Such an operation would be consistent with Russian objectives, as outlined publicly and recently by the Intelligence Community, to create political chaos in the United States and to deepen political divisions here but also to undermine the candidacy of former Vice President Biden and thereby help the candidacy of President Trump. For the Russians at this point, with Trump down in the polls, there is incentive for Moscow to pull out the stops to do anything possible to help Trump win and/or to weaken Biden should he win. A "laptop op" fits the bill, as the publication of the emails are clearly designed to discredit Biden.

## Share of world GDP throughout history

Since 1AD until today the world's changed quite a lot. But until 1700AD the balance of wealth hadn't. For the past two centuries the share of the world's GDP has shifted to the west to Europe through imperialism, and technological innovation. With the rise of China that's changing again and this infographic explores the story of balance and unbalance in the world economy courtesy of the data from the Maddison Project (<http://www.ggdc.net/maddison/maddison-project/home.htm>).

# VISUALIZING CHINA'S DOMINANCE IN CLEAN ENERGY METALS

Renewable sources of energy are expected to replace fossil fuels in the next decades, as the world's economies try to reduce carbon emissions and mitigate climate change.

This graphic based on data from the International Energy Agency illustrates where the extraction and processing of key metals for the green revolution take place, and how China is leading the process.

From 1952, when only 95,500 tested on the SAT, until it reached 1.163 million in 1963-64, the *mean scores* on the test remained stable in both Verbal and Math portions.<sup>1816</sup> From 1963 to 1977, the decline in Verbal scores was from 478 to 429. While Mathematics declined from 502 (a peak), down to 470 ([page 13](#)). (A further analysis: This was published by [Taki's Magazine](#) who inserted the historical composite graphic from [Unsilenced Science](#).)

In the mid-1980s, composite scores were on the rise as [Kaplan and other services](#) helped teenagers learn the art of test taking. Practice examinations prepared the college-bound student. The ACT, the lesser sister of the SAT, put out its first sample test in 1985. And since scoring well likely also meant admission to more selective schools (with bigger price tags and “potential” to land illustrious positions thereafter), the rationale to score well was justified. This was marketing at its finest. Government-backed educational loan markets flourished.

By 1994, the entire test went through an enormous [makeover](#). In 1995, the scoring rationale was revisited, which raised scores to meet the historical levels seen. (The path: modify the test, presume it is acceptable, then immediately skew the data upwards. Hides a bunch of flaws, if made.)

This is captured more tellingly here from [1990](#): “In this year, ten students out of 1.2 million test takers (roughly one in 120,000 students) get perfect scores of 1600 on the SAT.” Then, only a few years [later](#): “Starting with the [April, 1995](#), SAT test, students can miss as many as four questions and still get a perfect 1600. In 1994, 25 students got perfect scores out of about 1.25 million (about 1 in 50,000 students). The first recentered SAT in April has 137 perfect scores out of about 200,000 test takers (about 1 in 1,400 students).”<sup>1817</sup>

In 2005, the score was segmented into 3 parts, moving the perfect score to 2400. In 2014, the scoring went back to 1600. Testing included “extended-time” for those that asked, or were given, that option. Online testing is added into the mix. Mandatory taking of the test is added state by state.

It appears the latest batch of changes have only destroyed the motivations of the test takers aside from one group: Asian-identified persons. Likely, as anything, discussed, these kids are taught to succeed, are highly motivated by their parents, who stay together in marriage, and the stereotype has been “conscientious” for many generations, regarding people from the Far East.

But that begs the question: what is happening to the other teenagers? Who is teaching them reading, writing, and mathematics? Is it any wonder these same souls are upset, in debt, and now, rioting in the streets?

The answers may shock people. Look at who teaches your kids. What is their political makeup? What else, generally, defines them? Answer what *disincentives* do they have in place *to not produced* well-educated adults that can hold a rational conversation, do moderately complex mathematics, and write their thoughts down?

Most of these teachers have no drive or will to teach anything useful. Many too have been caught on camera espousing radicalism that must be exactly what your kids get from 7:45-3:30, Monday through Friday. These teachers spend more time with your child’s brain, manipulating and contorting it, with very lasting effects, than many parents ever will. (Seeds of resentment?)

Dear Dr. Fauci,

It is my pleasure to invite you to present at the National Academies of Sciences, Engineering, and Medicine workshop on "The Critical Public Health Value of Vaccines – Tackling Issues of Access and Hesitancy." This workshop will be held on May 28-29, 2020 at the Pan American Health Organization (PAHO) headquarters in Washington, DC. The statement of task for the workshop is attached.

The 1.5-day workshop will provide a venue to examine the current state of vaccine preventable diseases and the impact of vaccine access and hesitancy on vaccine preventable diseases globally, as well as the multidimensional drivers and impacts of declining vaccine confidence. This workshop will explore health systems, research opportunities, communication strategies, and policies that could be considered to address access, perceptions, attitudes, and behaviors toward vaccination. The workshop will be broadcast live over the web to an international audience, and is being hosted by the National Academies' Forum on Microbial Threats.

Due to your in-depth expertise in this field, we would like to invite you to give a plenary presentation on the development of new vaccines in the midst of an outbreak, specifically on the prospects of a coronavirus vaccine. The primary audience for the event will be researchers, health practitioners, industry leaders, and policy makers in infectious diseases and global health, so we are looking to initiate this workshop with relevant discussions of barriers to accessing vaccines. Your responsibilities would be to prepare and deliver a 15-minute presentation. We would cover your travel expenses in accordance with U.S. federal government rules. We would be thankful to have your involvement in this workshop. Please let me know if you might be interested. I would be happy to answer any questions you may have.

Thank you in advance for your time and consideration. We understand that this is a very busy time and your calendar may be in flux.

Best wishes,

Julie

Thanks for the note. If we start in April (~6-7 weeks from now) with a phase 1 trial of 45 subjects, it will take another 3-4 months to determine safety and some immunogenicity. The next step is phase 2 for efficacy. We may need help with resources for the phase 2 trial if we do not get our requested budget supplement. I believe that we will be OK. If this goes off track, I will contact you. Many thanks for the offer. Much appreciated.

## PERSONAL POSTSCRIPT

One knows this declaration will be contorted into a toxic narrative. That all the evil in the world comes from a source of spite: mine. And that one is just bitter about all the “equity” and “inclusion” being handed out as “reparations.”

*That’s the media’s go-to move #1.* I am of the mind that people should garner success through merit, hard work and persistence in terrible circumstances. My instances of being discriminating - in one’s estimation of ability, desire, and adapting to rough conditions - are not wrong to have. Many people do this task well - and it rarely, *if ever*, correlates to what *they look like*. There are drivers behind success, which are also about how “success” is defined. But the truest success is, in the end, about how willing one is to take a personal stand on, and how willing one is to take the inevitable consequences, *come what may*.

Over the course of life, one has made many errors and received consequences for my actions. Those consequences will be the focus of any *smear the messenger* campaign, if so fortunate. While undoubtedly there is an endless gold mine to be explored to all the ways one has been an unmitigated failure through the years, one reminds the reader here: rarely has one walked this Earth without a multitude of failings to pick at and focus on to the perceived betterment of the person making those tired and ancient claims. Unlike them, one is not intent on stripping the reader of their Humanity or doing the Devil’s bidding for thirty pieces of metal. One hopes the reader can see beyond those ploys and take what was written as a vital warning about present dangers.

When people decide *who I am*, they can read my books.<sup>325</sup> I cannot answer every question here that the Praetorian Media, who are owned by Blackrock, Vanguard, and State Street, will present to derail this message.<sup>326</sup> The only decent journalists cite their sources, provide as much data as they can, focus on issues that hurt everyone, namely: Our Rights.

That Everyone has RIGHTS to LIVE in FREEDOM. Not enslavement by governments or corporations or world bodies/institutions that show daily they care not one single bit about you. These groups’ agenda operate whether you are black, white, yellow, Jew, Gentile, or Muslim. These forces have congealed to destroy as much of Humanity to get to a stated goal of *less of Humanity*. It is driven by overt greediness for resources into their obsessive hands.<sup>327</sup>

*One suggests: never give up; and find what matters to you.* My quest will be non-violent, but I note: a corrupt cabal wants all your weapons and your deaths.

If one also ignores the history going back prior to the Holodomor and the 2014 U.S. backed coup and the intimate involvement of VP Joe Biden and his lead Ukrainian blooded Nuland, then one will buy State Department/CIA propaganda line without debate. Dr. John J. Mearsheimer might educate people of the latter ilk rather deeply.

- 179 The problems are not with the common people of either nation. Rather, the CCP represents an agenda to dominate the world. Russia, as noted above, was never our enemy. More often than not, the British, Germans and French, who dominate the European politics, have sucked us into their hellscape, that is dominated by Socialist policies driven by parasitic aristocracy and banking cartels.

- 225 The beginnings of the CIA were born out of the OSS. The Dulles CIA-OSS, according to many researchers such as Peter Dale Scott PhD (Cal Berkeley), in his thousands of hours tracking down the Nazis noted how top-tier murderers were conveniently allowed to escape to South America countries (Paraguay, Argentina, Chile, Brazil) after their WW2 atrocities. Dulles utilized “the talents” of former SS key officials (in Reinhard *Gehlen Organization*). A key part of the program was the importation of scientists with skill sets in bacteriological and chemical warfare, including Japan’s Dr. Shiro Ishii as well (1981, *Bulletin of Atomic Scientists*), who was behind an idea to airdrop in *bubonic plague*. Others helped in the burgeoning missile and space programs, from pre-NASA to the space race. Many of the most highly sought killers took positions in front companies dealing in antiquities trade, arms, drugs, along with neurological and biological agents in the cold war spy game. In other words, these war criminals stayed in the same businesses as before. “How Allen Dulles and the SS Preserved Each Other (#25, Winter 1986).” Released 2010/06/03 CIA-RDP90-00845R000100170004-5.

Moreover, Obama also penned the 2011 “Dear Colleague” [memorandum](#), reducing student’s due process rights to a mere preponderance of evidence (civil standard), on college campuses, regarding allegations of sexual assaults and rape reports.
