The Art of the Scheme

To determine how a scheme can go forward, such as the one Hunter Biden had with CEFC, with all the legal, legislative and public scrutiny now, it requires that:

- 1) **Utilize stock trusts to transfer funds.** Holding these inside corporate offerings where a CEO creates a “Sponsor” (a “Trust”) to guard the identity of the stockholder.^{1,2,3,4}
- 2) **The Network** deployed is guarded or protected by high “reputation” persons/institutions.
- 3) **Immunity from prosecution.** If a lawsuit or criminal complaint is filed against a stockholder, corporate entity, or both, the jurisdiction protects the actions of the parties.^{5,6}
- 4) **No new contacts or business formations are made directly.** Mine prior relationships that are expected through the known emails/contacts and will not raise any new suspicions.
- 5) **The payoffs are greater.** But will require several years before coming to fruition.
- 6) If someone substantially new is introduced, they are neither American nor Chinese (in this particular case). The necessity of a new, foreign-based contact could be explained by a new opportunity. Whereas, using yet another person from the U.S. or in a known conduit of shady practice will garner more attention immediately. (China in this case.)
- 7) **Mass Media Ignores.** No one in the billionaire-owned media will directly cross the Bidens. These are the folks that have covered for them since well before 2019. The media operates as the outward-facing intelligence arm. On May 10, 2023, a Republican Oversight Committee presser was ignored by all the mainstream outlets who chose to focus on George Santos.⁷
- 8) **Intel Community.** At the railhead to why the U.S. is now in a state of collapse. Their obvious lies, spite, and their antithetical personal decisions to the U.S. Constitutional rises well beyond any committee investigating them. These intel communities created a network tied to a (Dis-Mis-Mal) Information Industrial Complex.^{8,9} So, *punishment for this will never happen.*
- 9) **Most Important to Criminals.** White-collar criminals (all criminals of opportunity) like proximity to their products (grift), or the money flow, or both. Fail that, they want their key, if largely unknown, minor associates/ions to be located within minutes (preferably by foot) to accept wire transfers or instructions at a place that most people don’t regularly traffic.

Law offices, intel, military or business operations tied to a highly selective and boutique clientele that don’t have heavy foot traffic inside the operation on a regular basis; and also have security to handle random weirdos that might recognize the person doing the bidding of criminal. These white-collar criminals also want plan Bs and Cs – through fail-safe conduits to conduct their transactions in different jurisdictions. Thus willing to take a greater risk if it gets too “hot” where they normally conduct operations.

White collar criminals move their ill-gotten assets through real estate, shell companies, art, or anything that can hide transactions (money laundering). Seems a pattern with the Bidens.¹⁰

Executive Summary of Alleged Crimes

Hunter Biden through a complex scheme has allegedly acquired a 20%+ stake in 2 U.S. LNG projects, specifically for exporting LNG to European Union by 2026 or to China. This crime potentially includes transactions outside of the United States (wiring funds) to Chinese business partners (or their China-based replacements) from his 2017-19 dealmaking intrigues gathered from the “Laptop from Hell.” Mervyn Yan’s *Coldharbour Capital LLC* proximity to the American Stock Transfer & Trust (promoted by CATHAY Bank) provides one conduit for transfer.^{11,12,13,14} COSCO Group (HK) is a CCP operation that may provide the other conduit or transaction portal being the owner of Gemini-Rosemont Realty of which Hunter Biden was once, or still is, a shareholder.^{15,16} Each would route through Georges Berges Art Gallery – for Hunter.¹⁷

Using Macquarie Group veteran, Brendan Duval, who is based in New York City, the operation locally included Continental Stock & Trust assignment that were held in a blind trust ownership managed by Brendan Duval, the CEO of Glenfarne. Glenfarne uses JPMorgan Chase, Scotiabank, Sumitomo Mitsui Banking, Natixis and Davivienda International to finance Glenfarne and subsidiary companies during merger transactions. Glenfarne (& its subsidiaries) use Greenberg Traurig¹⁸, White & Case, K&L Gates (lobbying) for its legal work in SEC filings.

On April 6, 2023, Glenfarne closed out their initial business formation, 10 business days after their March 23, 2023, SEC filing deadline. But, shortly thereafter, President Biden FERC (Federal Energy Regulatory Commission) approved Texas LNG regarding advancing to their FID (Final Investment Decision) for late in 2023. Glenfarne still holds this asset – though former shareholders were dissolved out of the company. No further SEC filings made by Duval, so far.

Lobbying done by K&L Gates dates to the fall of 2017 regarding both Magnolia and Texas LNG, through Stacy Ettinger et.al., a former staffer for Majority Leader Chuck Schumer. Ettinger also lobbies for U.S. Global Leadership Coalition (USGLC) where Hunter Biden was a director from 2012-2018.¹⁹ Biden personally knows CEO Elizabeth Schroyer of USGLC.

Ettinger filed lobbying documents for the 1st quarter of 2023 regarding Texas LNG just as Glenfarne ceased their 2-year business formation charter (through SEC filings).²⁰ Ettinger is a notable lobbyist for ByteDance (TikTok) in 2023 just as Congress attempts to use that CCP problem for passage of the RESTRICT Act: an authoritarian upgrade of the PATRIOT Act.

Given the Biden Administration’s actions regarding energy policies, from the Keystone XL pipeline²¹, draining of U.S. strategic oil reserves²², to allegations made by Sy Hirsh regarding the Nord Stream 2 pipeline sabotage by the United States military and intelligence forces²³, this deal’s ongoing progress to consummation is odd and requires investigation at the local, state, and federal levels. Potentially providing LNG exports to “friend” and foe alike, along with key circumstantial evidence gathered, this may rise to the level of Treason against the United States by the 46th President. Through Joe’s son, and a vast array of lawyers and intelligence connections, they have jointly conspire *to give aid and comfort to our known enemies*.

The Luck of the Irish

When 51 U.S. Intelligence directors and operators declared in mid-October 2020 that Hunter Biden's Laptop was *Russian Disinformation*, the Federal Bureau of Investigation (FBI) had the laptop in its possession for over 10 months.⁵⁰ Only 42 of the 51 signers had the courage to publicly disclose their names.^{51,52} Whether these unknown nine were too ashamed or too well compensated to rock the cushy boats of their life, they made their decision to rock the Republic. Evidently, that wasn't of great concern *for them*.

This was nothing new though. The CIA apparatus has driven countless government destabilizations since its formation in 1947. Their tentacles born of the poisonous tree from the still beating heart of Nazi atrocities in *Operation Paperclip*; migrated into mind control, *MK-Ultra*; media, *Operation Mockingbird*⁵³; spying on the public, revealed in the *Church Committee*⁵⁴, and presently, the *Twitter Files*, with CIA and FBI operatives destabilizing and subverting the United States of America with your tax dollars and funding your future techno-totalitarian prison.⁵⁵

Atop that domestic investigatory bureau sits the Department of Justice, ran in December 2019 by Attorney General William Barr when the laptop was received. Barr, who served in the CIA in the 1970s while his dad Donald Barr, once a member of the OSS, had notable contact with Jeffrey Epstein (a multi-country intel asset), came into the Trump administration under heavy scrutiny by the ever-fearful, radical left.⁵⁶ They saw Barr as an authoritarian willing to incarcerate the slightest missteps of the *New Radicals* from Antifa, BLM, or in the LGBT+ community. But, to their shock (or smiles), Barr did nothing of the sort during the chaos of 2020 and *The Summer of Love*.⁵⁷

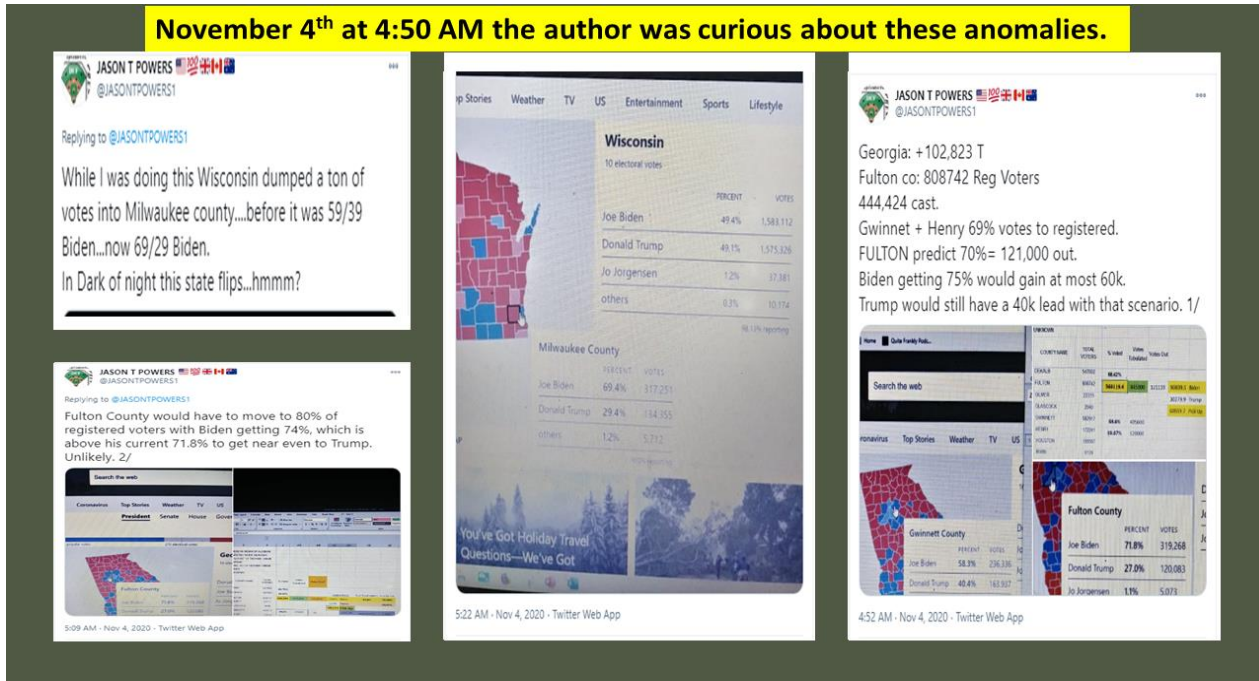

Barr's Washington D.C. deep statist history cemented in that CIA stint, had under Herbert Walker Bush, to Barr's legal chops growing under his Carlyle Group work on tax hustles. (The Bushes are well-connected to *The Carlyle Group*.) Barr advanced in the Reagan and Bush administrations, climbing ever upward to sit atop of the U.S. Department of Justice, *twice*.

He had known of (or worked at) the same haunts as Joe Biden since the mid-1970s. Joe Biden was at the railhead of the Judiciary committee when Justice Clarence Thomas came before Biden for his "high tech lynching." Joe even voted against Barr's boss at CIA: George H.W. Bush.

But Joe gave high praise to Barr in 1995, "You were one of the best I have ever worked with, and there have been a lot of attorneys general since I have been here, and I mean that sincerely."⁵⁸ Such sincerity was reciprocated in kind during 2020. The "selected" champion of the left's cause, Joseph Robinette Biden, was in good shape regarding his presidential campaign in the year that changed the United States of America forever. Joe sincerely never worked less for such an important position in his life. Acquiring the most votes (and 10 million more) than Obama did.

Barr departed in mid-December 2020 with his work completed to derail any further Trump musings on Twitter, or from the White House. His government peers and cohorts stated, "most

secure election ever!” While he proclaimed election interference, “bullshit.”⁵⁹ The massive ballot drops observed at 3AM to 5AM in the morning by this writer would tend to reflect otherwise.⁶⁰

Nevertheless, the radical Left cheered with smug satisfaction.

The people on the Right, obviously, stumbled blindly into the next intelligence operation: J6. And the *Mockingbird Media* never let up on its COVID misinformation or election disinformation while the country spiraled out of control under their mendacious stories.

For them, the multiple crises ahead mean higher ratings.

For them, payback on flyover country comes from keeping a country divided, not united.

For them, paychecks come from the intel narrative spun since the escalator ride by Donald Trump. He's an agent of the Kremlin. A puppet for Putin. Or: *just another presidential puppet* for the Deep State to put on a string.

But, as with all good intel operations – *deny, deny, deny, and lie, lie, lie. Admit nothing.*

And gaslight everyone to keep garnering those 30 pieces of silver.

That is the CIA way.

~

The last email logged in the Hunter Biden laptop was on March 17, 2019. It was from Father John of *Catholic Charities*, an innocuous email among the over 100,000 emails consolidated by Garrett Zeigler at his *Marco Polo* website.^{61,62} (Ziegler worked in the Trump administration.)

Hunter, the lesser son of Joe (as Beau was Delaware's AG for eight years), was, as former New York major Rudy Giuliani put it, "a bagman." In looking into Hunter's dealings, and connecting these further to the people he spent great time cultivating to enlarge his bank account, or pay the freight acquired from his failed marriage and pricey boarding schools for his offspring, or his other extracurricular activities, the evidence is clear and convincing regarding his unethical and criminally-minded use of the power of his name.

Hunter's power flows from his name. He said so. In some respects, Hunter is as damaged as anyone can be, but that makes him exploitable and blackmailable by all our known adversaries. The Chinese Communist Party (CCP) and the Russians know all about Hunter, Joe, and all their D.C. friends, along with their dirty secrets and criminality. And if the American Public knew this – which is why the billionaire media has gone crazy – there would be massive awakening.

And that cannot be tolerated. These folks fear a well-informed populace.

As Joe is now the "leader of the free world," the actual joke (on us) is: We, the People, are not "Free" at all. We are under direct threat from U.S. National Security Agencies, who outsourced censorship and information collection to big tech companies, but then direct such surveillance back on U.S. citizens.^{63,64} This is a blatantly illegal work around to the U.S. Constitution – and has been escalating since before Trump ever ran for office – under the Obama-Biden administration. And back to just weeks after 9/11 in the passage of the *Patriot Act* under George W. Bush. And further back in 1975 when Senator Frank Church investigated our intelligence apparatus for this.

Explains why our compromised U.S. Government is kicking around the RESTRICT Act, selling it as stopping TikTok, while the bill is about the commoner, the U.S. Citizen.

To be brutally honest: The U.S. Government has declared war on its population – specifically, any thought that contradicts or countermands its Imperialistic purview, foreign or domestic. This will end in either the population's complete subjugation or the deserved dismantling of the U.S. Federal Government as it exists. When is an unknowable variable.

One hopes, the luck of Hunter Biden is running out. As one will show, a master agenda by the CCP blossomed as *Project White Light*: a 240-page document regarding CCP/CEFC ambitions. Given the \$30 million Hunter was initially promised⁶⁵, the immediate flow of money, credit cards, and dealmaking upticks, one will show how this all influences the Biden Administration *now*.

Joe achieved the Presidency through the D.C. machinates, tech overlords manipulation, and a population too oblivious to not notice how the military, pharmaceutical and technology industrial complex has wrecked a thriving society just 60 years ago.

But Eisenhower and JFK knew why. Both paid for it. Just one never saw the final blow coming.

Marco...Polo

JiaQi Bao's Presentation Hudson West (Hunter Biden's Laptop)

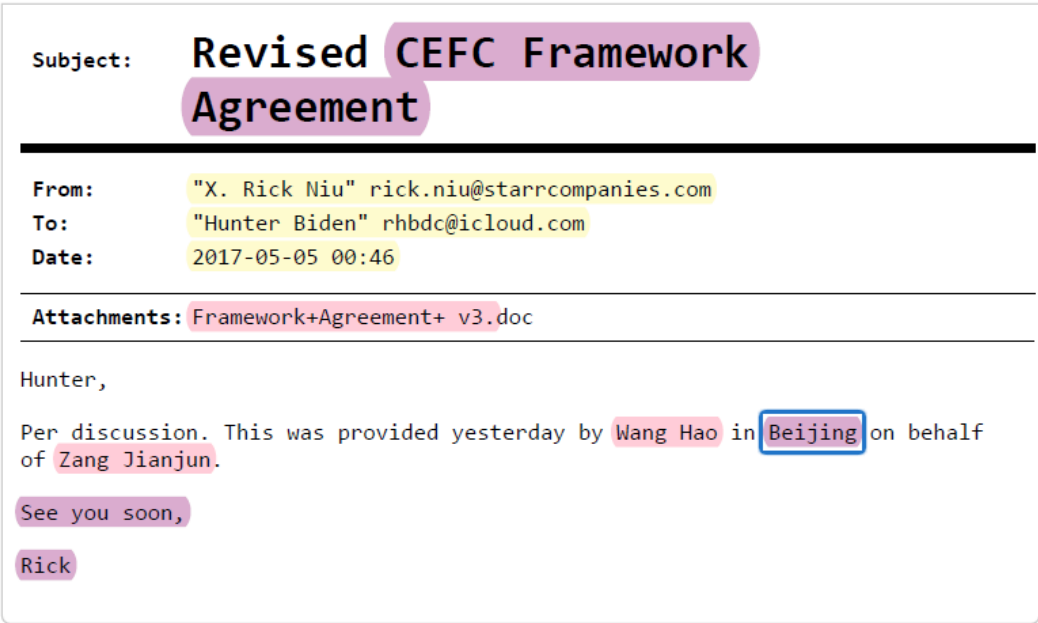

Prior to the online launch of *Marco Polo*, this author obtained nearly 35,000 of Hunter Biden's emails along with a key 17-page November 2017 presentation of all U.S. Energy assets translated into Chinese in June 2021.⁶⁶ That first set of emails were far from a complete set – as Garrett Ziegler expanded that total to 128,775. Through numerous searches, one was able to see enough verifiable smoke that any average FBI agent, who honors their position forthrightly, should have endeavored to expose obvious influence peddling and various wire fraud crimes.⁶⁷

The exposure of Hunter's well-paid dealings with Chinese operatives (and make zero mistake about it – they are all CCP members, willingly or not) should have raised such alarms to have triggered a massive inter-agency investigation. But, as noted above, the criminals are in power in D.C. *and Worldwide*. The few persons with any gumption to address it (Rep. Comer, Senator Grassley, et.al.), will go only so far, and no further.⁶⁸

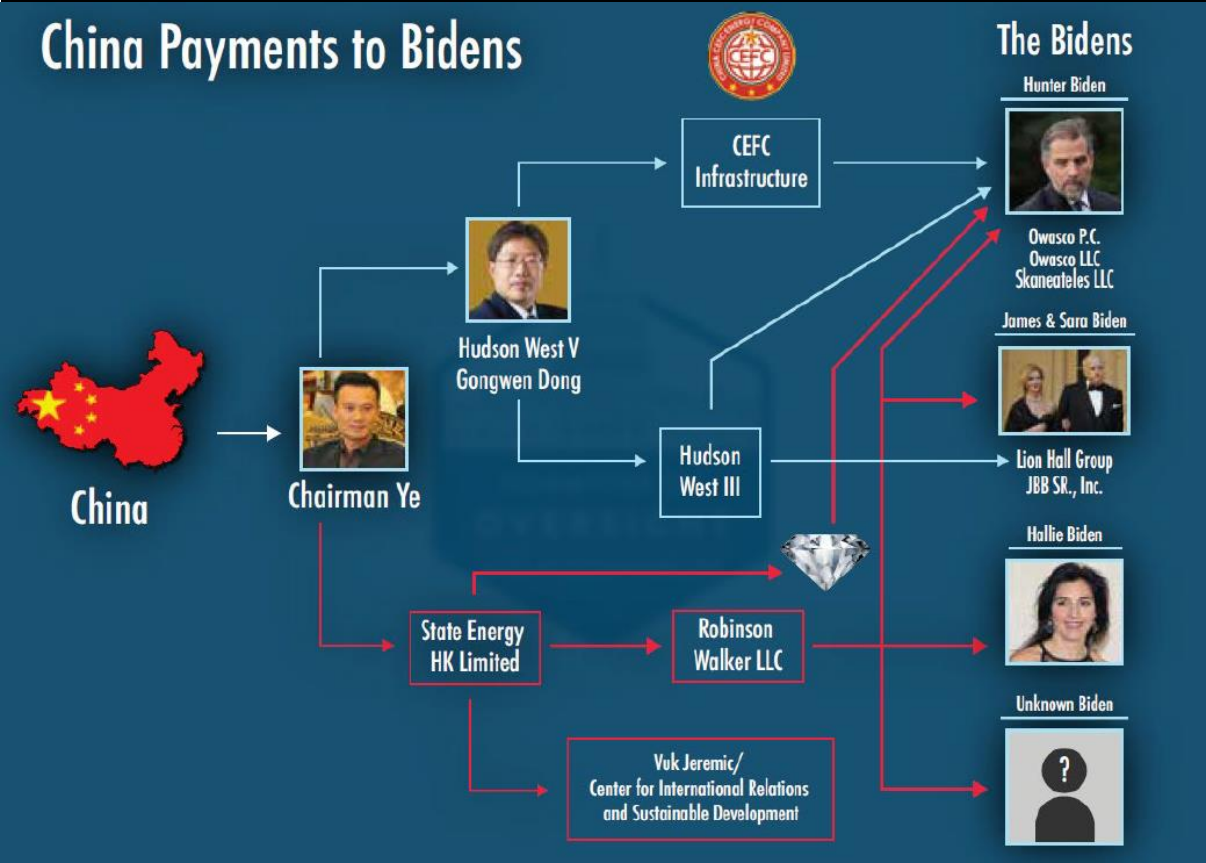

Hunter's interactions with CEFC Energy, the main thrust of this intelligence analysis, started as early as October 4-5, 2015 with Scott Oh making a cold approach.⁶⁹ *The Daily Caller* wrote extensively about this on January 4, 2021, regarding early pitch ideas presented by Hunter's partners: Eric Schwerin and Devon Archer.⁷⁰ Schwerin suggested Burnham Securities, Devon Archer's firm in a response email.⁷¹ More substantially, to later contacts, James Gilliar entered the CEFC picture in late 2015.

Ex-UK Special forces vet James Gilliar gradually joined the Hunter circle of deals over a period of 10 months in 2015 through Rob Walker.⁷² Tony Bobulinski came on board in January 2016 in a

direct email with James Gilliar, but was not active on CEFC concerns until April 2017.⁷³ And then, Bobulinski's departure came about by June 2017 – from Hunter's emails.⁷⁴

Dear Rick,

I hope that you are well and that your trip to China was successful, can you please update us on the outputs of your meetings with Chairman Ye, and if we have any revisions to the framework agreement that you had sent us already.

We are currently embarked on several developments with CEFC and director Zang had instructed me to establish the platform ASAP, we have prepared a 240 page document, which is being reviewed, however the director has told me to focus on the base material that you require for the company establishment at this time, and not to distract the process too much.

Looking forward to your reply

kindest regards

CEFC's Belt-and-Road enhancing agenda pivoted off this 240-page document.⁷⁷ X. Rick Niu provided additional files (attachment names below) for the required deals Hunter and James Biden would accept millions to complete, starting in August 2017.

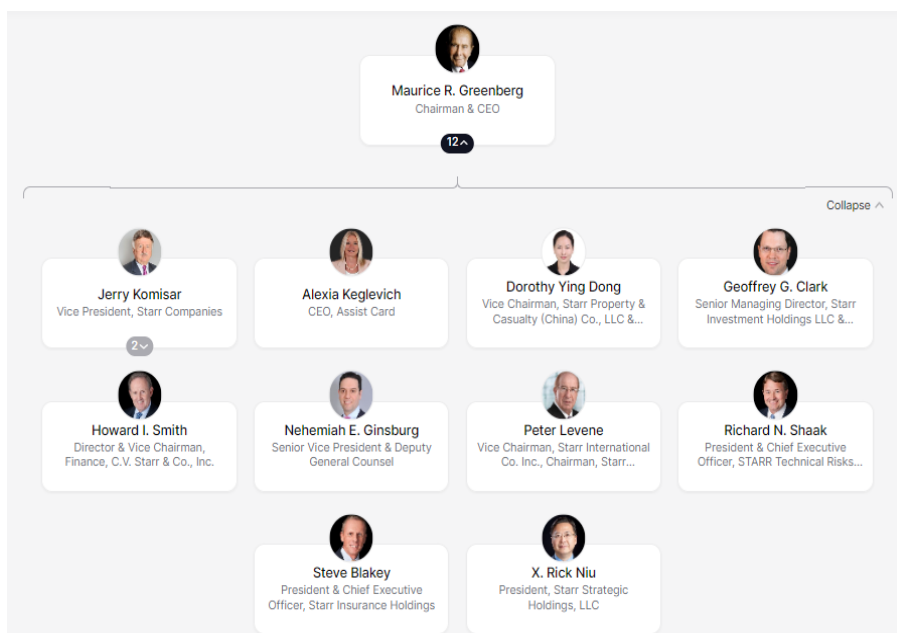

- CEFC_Investment_Vehicle_Proposal_10042017.pdf
- Framework Agreement v2.doc
- Framework+Agreement+ v3.doc

It appears that Hunter reached out to Director Jianjun Zang as early as March 22, 2016 while his dad was still Vice-President under a file named, "H to Zang.docx" sent through Rob Walker.⁷⁸ This shows a 2-year progression to fulfill CEFC dealings with, as one fulsome letter from Hunter to Chairmen Ye Jianming suggested:

"We believe that is a very unique opportunity to showcase the CEFC brand in a country and help drive progress. The needed equity there is \$300-500 Million USD and can all be done by CEFC or parts of it and Sinohawk will raise the rest of the capital to complement CEFC capital. I am sure you are well briefed by our dear friend director [Jianjun] Zang..."⁷⁹

CEFC's board of directors: Ye Jianming, Chan Chauto, Zang Jianjun, Li Yong.⁸⁰

Xiaopeng "Rick" Niu is an important character throughout this story due to ongoing LNG situations one discovered. Niu works at 399 Park Avenue, Floor 2, New York, New York. His biography includes stints at AIG (1999-2007) working for Maurice Greenberg, the former AIG CEO. Both are top leaders at Starr Insurance Companies (Starr Strategic Holdings, LLC) for many years.^{81,82,83}

X. Rick Niu is a member of the *Committee of 100*, a pro-China organization set up to infiltrate, subvert, and dominate Western institutions.⁸⁴ Their agents have succeeded well in carrying out those goals. Niu is a member of the *Council of Foreign Relations*, a Globalist power organization that seeks to control narratives, foreign policy and trade actions through its members' voices across all industries promoting a tightly-coordinated and personally-profitable narrative.^{85,86}

Rick Niu wrote to Hunter Biden on March 14, 2017⁸⁷:

Hunter,

It was great speaking to you **late last week**. Tammy and I also had a call with James and Rob this morning in follow-up. In summary, we envision the following activities over the next two weeks.

1. By 3/15 **we provide the latest revised framework agreement based on our last meeting in NYC** for your review and comments. Follow-up discussion will be scheduled separately.

2. You provide us with:

- A personal biography and disclosure of your commercial activities and non-profit affiliations; **current thinking as to what to keep, what to stop and how to transition upon assuming full-time executive capacity at JV.**

- An initial list of proposed candidates for either full-time or **senior-adviser positions**; names, current positions, proposed roles, biographies and qualifications.

- **A proposed list of actionable projects for the JV upon inception; very specific guidelines** were given to James and Rob earlier today.

- First draft of the above will be provided to us by 3/18, followed by a **walk through/group Q&A via phone around 3/20**, and then a revision sent to us by 3/27.

Hunter, I found our first meeting constructive and encouraging. We look forward to these concrete next steps. See you again soon.

“JV” stands for joint venture. This email through CEFC energy reflects that Rick Niu is not to be dismissed as irrelevant to this situation. In truth, Rick is at the railhead of this CCP agenda.

CEFC China Energy Proposal for Investment Vehicle

Program Outline

April 10, 2017

HSGAC 11-18-2020 Finance Joint Report Supplemental⁸⁸

EEIG (the above proposal of James Gilliar and Sanan Phutrakul⁸⁹) is a 3-phase, initial CEFC investment plan for CEFC to enter: “Target Geographies for Development.” Among the targets: Oman, Argentina, France, Mexico, United Arab Emirates, and the United States.

Market Entry is defined by this pair:

- Senior political figures
- Royal families
- Commercial enterprise oligarchs

Using a Public-Private Partnership (PPP), Gilliar and Phutrakul’s goal is to: “Establish the area of opportunity within each target country for CEFC to quickly and effectively establish prestige.”⁹⁰

The New York Times provided the entire EEIG report (updated to April 25, 2017) with James Gilliar sending it to Tony Bobulinski, Rob Walker, Hunter Biden, and Jim Biden.⁹¹

On paged 21 of this report by *The Times*, titled “James Gilliar & his team”, foreshadowing of things afoot throughout the last three plus years rears its head:

“One we had established the original agreed geography with the director we began to plan and initiate the strategic entry that would secure a preferred, unobstructed entry to market, led by JG [Gilliar], aligned through U.K. connections, for personal relationship entry to Sultan Q [Qaboos bin Said], then support from U.S. (HB’s [Hunter Biden] family & friends, **Davos**) to qualify and endorse the chairman [Ye Jianming] and the company...to establish onshore CEFC vehicle that is uniquely sanctioned by His Highness...”⁹²**[My emphasis.]**

Part of EEIG plan B’s, included taking a 51% ownership through HSBC ⁹³ where JiaQi Bao mentioned her deep contacts included the former head of HSBC Middle East, David Eldon.⁹⁴

Later on, Rick’s role was directly categorized by Zhaorunlong@cefc.co , Raymond Zhao, General Manager for *CEFC Beijing International Energy Company Limited*. Zhao wrote on May 2, 2017 to James Gilliar:⁹⁵

How you doing? Director would like to extend the following message to H:

1. Chairman Ye is more than happy to meet H and the family in NYC on 5th or 6th of May. But the schedule is quite tight for the moment and they cannot decide on a time of meeting. **The chairman's side will contact you when they are in NYC.**
2. **The ID of Rick is only a consultant in the preparation of the JV. He is only responsible for the building of the company and only authorized to have the materials necessary for this purpose. For other info, he does not need to be provided.**⁹⁶

Rick’s role as holder of all the JV paperwork for CEFC while working for Starr Companies under AIG’s former head Maurice Greenberg reflects deep familiarity with the Bidens and their Chinese dealings.

~

Starr Companies was formed in 1919 under Cornelius Vander Starr in Shanghai, China.⁹⁷ Cornelius founded AIG as well, and appointed Greenberg as head of North American holdings in 1962 where Greenberg rose to the head of AIG in 1968 and stayed in charge through 2005.

Greenberg is, as well, a member of the high caste: The Council of Foreign Relations and Trilateral Commission with both Kissinger and Rockefeller at the top of his rolodex. More tellingly, Shanghai, Beijing and Hong Kong have courted Greenberg’s business and social ties since at least 1990. (Similar to members of the U.S. Congress – Pelosi, Feinstein, Swalwell, and numerous California or New York-based politicians, Governor Kathy Hochul, alongside the Bidens - that have been schmoozed into cozy deals with the Chinese: the two million CCP agents that roam around the World.⁹⁸ HSBC was mentioned in this *Business Insider* article.)

Greenberg, by political affiliation, is considered a Republican, supporting Jeb Bush in 2016 with \$10 million.⁹⁹ This is not at all unusual, even for New York City, where Biden’s administration has

leveraged the Southern District of New York for its political prosecutions and intimidations. (See: Rudy Giuliani, James O’Keefe, Steve Bannon, and Donald Trump.)

Another tell on the enabling of subversion, regarding Greenberg, is his forming of a new group – yet another octogenarian plus failing to retire – tied to U.S. and China relations being business friendlier.¹⁰⁰ While admirable on its face, such is difficult within the framework of current geopolitical tensions. Republicans – of the neocon, Bush stripe – routinely promote this, while at the same time, causing all sorts of conflicts with Russia. Inflaming one relationship based on a worn-out, geopolitical “cold war” model, while undermining U.S. national security, for decades in feeding an enemy with an overt plan for one’s national and cultural demise (since the 1980s.¹⁰¹)

The current tensions arise as the Bidens, with decades of “friendliness” to China, hours spent in talks with Jinping, now, go nowhere.¹⁰² Biden’s Secretary of State rebuked by aggressive Chinese foreign ministers in Alaska¹⁰³; and Joe can’t warrant a phone call with Xi over Ukraine.

One surmises: Xi knows exactly what he has in Biden. And it disgusts him and delights him as well. Leverage over an American President had for a pittance.

Notable: Rick Niu’s political donations: \$5,000 to *Great America Committee* of Mike Pence.^{104,105} Greenberg’s donations for the 2020 election cycle included neither Trump nor Biden.¹⁰⁶

Project White Light proceeded as planned throughout mid-2017 for the Bidens at least.

CEFC’s formal relationship started with a courtly gift of an 3-carat engagement diamond around February 14, 2017 in Miami with the Chairman Ye Jianming in town for International Boat Show.¹⁰⁷ Hunter Biden, James Gilliar and Rob Walker met up for planning surrounding what was later called: *Project White Light*. Hunter skipped out on a planned lunch, but the deserts were coming for those that stayed behind in Miami. Rob Walker, through Robinson Walker LLC, received \$3 million through State Energy HK Limited, a Shanghai-based company that ties to CEFC.^{108,109}

Key, for the discussion later, Miranda Devine noted that between March 5th and April of 2017, “Bobulinski remained troubled by Hunter’s scandals, and Gilliar, **who was in Australia with Director Zang looking for acquisitions**, was worried he might pull out. So he arranged for him

to meet Hunter the following month at the Chateau Marmont, in Bobulinski's hometown of LA."^{110,111}

Australia is home to a major Chinese emphasis from its former Prime Minister Kevin Rudd through to the Macquarie Group, a key investment outlet regarding infrastructure and energy throughout the Pacific Rim, but particularly through Hong Kong and Beijing dealings.

CEFC Chairman: Ye Jianming.
Just one year after his diamond was gifted, his company was lifted from his control.

James and Hunter Biden were eager to assist Chairman Ye, particularly around New York City. From a Horace Mann School email by Jim Biden, sent April 18, 2017¹¹²:

"He would like the family to go onto [their] web site and fill out an application- very short! That way, she will be in his system. This is will give Jason the flexibility he needs. applications have been closed for two months! Then he would like to meet with the family, me/you? To see the school and go thru the interview process. She could then rest for few day, and then go to the testing for all private schools, which Jason will help arrange, at the (E R B) testing facility. He will expedite test results, with a kind eye. Possibly at the same time, I along with you and Mr Ye Jianming, could preview some Real Estate in NYC. Which I will arrange! I will send some possible homes for his family to review..."¹¹³

On August 2, 2017 at 7:54 pm, Hunter Biden responded to Gongwen Dong and Mervyn Yan regarding Chairmen Ye "the Director":

My Understanding is that the original agreement with the Director was for consulting fees based on introductions alone a rate of \$10M per year for a three-year guarantee total of \$30M. The chairman changed that deal after we me[t] in MIAMI TO A MUCH MORE

LASTING AND LUCRATIVE ARRANGEMENT to create a holding company 50% percent owned by ME and 50% owned by him.

Earlier that day, at 12:29 pm, Mervyn Yan mervyn.yan@gmail.com wrote:

I have attached the proposed Org chart since Hudson West III LLC was already filed and registered and obtained EIN. However, there are few business points in the Agreement we shall have incorporated into the amended document.

2. The goal is to source and secure 1-3 deals a year and aims to have 5 more deals in the pipeline.

7. Monochrome appoints Chairman and CFO, OWASCO appoints CEO and COO.

8. OWASCO shall made monthly report to the board, and any investment opportunities to the Monochrome and its affiliates. Further investment decision is solely determined by Monochrome Group.¹¹⁴

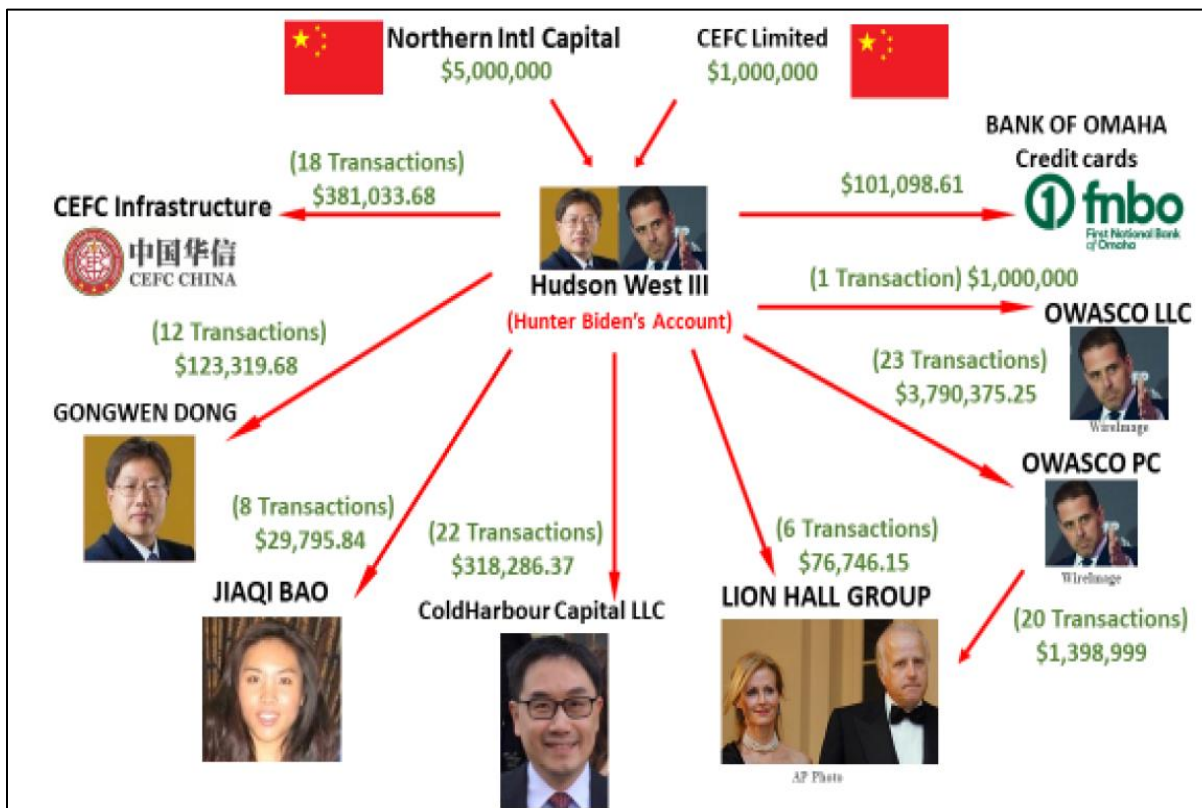

~

Hunter signed a Joinder Agreement with Gongwen Dong on August 2, 2017. From the Grassley-Johnson report (page 5): "Hunter Biden joined with his Chinese business partners and established joint ownership in another company named *Hudson West III*." The ownership of which is 50% split between Hudson West V (Gong, CEFC) and Owasco P.C. (Hunter Biden). The capital infusion came 100% from *Hudson West V* in the amount of \$5,000,000.¹¹⁵ (Just 7 months later, Hudson West V assigned its ownership to Coldharbour Capital LLC, a company connected to Biden's business partner, Mervyn Yan.)

This contract gave compensation to James Biden for \$65,000 per month and \$100,000 to Hunter. Hunter received a retainer fee of \$500,000. As well, Hunter was on retainer for \$1,000,000 to Patrick Ho.

Shortly thereafter, substantial Chinese benefit flowed freely into Hunter, James, and Sara Biden's hands. Meanwhile, many of their former partners, in other schemes, were conveniently left out of the deal.

Below is a diagram from the Grassley-Johnson report of 232 pages.

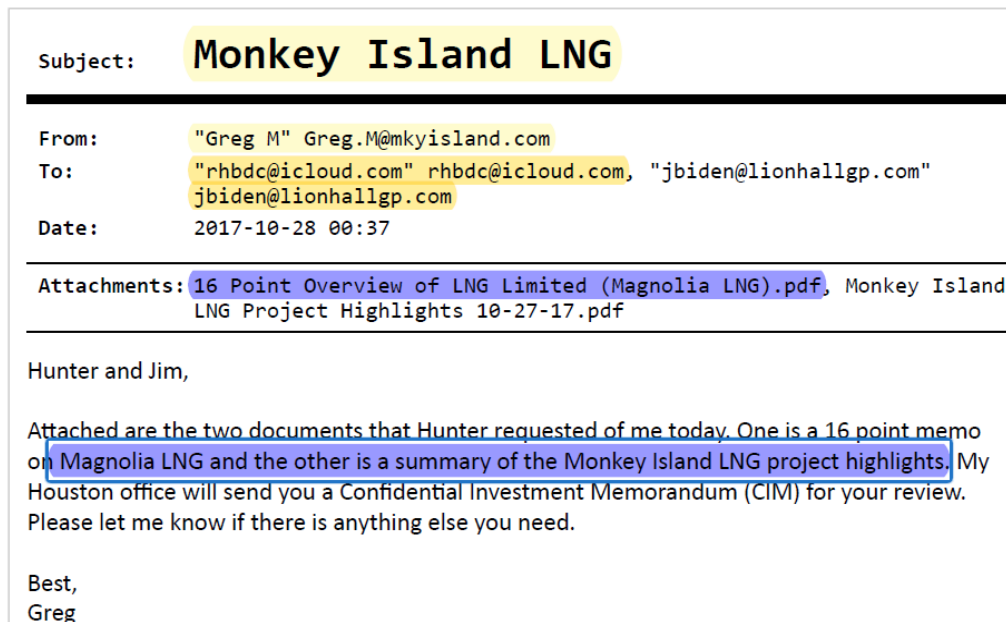

Grassley's report (and others like Rudy Giuliani), noted that office space came with this agreement: "Hunter Biden reportedly requested keys to an office suite at the House of Sweden in Washington be made for his "new office mates: Joe Biden Jill Biden Jim Biden Gongwen Dong (Chairman Ye CEFC emissary)."¹¹⁶

JiaQi Bao, a graduate of Tsinghua University in Beijing (like Xiaopeng "Rick" Niu of Starr Companies above), was Hunter's assistant, and one offers here: the *key LNG advisor*. Grassley report gives this summary on JiaQi (page 10)¹¹⁷:

"[S]he reportedly worked for the communist regime's National Development and Reform Commission before moving to a China-based investment firm that was also connected to the regime. When Ye was detained in March 2018, Bao reportedly sent Hunter an email explaining that 'Ye's situation changed' and that Hunter needed to take as much money as he could from Hudson West III because if he failed to do so, the money would become 'nobody's money' which 'means they take away whatever you give up to no body [sic] knows where in the system...' Bao also questioned why the U.S. government had the authority to prosecute Patrick Ho for bribes that took place outside the U.S. and provided opposition research to Hunter Biden on then-President Trump ahead of the 2020 election, calling Hunter her "coconspirator-in mischief."

JiaQi provided her opinions *freely* over the course of various deals regarding LNG in the U.S. that came during the fall of 2017. These deals are the crux of this intelligence report.

Monkeying Around with LNG Deals

Greg Michaels was attached to Monkey Island LNG and this website is still active.¹¹⁸ His company's bio is pretty unremarkable, stating that:

"Monkey Island was established by Southern California Telephone Company, a successful twenty-six year, privately-held United States [telecommunications] public utility company.

At its corporate headquarters in Houston, Texas, Monkey Island LNG's executive team is developing a natural gas liquefaction facility and LNG export terminal on Monkey Island in Cameron Parish, Louisiana. The facility will utilize cryogenic technology to liquefy approximately 2.1 billion cubic feet per day (bcf/d) of natural gas to produce approximately 15.75 mtpa of LNG for exportation globally."¹¹⁹ [My emphasis.]

The New Yorker wrote, in July 2019, about Hunter negotiating a \$40 million investment (for CEFC) tied to Michaels' Monkey Island project, saying this would "create thousands of jobs."^{120,121} But then Patrick Ho's legal problems interfered with any close of the deal. Hunter's recorded call, about Ho being the "fucking spy chief" overshadows the mentioning of the largest "LNG port in the world."¹²²

October 2017. Greg Michaels, who must have approached prior to this date, brings in his Monkey Island LNG Pitch along *with Magnolia LNG*, the more important of the two going forward.¹²³ Hunter's law associations (both in Louisiana and New York) meet throughout the Fall 2017 regarding multiple projects (these are but three of twenty-one)¹²⁴:

- Rosneft Trade Deal (minor percentage of sales of 100M gallons of Rosneft gas)
- Cheniere Energy LNG Plant 50% ownership pitch
- LNG Deals in Texas & Louisiana (presentations on Monkey Island and Magnolia LNG)

relationship, along with some fun along the way! **Hoping you can make NYC on Thursday.** Getting off a joint enterprise asap. The boys have the luxury of time, we on the other hand, are on a different clock. All kidding aside, the synergies feel right, let's get to it. Warm personal regards, Jim¹³⁶ [My emphasis. First Wall Street Capital, that shares the exact same address and floor occupation as China-friendly *Starr Companies* at 399 Park Avenue, Floor 2, is potentially tied into the Cheniere deal, at present, with the exact same price tag of \$12 billion and China power attached.¹³⁷

First Wall Street Capital notes that the LNG plant and distribution center is: United States Based, Cost \$12 billion USD. Participants:

- Top Chinese power industrial company [CEFC or another CCP company?]
- Giant international technology conglomerates
- Major international insurance and investment company [Starr Insurance Companies?]
- In place significant off take [exportation deals]¹³⁸

At this present time, it would be hard to assert the precise method of capital investment and track it back to *First Wall Street Capital*. Below: The diagram below would be where to start running down the who is invested in Cheniere Energy.

SEC Filings of Cheniere Energy, Inc. (Company Organization)¹³⁹

Notable as well, such export-targeted LNG outputs increased substantially over the course of the Biden administration as *The Advocate* summarizes:

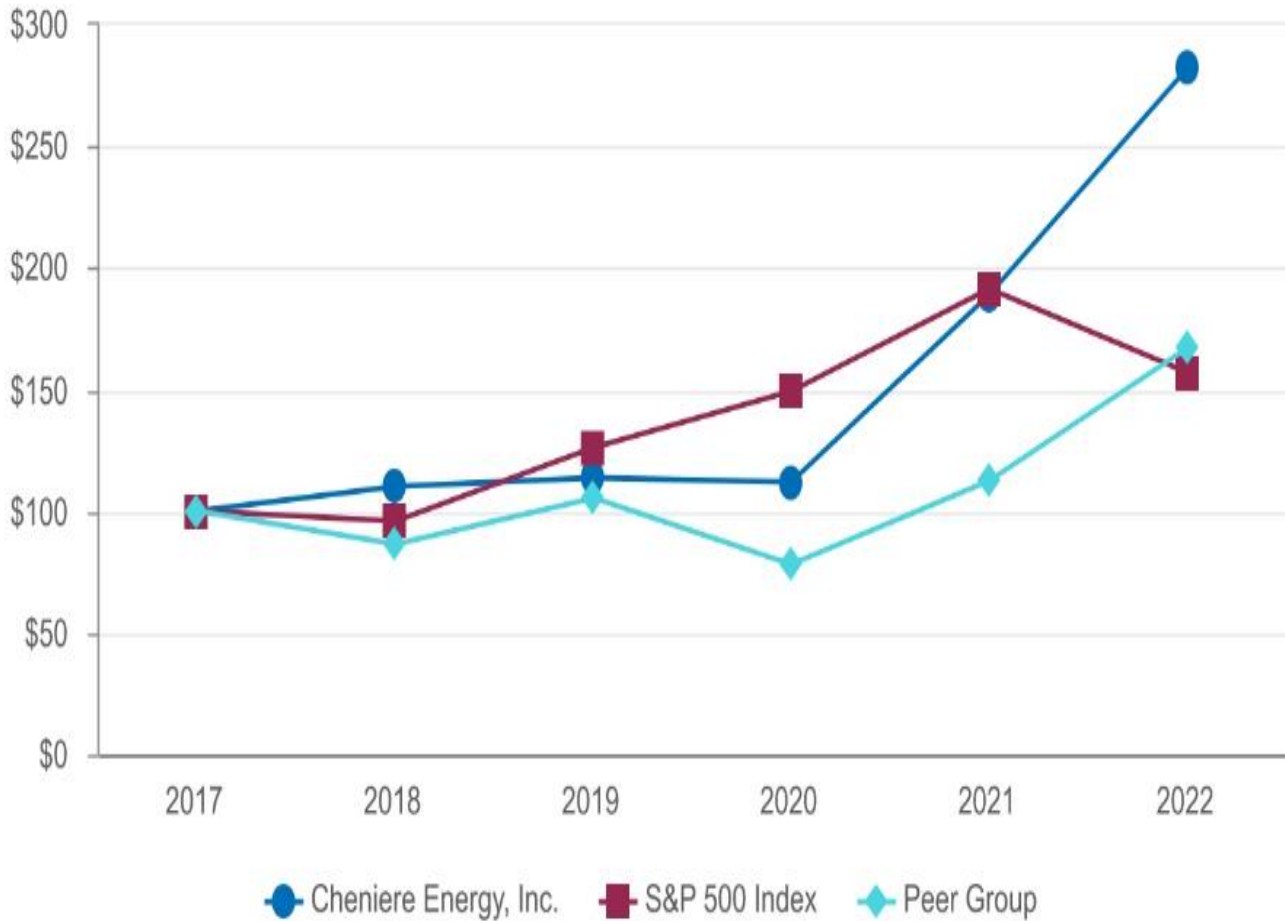

“Led by Louisiana’s three liquefied natural gas export terminals, the United States shipped out far more LNG in 2022 than it did in 2021.

The nation’s seven export terminals delivered more than **3.86 trillion cubic feet of LNG in 2022**, compared to nearly **3.56 trillion cubic feet in 2021**, according to the U.S. Department of Energy’s latest monthly LNG report, which covers the entire year’s total.

Of that total, **Louisiana’s three LNG terminals exported more than 2.45 trillion cubic feet last year.**

Sabine Pass LNG in **Cameron Parish** easily outdistanced the pack at **1.48 trillion cubic feet, nearly double the 753 billion cubic feet exported by Corpus Christi Liquefaction**, the second-place finisher. Both terminals are owned and operated by **Cheniere Energy**.¹⁴⁰ [My emphasis.]

COMPARISON OF CUMULATIVE FIVE YEAR TOTAL RETURN

Cheniere Energy 2023 10-K report for Year Ending December 31, 2022¹⁴¹

One would have to be blind to not see how the 2021 threats by the U.S. diplomats (Victoria Nuland)¹⁴² and 2022 actions of sabotage to the Nord Stream pipeline provided the additional boost to export out to Europe. That these numbers increased out of the exact same area with the LNG export projects that the Biden clan were discussing throughout the Fall of 2017 with their new Chinese partners cannot be dismissed as coincidental.

Magnolia LNG

Before going directly to Magnolia LNG, these insights are needed on its *prior financier*.

First Wall Street & Magnolia. *First Wall Street Capital* is ran by Glenn Myles whose background is rather hard to find.¹⁴⁴ The most substantive things found are since 2010 and tied to big players like Mike Milken, Bill Clinton, Chinese billionaires, and through his advisory board.¹⁴⁵ His WordPress site appears written by a China-friendly asset. That advisory board houses two major intelligence and judicial actors well-known (personally in one case) to likes of Hunter Biden.

Federal Judge and law partner at Freeh, Sporkin & Sullivan, Eugene Sullivan appears in the Hunter Biden Laptop alongside former FBI Director Louis Freeh. The Daily Mail's headline:

"Former FBI director Louis Freeh gave \$100,000 to a private trust for Joe Biden's grandchildren and spoke with the then vice president in 2016 'to explore lucrative future work options' with Hunter as the middleman."¹⁵²

Hunter Biden's friends in high places¹⁵³

Sullivan's bio at First Wall Street Capital includes this nugget: "Judge Sullivan was the covert General Counsel of the National Reconnaissance Office ("NRO"-a then super-secret US satellite intelligence agency)."¹⁵⁴ Sullivan was named chief judge of the U.S. Court of Appeals, under George H.W. Bush, the former CIA director, and later: Carlyle Group consultant in China.

R. James Woolsey is also a former director of the CIA, serving under President Clinton. A neoconservative, Woolsey's presence on this board adds intrigue. Louis Freeh (93-01) and Woolsey (93-95) were the top domestic and foreign intel heads at the same time under Clinton.

Woolsey – played a double agent during Trump’s 2016 campaign – contacting VP Joe Biden around September 19, 2016, regarding Gen. Michael Flynn Turkish-targeted activities. This while attached *loosely and unpaid* to the Trump campaign.¹⁵⁵ Reuters reported on October 24, 2017 that, “Woolsey was a member of Flynn’s firm, the *Flynn Intel Group*, according to a Justice Department filing.”¹⁵⁶ While *The Hill*, just three days later, on October 27, 2017, said: “Woolsey...attempted to notify the U.S. government about the conversation by informing then-Vice President Joe Biden about the matter through a mutual friend.”¹⁵⁷

Jonathan Franks, an informer of this news to *The Hill*, deleted his tweet about it.¹⁵⁸ Woolsey then assisted Robert Mueller in his expensive *nothing burger* that created chaos as it was intended. Mueller’s report wrapped up on July 24, 2019 with “I can’t get into that”¹⁵⁹ nearly 200 times – while Trump’s new problem: a phone call mentioning *CrowdStrike* and Joe Biden’s activities in Ukraine.

CIA forward operations base from a Ukrainian Titanium supplier?¹⁶⁰

On July 31, 2019, Glenn Myles and James Woolsey were named board directors for an obscure Ukrainian titanium mining company: **Velta**.^{161,162} Located in East Ukraine, one can see the strategic importance of this intel managerial oversight outpost. Glenn Myles is also member of the US-Ukraine Business Council that operations out of Washington, D.C.

In this same window of time (July 2019), U.S. Department of Energy head, Rick Perry, pitched (through his cohorts) exportation of *US LNG through Poland to Ukraine and then back to Europe*,

according to a 5,000-word *Time* exposé.¹⁶³ The Ukrainians in the piece sound like keen manipulators more than poor Ukrainians needing of U.S. assistance.

“The Ukrainians were never naive in their overtures to the Trump team. They realized that Trump was a businessman. ‘We studied his psychological profile,’ says Konstantin -Eliseev, who advised Ukraine’s President on foreign policy when Trump took office in 2017. Their strategy, says Vitrenko, was ‘to lure or to seduce’ the Trump Administration by offering deals to its officials. ‘It was typical for Ukrainian politicians,’ says the energy negotiator. ‘They thought that if they could, to some extent, corrupt the U.S. government, or get them interested commercially or personally, it would help.’”^{164,165}

More saliently, a Louisiana gas man appeared in this *Time* piece: William “Marsden” Miller. Miller’s presence here intersects with First Wall Street financing of Magnolia LNG and Miller’s successful bid (later pulled) on it.¹⁶⁶ Miller’s history is sketchy – and well – enter *Hunter*.

Miller is known to Hunter Biden as well. Miller pitched deals regarding LNG, China and Fosun Pharma in 2014.^{167,168} Biden’s lawyer friend at Steptoe & Johnson, Hunter Johnston, confirmed Miller’s bona fides, regarding China and windmills on March 18, 2014: “Good guys.”¹⁶⁹ The small world of billion-dollar LNG attracts all sorts of lawyers and leeches alike.

Glenn Myles with Vladimir Zelensky. Notice his Senior Advisor role to CEO CV Starr¹⁷⁰

CEO Glenn Myles has only 117 tweets on his account. On March 6, 2022, posted Reuters article “Biden, in a call with Zelensky, welcomes Visa, Mastercard decisions on Russia.”¹⁷¹ Going further back, Myles has a three-year gap on tweets going back to June 22, 2018, where Myles posts:

“What a proud moment it was to receive letters of congratulations from President Trump and Chinese President Xi Jinping at the Kickoff Party of CV Starr Companies Wed. night, recognizing 100 years of Service. #CVStarr #China #realDonaldTrump #Legacy #HankGreenberg #FirstWallSt”¹⁷²

Glenn Myles is not necessarily a fan of Trump. Myles “like” tweets bears this out. Of Myles’ 26 total likes, two occur on 2020 Elections (Lindell Symposium) and a J6-related tweets.^{173,174}

Overall, this reinforces the tight intersection of Ukraine-China-US dealings all through an operation that would be best described as “boutique investment banking heavily tied into intel.”¹⁷⁵

Magnolia’s financing came through First Wall Street. CEO Greg Vesey of LNG Limited, just weeks into the COVID-19 pandemic stated (on March 27, 2020):

“First Wall Street Capital Corp. has advised LNG Limited that it will not provide funds according to the terms of the legally binding secured convertible note subscription deed.”¹⁷⁶

This was even after LNG Limited found a buyer in LNG9 PTE Ltd.

“In late February 2020, prior to the pandemic, LNG Limited attempted to sell to LNG9 PTE Ltd., Singapore for \$75 million, but that deal fell through very quickly.”¹⁷⁷

Who Owns Magnolia LNG: An Early Hypothesis¹⁷⁸

Magnolia LNG lands in the same Louisiana basin that Bob Fenet called the "Silicon Bayou."¹⁷⁹ The Bidens' Chinese friends, particularly, JiaQi Bao, was highly intrigued by the potentialities of Magnolia LNG (& Cheniere) for her CEFC, China buddies.

Hey Hunter,

Hope everything is going well for you. My apologies for still not get a chance to get you the English translation of everything. Besides Thxgiving day itself, I have worked throughout the Thanksgiving weekend and time crunched in the last couple of days to finally manage to get the latest version of the Chinese report on Cheniere + the industry overview slides done as of now. I have not forgot about get you a good summary, promise.

Meanwhile, I'm attaching the Chinese version, because there are a few charts in it, with English labels, that I hope to share with you:

In "1. U. S. LNG Upstream y Midstream"

Starting @ 9th slides, you can see why some experts are speculating we might ended up have too many LNG terminals. and a list (in English) of every single LNG projects, doesn't matter whether ahead or behind of Monkey Island and Magnolia, as long as they are registered with the U. S. government or announced publicly at one point, they are all included.

It is a surprise to me as well that I ended up finding more projects ahead of our projects. And guess what? These projects either already secured every single permits you need or are much ahead than Monkey Island in the permit process, and even with that, some of these projects are struggling to find investments + customers.

In "Cheniere Document"

Checkout some charts of their company stock performance and the pictures of LNG terminals they have now. You will see that even without building extra miles of pipelines (like in the case of Cheniere and Monkey Island), you still need a whole system to support the LNG plant and export terminals etc.

From one's novice understanding of these LNG export projects, it takes 5-10 years from initiation of the concept to achieve significant offtake contracts. Such projects must go through numerous federal review stages (FERC approvals) and also make their final investment decisions (FID). Environmental studies, with conflict arising from various activist and environmental groups, routinely delay these projects, or abolish them altogether. But recently, the Biden administration, has green-lit certain projects around the Texas/Louisiana region (Texas LNG, also owned by Glenfarne) even against the administration's narrative regarding "environmental justice" being important, while determined to throw many trillions at "climate change."^{181,182}

Magnolia LNG, as discussed, was managed/owned by LNG Limited, an Australian outfit. Early in 2017, James Gilliar visited with our *Down Under* friends that speak English, if only differently. It appears Gilliar, a man with little accomplishments prior to 40, made good on his Australian trip as he netted *share options* from an British-Australian metal mining company worth \$13.75 million in December 2020.¹⁸³ This for a contract with a Czech energy company (CEZ).

But *LNG Limited* hold on Magnolia LNG was tenuous at best. Even with a U.S. lobbying team headed by the law firm of K&L Gates, it appears their efforts stalled from the Trump's administration "Tough on China" policy, that spotlighted trade deals, in general, and specifically, exportation of U.S. LNG to bad actors: namely, China. These resulted in tit-for-tat policies – but as such, that too offered opportunities to acquire distressed assets for a pittance.¹⁸⁴

As *CNBC* bullet pointed, discussing Magnolia LNG, "Terminal developers rely on contracts with buyers to finance their projects, and the tariffs make U.S. LNG less attractive to Chinese energy companies."¹⁸⁵ Then CEO of Magnolia LNG Greg Vesey said in late 2018, "Considering that, our communications with potential Chinese offtakers remain robust with the intent to complete agreements if trade tensions abate before Magnolia is fully sold out."¹⁸⁶

K&L Gates lobbying activity for Magnolia LNG started in 2013, confirming the longevity of such LNG exporting efforts.¹⁸⁷ LNG Limited was the client serviced for Magnolia's lobbying from 2017-2019.¹⁸⁸ The lead K&L Gates lobbyist since 2017 is Stacy Ettinger. She once staffed for current Senator Majority leader Chuck Schumer through 2016.¹⁸⁹ Hunter undoubtedly know who Stacy is through his emails and his directorship with the U.S. Global Leadership Coalition.^{190, 191}

Stacy's relationship with Magnolia started in 4th Quarter of 2017, resulting in a \$40,000 lobbying bill tied to "Foreign Investment review of LNG export projects and marketing of such projects (no specific legislation." Stacy's covered officials was a substantial list including, "Sr Cnsl, Sen Schumer."¹⁹² Stacy is also well known for her lobbying for ByteDance, the owner of TikTok.¹⁹³

If we need reminding, Schumer and Pelosi were front-and-center blocking Trump's administration, on any issue pursued, even when it would benefit their constituencies.¹⁹⁴ The point is never about the policy *per say*, rather: it's about *the appearance of being against something until the time is right to be for it*. And power. **Always about power.**

Stacy still lobbies for Magnolia LNG through *Glenfarne Energy Transition* in the 1st quarter of 2023.¹⁹⁵ She signed off digitally on this lobbying report.¹⁹⁶

This minor detour into the opaque world of lobbying is to show many hands get involved when there is billions in sales, to whomever will pay it, and how many millions to make off it by the those that *pretend to care about either: your country or your climate*.

Such worlds overlap when powerful persons discuss energy contracts. Which leads into *Glenfarne Group* or *Glenfarne Energy Transition*, which are one and the same. In 2022, Brendan Duval gave a talk at the *Transatlantic Energy Security Forum*, attended by Senators Joe Manchin (WV) and Bill Cassidy (LA).¹⁹⁷ This energy forum was started by CSIS in 2007¹⁹⁸, of which, Hunter Biden, was a council member for CSIS's Executive Council on Development.^{199,200,201}

From CSIS:

“CSIS sought to launch the TEF against a backdrop of growing global energy demand, tightening supplies and rising prices as well as the increasingly problematic issue of global warming. The rationale for the project rested on the assumption that energy and climate change have the potential to become dangerous and destabilizing factors in international relations but if addressed competently and comprehensively, they could also serve as a foundation for global and regional cooperation.”²⁰²

As mentioned before, the sabotage of the Nord Stream pipeline certainly provides a destabilizing action in international relations. And it is obtuse to think the Russians blew up a pipeline they control the flow of gas into, and could just as easily shut off until cooler heads prevailed – as there were early reports of a peace treaty nixed by US-UK leadership.²⁰³ (One does not have to support Russia. But there are reasons to stop warring – namely death. Diplomacy though does not provide the opportunity to pump \$100+ billion plus through a country known for kleptocracy.)

Biden's chief diplomatic hitman and known driver of 51 intelligence operators to lie to the American people, Secretary of State Tony Blinken, has been busy with Glenfarne's CEO Brendan Duval, *if held at arms' length*. First, testimony provided to the *House Judiciary* on April 21, 2023:

“A former CIA official [Mike Morrell] testified that then-Biden campaign senior adviser, now-Secretary of State Antony Blinken ‘played a role in the inception’ of the public statement signed by current and past intelligence officials that claimed the Hunter Biden laptop was part of a Russian disinformation campaign.”^{204,205}

Second, Fontus Renewables²⁰⁶, through Brendan Wolters, met with Secretary of State Blinken in Chile (below).

Third, Duval's business plan, since 2018, runs directly through South America²⁰⁷, Central America and the *Silicon Bayou*. This debt-financed plan²⁰⁸ has the obsessively eager support of Biden's

administration to become even more beholden to China through U.S. LNG exportation and solar, wind and battery elements produced overwhelmingly *in China*²⁰⁹ – that strip-mine Chile (and Africa) regarding their rare Earth minerals, and then sell back *finished* to the U.S or Europe.

China is being set up to run the Earth for the next 75 years. And bluntly, Xi & company don't care a single bit about the fake climate issue^{210,211}, offering to “work on it” starting in 2030.²¹²

So much for “bipartisan” intelligence of CSIS regarding any transatlantic energy security.²¹³

Glenfarne Group was formed by Macquarie Group veteran Brendan Duval in 2011.²¹⁶ His activities were uneventful on the LNG front for most of the 2010s. Instead, Duval worked on South American projects – buying up, or into, distressed assets for solar, wind, and hydro energy.

Glenfarne Asset Company, LLC formalized through an SEC filing on March 19, 2015, obtaining \$48,500,000 in the equity offering.²¹⁷ While a considerable sum of money, this is nowhere near the needed financing to get in the game of owning and bringing forth a multi-billion-dollar LNG project.

Enter JiaQi Bao & Natixis. JiaQi assistance was at the railhead of CEFC’s plans, offering Hunter advice. Particular, the who and whom to work with regarding deals.

She wrote on January 8, 2018:

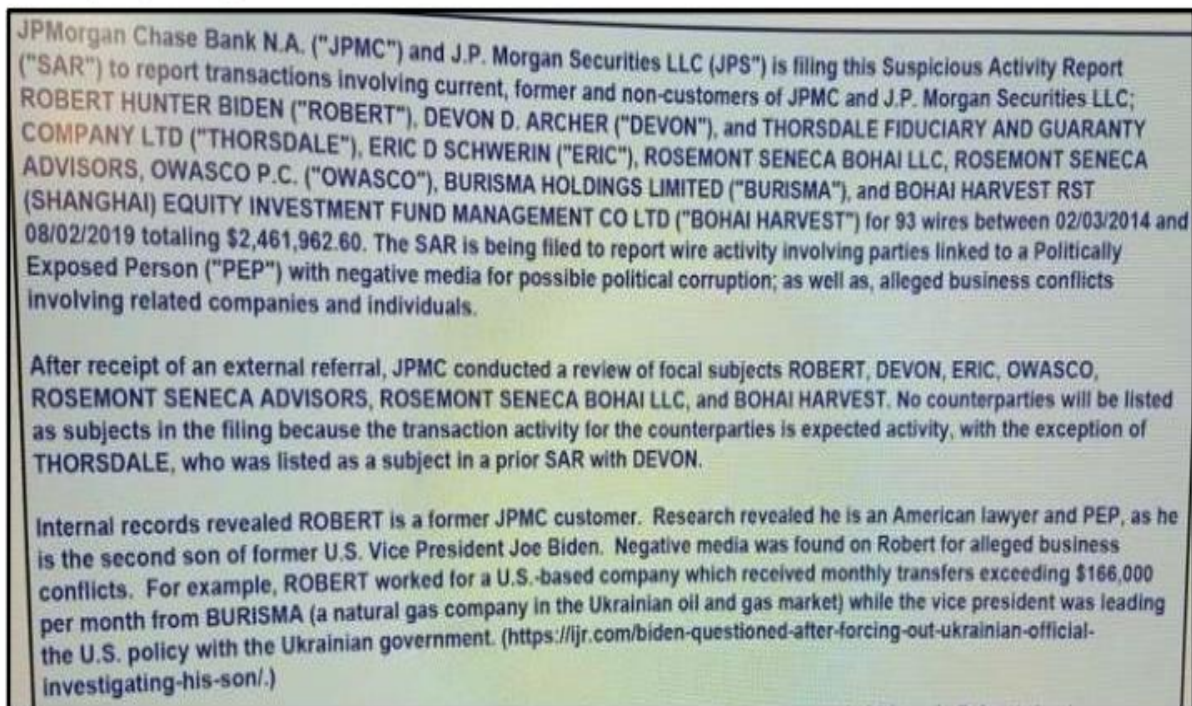

“For instance, my family friend David Eldon, chairman of HSBC Middle East and board of director of Noble Group might be a person I think would worth your time to talk to. Besides explor[ing] possibility for business collaboration, he might be a good conservationist with interesting ideas that might benefit our business. Same thing with a couple of my other contacts in the energy sector, such as Joy Bhaswar of Natixis + my other Natixis contacts and friends.”^{218,219} [My emphasis.]

Natixis is a French investment bank that operates under, “Groupe BPCE, the 2nd-largest banking group in France.”²²⁰ “Joy” is the nickname for Bhaswar Chatterjee, the “Managing Director, Co-Head Americas Credit Syndicate at Natixis CIB Americas.”^{221,222} Mr. Chatterjee was promoted to this position via a Natixis announcement in 2016.²²³

In late April 2023, Joy attended a *Bank of China, USA* celebration – “The event included a group of panelists featuring esteemed leaders in the Asian-Pacific American community...Chatterjee (Joy) Bhaswar, Managing Director and Co-head of Americas Credit Syndicate of Natixis, that spoke about...anti-Asian discrimination”²²⁴ – reflecting where JiaQi developed this relationship. *China Daily* reported on this as well.²²⁵

The *House Oversight Committee* produced SARs that are controlled through the Bank of China. Bhaswar Chatterjee’s coziness to their USA outlet explains further JiaQi Bao’s suggestion.²²⁶

The SAR details “93 wires between 02/03/2014 and 08/02/2019 totaling \$2,461,962.60” to and from businesses and associates linked to the Biden Family and a Shanghai based investment fund controlled by the **Bank of China**. The SAR identifies Hunter Biden as a “politically exposed person.”

JPMorgan Chase Bank N.A. ("JPMC") and J.P. Morgan Securities LLC (JPS) is filing this Suspicious Activity Report ("SAR") to report transactions involving current, former and non-customers of JPMC and J.P. Morgan Securities LLC; ROBERT HUNTER BIDEN ("ROBERT"), DEVON D. ARCHER ("DEVON"), and THORSDALE FIDUCIARY AND GUARANTY COMPANY LTD ("THORSDALE"), ERIC D SCHWERIN ("ERIC"), ROSEMONT SENECA BOHAI LLC, ROSEMONT SENECA ADVISORS, OWASCO P.C. ("OWASCO"), BURISMA HOLDINGS LIMITED ("BURISMA"), and BOHAI HARVEST RST (SHANGHAI) EQUITY INVESTMENT FUND MANAGEMENT CO LTD ("BOHAI HARVEST") for 93 wires between 02/03/2014 and 08/02/2019 totaling \$2,461,962.60. The SAR is being filed to report wire activity involving parties linked to a Politically Exposed Person ("PEP") with negative media for possible political corruption; as well as, alleged business conflicts involving related companies and individuals.

After receipt of an external referral, JPMC conducted a review of focal subjects ROBERT, DEVON, ERIC, OWASCO, ROSEMONT SENECA ADVISORS, ROSEMONT SENECA BOHAI LLC, and BOHAI HARVEST. No counterparties will be listed as subjects in the filing because the transaction activity for the counterparties is expected activity, with the exception of THORSDALE, who was listed as a subject in a prior SAR with DEVON.

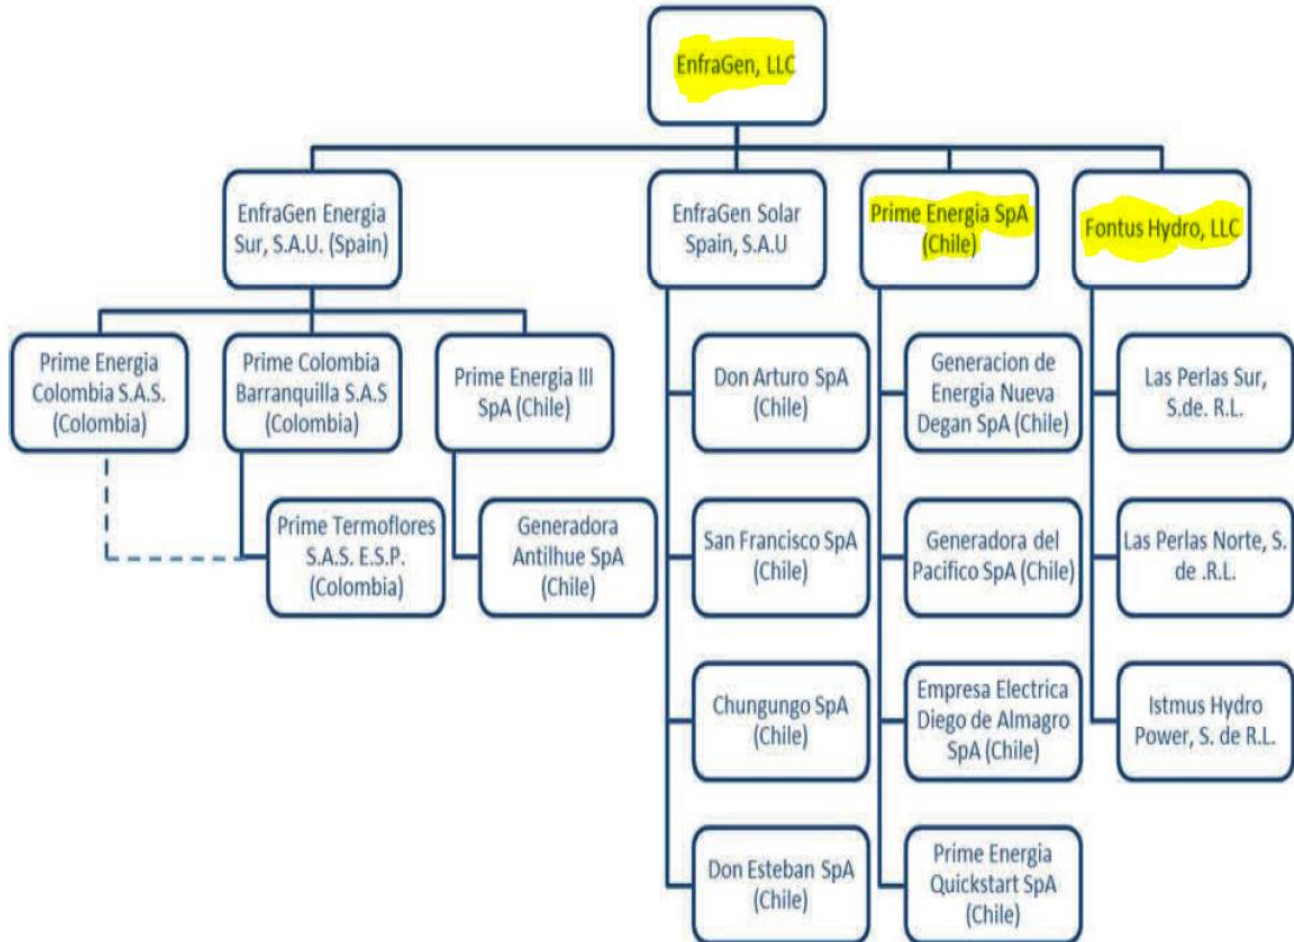

Internal records revealed ROBERT is a former JPMC customer. Research revealed he is an American lawyer and PEP, as he is the second son of former U.S. Vice President Joe Biden. Negative media was found on Robert for alleged business conflicts. For example, ROBERT worked for a U.S.-based company which received monthly transfers exceeding \$166,000 per month from BURISMA (a natural gas company in the Ukrainian oil and gas market) while the vice president was leading the U.S. policy with the Ukrainian government. Duval's experience at Macquarie Group, based out of New York City, has a plausible early interaction made with Hunter's China nascent dealmaking days. Albert Tse was at Macquarie Group (Beijing)²³¹, where Tse discussed IPOs, meeting the Vice-Chairman of China, and his Australian travels in 2011.²³² Tse married (and later divorced) former Australian PM Kevin Rudd's daughter, Jessica.²³³ Duval and Tse Macquarie experience overlap by three years.²³⁴

Rudd just became Australia's Ambassador to the United States in March 2023. Rudd's most recent position: Both President and CEO at the Asia Society Institute.²³⁵ Fluent in Mandarin, Rudd wrote his doctoral thesis on: Xi Jinping and Marxist Nationalism.²³⁶

Rudd is substantially known to all the "power" players operating on *The Great Reset*.²³⁷

ECB Head Christine Lagarde, World Bank Head Ajay Banga & former PM Kevin Rudd²³⁸

Tse knew well Jonathan Li, Hunter's Bohai business partner²³⁹, while stationed in Beijing.²⁴⁰ Tse is among a privileged "princeling" class that invoke racism (against Asians – Tse was in Hong Kong until 1989) to demonize local populations in Australia and throughout the Western World.²⁴¹ Hunter Biden (as well as Duval) associates are fully bought into such demonizing. And their hypocrisy and, in Hunter's case, father's own past – tell the real story of who is the racist.

Those that scream about it the most...are usually the most.

Hunter's friends in Beijing included Macquarie Capital & Aussie PM's Son-in-law²⁴²

Duval's days at Macquarie were substantial – and Tse's rise in Australia undoubtedly put him in the basket of people to know. (Tse worked for Rudd starting around 2000?) Duval's lead director at Glenfarne is Vlad Bluzer. Bluzer is the managing financial director at Glenfarne²⁴³ with deep financial connects if SEC filings are accurate. (His brother Stan works at J.P. Morgan Chase (New York).²⁴⁴)

From SEC filings:

"Mr. Bluzer was an Associate Director at National Australia Bank's Hong Kong and Shanghai offices, responsible for the provision of investment banking and funding solutions to the Asia Pacific real estate industry, having been instrumental in building National Australia Bank's advisory and capital-raising capabilities in the region. Before relocating to Asia, Mr. Bluzer had a successful career with National Australia Bank's Project Finance team based in Sydney, Australia, where he focused on the provision of non-recourse project financing for projects from all major industry sectors."²⁴⁵

Hunter Biden, from 2010 to 2016, was *routinely* able to interact with the top names in investment banking and hedge funders. Case in point: *Third Point LLC*.

April 12, 2019. Brendan Duval secures total rights to Texas LNG through a "change of control" from Third Point, LLC Holdings to Alder Midstream, LLC. Glenfarne operates Alder that controls Brownsville LNG Holdings LLC that in turn controls Texas LNG.²⁴⁶ (See diagram further below.)

Hunter Biden sent and received numerous emails for seven years (2010-2016) to both of Third Point's top executives. CEO Daniel Loeb and COO Josh Targoff discussed a range of topics with Hunter, from investments, Rosemont Realty (potentially), to Beau Biden and passport help for a key associate of Josh Targoff. During this time, Third Point occupied 390 Park Avenue – right across the street from Starr Companies & First Wall Street. This was true until at least September 2017, and likely to the start of 2018, as they changed locations, moving out of mid-town.²⁴⁷

I am sorry to be so direct but for the final time I am not in Business with CEFC. I have never been a partner with nor an affiliate of CEFC.

I am amazed that my fellow board members do not see the inherent conflict such an arrangement if true would create for the chairman and Mervyn and Kevin and Jaqi personally.

Under US law if the Chairman and equity holder of a corporation partnered with a US LLC (Owasco) through ownership of his wholly owned US llc (Hudson West) was in reality and practice using CEFC employees and money to operate a privately held company there would be an enormous conflict of interest.

The notion that you and Kevin and Jackie are insisting that such an illegal scheme is in fact your understanding of how this company is organized - well then I would say in light of the ongoing investigations you should not be surprised by warrant being issued related to this.

That is why I am stating unequivocally with no room for different opinions or interpretation- I am not in a JV with CEFC. I am not partners with CEFC. I am not employed nor funded by CEFC.

My expenses will not be reviewed by any CEFC employee. The President of CEFC has no right reason nor ability to terminate HWB.

Robert Bensch, related to Miller *by marriage*, was appointed to the Board of Naftogaz in Ukraine. Later, in October 2019, Miller's past was used by Ukraine to pull out of sale of pipelines to export gas to Europe. Miller was furious and mentioned the Southern District of New York.²⁵⁸ ([Time](#))

K&L Gates Susan Ettinger files lobbying documents for Glenfarne

April 20, 2023

Approval of Glenfarne-operated Texas LNG by FERC commission.

Glenfarne public relations arms has stated that:

- 1) \$4 Billion potential build of Export LNG plant.
- 2) A French company and Samsung Engineering supporting it.
- 3) Mitsui finance this as in the July 2018 EnfraGen deal.

Hunter, JiaQi Bao, Rick Niu, and CEFC are the central node for *Project White Light*, Hudson West III/IV, and various dealings noted above. Rick Niu contacted Hunter out of the blue in 2018 and 2019, long after White Light had been moved ahead with CEFC's monetary largesse showered onto Hunter, Jim, and Sara Biden, et. al., and long after Rick was supposed to be invisible to the deal.

Hunter's emails with Rick Niu (Starr) and Eugene Sullivan at First Wall Street (FWS) establishes communication channels. Magnolia was held in FWS's private financing portfolio – LNG Limited can attest to that.

It is not hard to see that Bill Miller may have been merely a stopgap measure until a suitable, less-connected-to-Hunter suitor could be found. Miller certainly has connections to big time (law-related) Louisiana-based people, going back to the 1980s. His conviction was in respect to that.

Enter Glenfarne who we can surmise is not merely a per chance entry here. The connections through Macquarie, JP Morgan Chase and Australia into New York City makes this a very well-kept secret network. Natixis is one node of entry.

Rick Niu contacted Hunter one time each in 2018²⁷¹ and 2019.²⁷² Below is his 2019 email.

*Why? Joe Biden and running for President.*²⁷³

Hunter,

I noted your father's latest comment. If he does decide to run, I wish him all the best! Hope you have been well.

Warmly,
Rick

Who else contacted Hunter out of the blue? JiaQi Bao, four days later.^{274,275}

Hunter received advice on Biden versus Trump from JiaQi Bao.

Greetings, Hunter!! Hope this email finds you well. Happy Spring! While catching up on newspaper reading, thinking of you and Uncle Jim.

You should not be distracted by random media articles. You need to help Uncle Joe run for President. Your father really should run for 2020 for this country.

He will be one of the best presidents in our country's history! I truly think so, especially after reading the wonderful books he wrote. Not only for our country and for American people, his party, also for Beau and for the spirit of your family, he really should run!

Then Hunter's laptop quits working on St. Patrick's Day.

Natixis was a JiaQi suggestion. Natixis has been busy in this part of the energy market – but is that by a climate change, ESG choice, or at the urging of Chinese interests that have tentacles

into energy companies? They can sell them all the “green energy” parts – while the CCP continue to use coal and fossil energy to superpower their economy, environmental damage, be damned.

Hunter Biden is well-acquainted with Third Point. He had direct contact with a multi-billion-dollar hedge fund that held Texas LNG interests until April of 2019. This exit after five years (equity stake from 2014²⁷⁶) happened just weeks after Hunter Biden’s laptop breaks and 2 CCP contacts *out of the blue*. Then, his father entered the Presidential race before April 2019 ended.

Greenberg & Traurig (G&T) was attached to Texas LNG. Glenfarne Group uses G&T in their SEC filings. Hunter Biden’s former investment, Rosemont Realty (2010-2015), according to Devon Archer (2011), had G&T “*of counsel*.”²⁷⁷

Gemini Rosemont Commercial is still located in New York City at 200 Park Avenue South.²⁷⁸

Ukraine is home to a host of U.S. “investments” – from 2014 to the present.

Whether it is LNG Export, Burisma Holdings, Metabiota, Naftogaz, Velta, Ukraine, this is happening place for the USA. There is a high number of intelligence operations going there as well. Burisma put Bush era CIA Counterterrorism chief Joseph Cofer Black on their board in February 2017. Velta put former CIA director James Woolsey on its board in July 2019.

Seems the CIA is never far from the action.

Anthony Blinken trip to Chile got him in touch with Glenfarne subsidiaries. While Glenfarne’s Brendan Duval is talking to LA Senator Cassidy (where Magnolia LNG is located).

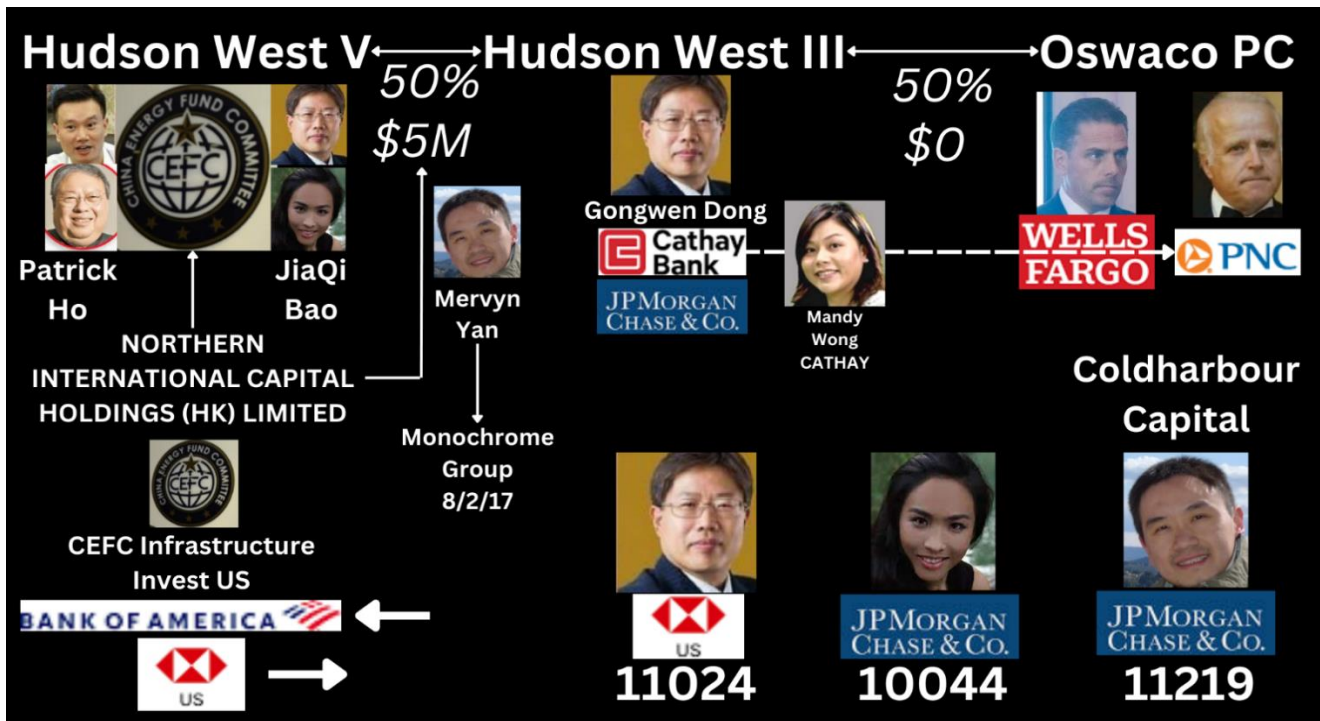

CSIS has history with Hunter Biden on its board.

~

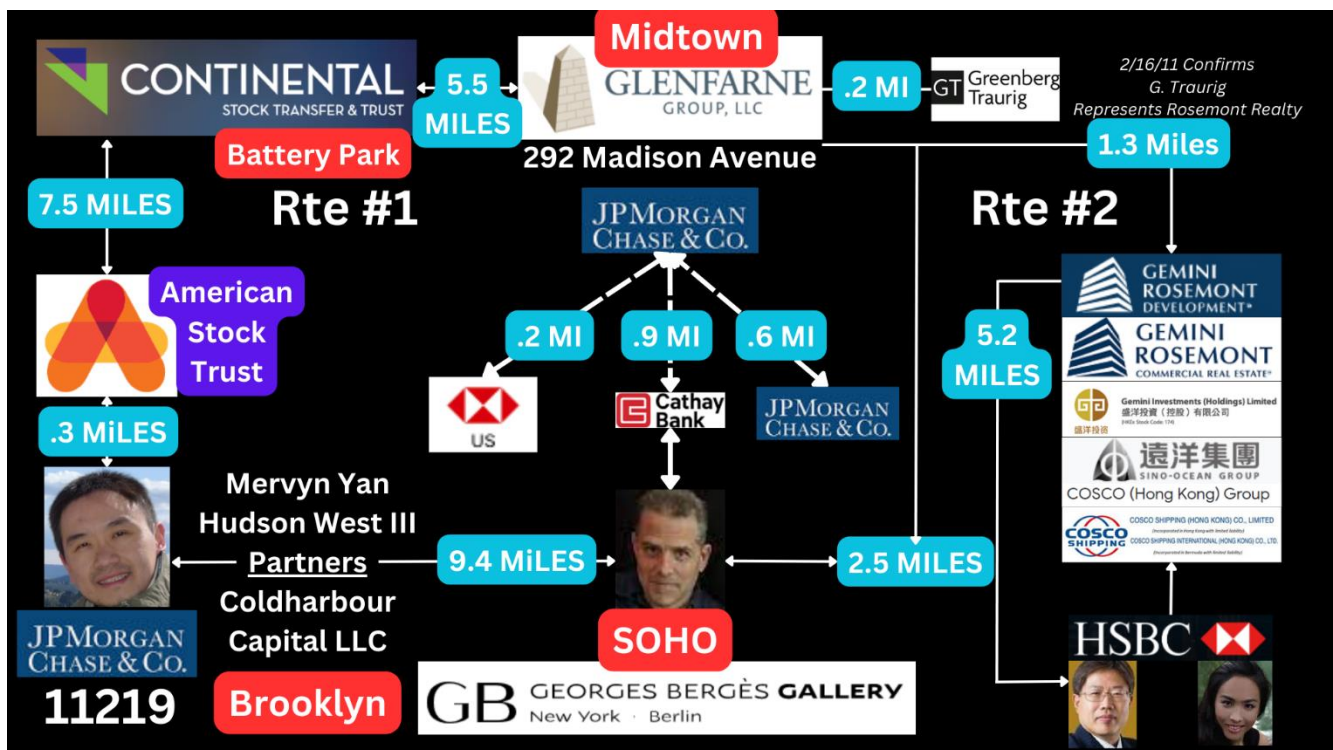

Hunter is highly incentivized to get these assets into a New York-based energy-related company that can be controlled correctly by the “right” folks and tapped into by himself or his China buddies.

And that is the hypothesis in the next section.

New York Minute & Stock Trust Companies

The following are two hypotheses on how Hunter Biden and/or CCP assets have ownership or recently cashed out their profits off the LNGs tied to Glenfarne. The proximity of places and entities Hunter and his Chinese friends live by, make this plausible. One admits they had never seen a "Sponsor, LLC." ownership. But one is not a "Wall Street" guy. Since this all occurs in the Southern District of New York – one can see easily this will never be pursued for prosecution.

Stock Trust Transfer

Mervyn Yan lives in Brooklyn close by American Stock Transfer.²⁷⁹ Yan does his banking with JP Morgan Chase, like Glenfarne does. The verified stock certificates held in Continental by Glenfarne could be transferred (opaquely) to American by courier (and therefore, blindly) with the appropriate sign offs had through “The Sponsor” and Greenberg & Traurig. (Any SEC or Trust filings can be delayed. The SPAC entity ceased its business formation on March 23, 2023.)

Hunter could have either received a slice off the nearly \$62 million (22.5% of Glenfarne’s final dissolution); or split these deposits up into re-occurring installments as he desires it.

Basically, a Stock Trust operates as a bank to drawn down from – starting all from a minimal investment in July 2020.²⁸⁰ (With assurances to greenlight all of the Duval’s deals in the U.S., et.al.)

Yan would exploit the Georges Berges Art Gallery as the next step intermediary – which explains the art showings where Hunter’s paintings are shown.

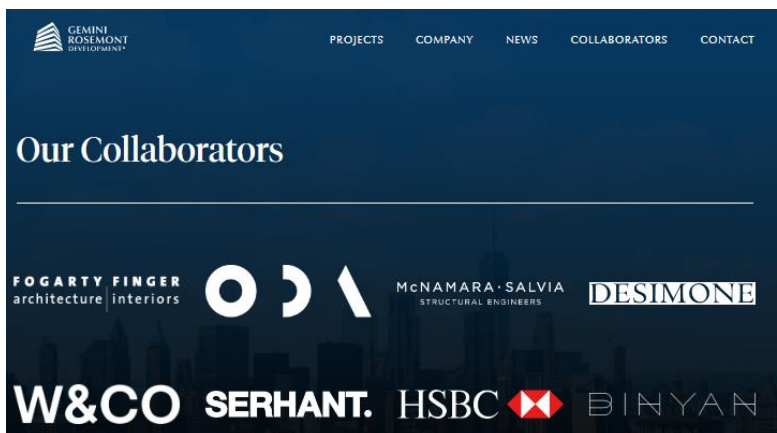

The Chinese would likely maintain their percentage in Duval’s deals, if they are jointly involved.

Since Glenfarne is no longer a Publicly-traded company – their financials are now opaque; and no one will notice where this money went until many years later. (If even then.)

COSCO ownership or Gemini Rosemont (former investment of Hunter Biden)

The COSCO route is more complex – but not much.

Gemini Rosemont Development partners with HSBC.^{281,282} HSBC is the bank of choice for “Kevin” Gongwen Dong and JiaQi Bao’s HSBC connections.

One cannot confirm whether Hunter completely cash out of Rosemont Realty in early 2016. He was told about a final Share C transaction, but no follow-up email from Hunter exists.²⁸³

However, on March 10, 2017, Eric Schwerin wrote regarding Hunter’s equity interests²⁸⁴:

“If it comes up, per your question a couple of days ago, the following are all your equity interests you hold ultimately via Owasco, LLC.

(They may pass through a couple other things too.)

- Rosemont Seneca Advisors (which holds equity in Harves and Nevergole projects)
- RSP Investments (BD)
- BHR (once share transfer is complete)
- Eudora (ePlata, CitizensRX, LineUp Media)
- Tadich Grill
- RSTP I, RSTP II Alpha and Bravo (this may be technically held individually which is why I carved it out in agreement)
- Equity Distribution Trust (Beau legal cases - likely finished)
- Rosemont Realty
- American Well²⁸⁵

[My emphasis.]

Gemini-Rosemont is actually owned by COSCO (China) through Hong Kong and lesser subsidiaries. The Chinese are excellent at masking ownership of U.S. asset companies through Shanghai and Hong Kong entities. Peter Schweizer has been on this for many years.²⁸⁶

Figure 3: Diagram of the \$100,000 payment from CEFC to Hunter Biden.

U.S. House show how Chinese operate their entities without anyone being the wiser.²⁸⁷ Thus showing how to add in new members and then route through them.

If Hunter did receive a piece of the action through (\$55,000-\$225,000 per painting)²⁸⁸, would this realty company buy up décor from Georges Berges?

It wouldn't be Hunter's art, or would it?

Glenfarne Sponsor, Who Owned It?

This is the ultimate question to this intel report. One cannot ascertain that answer directly. But others can know that answer. First, Glenfarne Merger Corporation was formed as a SPAC.²⁸⁹ Second, Glenfarne Sponsor, LLC SEC filings (GS)²⁹⁰ noted a host of persons, outside Brendan Duval, that provided their Power of Attorney at the start of GS, on February 25, 2021.²⁹¹

- | | |
|---|---|
| <ul style="list-style-type: none"> • Brendan Duval • Greenberg & Traurig • Continental Stock Transfer & Trust • Alan I. Annex²⁹² • Jason T. Simon²⁹³ | <ul style="list-style-type: none"> • Brian N. Wheaton²⁹⁴ • Spencer Cercone²⁹⁵ • Tim Cory²⁹⁶ • Sang Koo²⁹⁷ |
|---|---|

Alan I. Annex practices for Greenberg & Traurig (GT) out of its HQ in Miami.²⁹⁸ Alan works on SPACs, M&A, and attended the World Economic Forum as a delegate in 2011.²⁹⁹ In previous SEC filings, Annex is listed, alongside his routine co-counsel, Jason T. Simon (from the VA office)^{300,301}:

“Greenberg Traurig, LLP, 1750 Tysons Boulevard, Suite 1000, McLean, VA 22102”³⁰²

But it also appears (GT), with these two operating together, utilized the Met Life building at 200 Park Avenue, New York, New York 10166.³⁰³ This reflects flexible filings based off the client they represent. Hunter knows the McLean area, getting quotes from *Bowa* on remodeling.³⁰⁴

Spencer Cercone was of GT as well until March 2021, right after Glenfarne Merger Corporation was established. Cercone completed other key legal filings for Glenfarne. But his most interesting

legal work came many years ago, working for the U.S. attorney's office in Pittsburgh from June 2008 through January 2010 and the U.S. Securities and Exchange Commission, Office of International Affairs, during the summer of 2015, while Obama-Biden were in office.³⁰⁵

Brian Wheaton is also a current GT shareholder, based out of New York, working on SPACs.³⁰⁶

Tim Cory was formerly of GT's New York office, and now works for Kirkland Ellis in Los Angeles.³⁰⁷

Sang Koo was a summer intern at GT³⁰⁸, but now works for Baker McKenzie and lives in London.³⁰⁹ Koo was at Georgetown for a substantial amount of time, 2009-2020, after his education at Choate Rosemary Hall (ranked in the top five amongst the prestigious preparatory schools).³¹⁰ However, it appears his full name is "Sang Won Koo" who is registered in New York for his law licensing.³¹¹

Hunter Biden is very familiar with New York (and Miami) as the latter is where the CEFC dealings kicked off. His buddy Rob "John" Walker booked Hunter a stay at Nobu Hotel Miami Beach, Miami Beach for February 13-14, 2017.³¹² Biden's Google notification notified him of this on February 12, 2017.³¹³ Interesting, during this time frame, Hunter's iPhone goes missing, traveling around Miami Beach up to North Miami before Chairman Ye attends the boat show.³¹⁴

Shortly thereafter, Hunter's emails are populated with "available ladies" from Snap Candy and Cam Soda in the Miami area. These emails landed in his inbox until his laptop broke in 2019.

~

An agreement made between the registrant and the sponsor had this key passage³¹⁵:

"This Letter Agreement shall be governed by and construed and enforced in accordance with the laws of the State of New York, without giving effect to conflicts of law principles that would result in the application of the substantive laws of another jurisdiction. The undersigned hereby (i) agrees that any action, proceeding or claim against him arising out of or relating in any way to this Letter Agreement shall be brought and enforced in the courts of the State of New York of the United States of America for the Southern District of New York, and irrevocably submits to such jurisdiction, which jurisdiction shall be exclusive and (ii) waives any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum."

Greenberg's Jason Simon responded to ask Glenfarne to amend/correct by-laws.

In Glenfarne's IPO, they noted that, "the net proceeds of this offering and the sale of the private placement units will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A. and, with Continental Stock Transfer & Trust Company, acting as trustee...The transfer agent for our common stock...is Continental Stock Transfer & Trust Company."³¹⁶

Glenfarne Sponsor, LLC put in \$25,000 on July 22, 2020.³¹⁷ Their share of proceeds: **\$61.9M.**

Final Assessment

While one can say, this is just a normal operation buying up available distressed assets and being positioned well inside the industry, others can ascertain that Hunter is connected to a substantial number of interests that interacted with these two LNG properties.

Glenfarne's massive uptick in debt financing (\$700,000,000) mere months after JiaQi Bao was telling Hunter which contacts to make (Bhaswar Chatterjee), and where to make them (Natixis), was very fortuitous. Acquiring Texas LNG from Hunter's friends at Third Point LLC alliance is also very well-timed. This happened just a month after JiaQi and Rick Niu reached out in March 2019.

Thereafter, Magnolia LNG comes into Glenfarne's hands through First Wall Street Capital pulling of LNG Limited's financing. Bill "Marsden" Miller, recommended by the lawyer son of a former Louisiana Senator (who served with Joe Biden for 25 years) to Hunter Biden, comes in to win Magnolia, and backs out. Marsden was a side kick of former Texas governor Rick Perry in Ukraine. And, just by chance, First Wall Street has heavy CIA connections to Ukraine.

Glenfarne gets their second LNG property and rights to their technology as well. Both properties, since 2021, are moved along rapidly to a final investment to boost the U.S. export LNG market. This while other energy projects under the Biden administration are stalled, suffering or eliminated. One has to ask why this is. What is behind this preferential treatment?

Brendan Duval LinkedIn posts – 2 of them – reflect again, Hunter connections. First to the CSIS organization about export LNG and energy security needed; and then, Secretary of State Anthony Blinken's talk and photo op with Glenfarne's second-tier subsidiaries while in Chile. Blinken, the driving force behind getting Joe Biden clear of Hunter's laptop, urged 51 intelligence agents to disinform the U.S. population about the gravity and depravity on Hunter's laptop. It worked.

CEFC's *Project White Light* never stopped. Hunter Biden, Jim Biden, Sara Biden, Rob Walker, and others took Chinese blood money in the many millions.³¹⁸ This while the media kept the public busy with the Mueller investigation shenanigans that too costed many millions.

The answer here turns on being able to ask (and get answered):

Who owned 22.5% of Glenfarne Merger Corporation as the *Glenfarne Sponsor*?

What legal avenue can be sought that will get that question answered?

New York's Southern District is a hot bed of corruption with substantial lawfare tactics deployed by people that are representatives of all U.S. Citizens, not just the ones that voted for them.

But really, it is beyond that.

We are seeing abhorrent disregard for Constitutional responsibilities by this President, and so many before him as well. And soon enough, if this persists, the lights will go out on this country permanently.
